PPLPMDL0080000001	Akron	OH	44309	4/6/1999	OXY INSERVICE, ALL NURSES AND DOCS COMMITTED TO START USING
PPLPMDL0080000001	Cleveland	OH	44195	4/6/1999	What will she do for me now?? What are their uses of Oxy? Acts like she uses oxy but really can't. Says uses msc instead of Om.
PPLPMDL0080000001	Solon	OH	44139	4/6/1999	he is not using oxy in the post op setting.he is reserving for the chronic setting.his favorite combo is lortab.talked about incidence of generic and se and compared pharmaco of oxy to the combo's.
PPLPMDL0080000001	Cleveland	OH	44106	4/6/1999	Discussed ways to get to the IM residents. Got her name due to an onc follow/
PPLPMDL0080000001	Solon	OH	44139	4/6/1999	talked about a lot of different ideas but need to focus on short term use and compare to his vicodin use with patients.went over the fast and ir for breakthru on the higher dose patients.h is looking for reasons to use short term.need to go over the ad article and show the short term use and benefit.
PPLPMDL0080000001	Cleveland	OH	44195	4/6/1999	Sd tried sugg to staff to use when put block or pump in in place of Vic/not totally agreement because the pt may only take 1-2 vic/day after the procedure. Hard to tell what they will do.
PPLPMDL0080000001	Cleveland	OH	44195	4/6/1999	Cocky but says has used and is seeing more being used recently. Hard to get to the residents.Discussed a happy hour
PPLPMDL0080000001	Cleveland	OH	44195	4/6/1999	rEALLY NOT USING.Need to get to him and others and remind again. Problems with hospital phcy ad they don't like the call-backs
PPLPMDL0080000001	Cleveland	OH	44195	4/6/1999	Says still using even though phcy gives them a hard time.Not as friendly as usual but says it works good and will cont. He writes all his own rx now
PPLPMDL0080000001	Solon	OH	44139	4/6/1999	talked about using oxy in the post op setting and not just for the chronic tough to treat cases.need to follow up with vic comparison and perc conversions.
PPLPMDL0080000001	Mayfield Hts	OH	44124	4/6/1999	4-6-99 Will schedule appointments for new products and information. Made intro. Next call find out stocking on floors and how it gets approved.
PPLPMDL0080000001	Lyndhurst Mayfield	OH	44124	4/6/1999	Discussed regulatory and abuse concerns. Bring in nonmalignant pain data. Find out what MSC was ordered on rebate offer.
PPLPMDL0080000001	Cleveland	OH	44102	4/6/1999	Bill LaMoreaux, Richard Douglass, Dennis : Overview of Oxycontin - where it fits, complete family, vs. Duragesic. Bill says he uses a lot of Duragesic - discussed problems with it. He just went to WestShore Pain presentation. discussed inservices - gave Richard references to call (Beth Giannini - NCS and Lynn Ensinger - Jennings Hall) Richard handles education - would refer on to nursing staff if suitable. E-mail objectives to Richard.
PPLPMDL0080000001	Bay Village	OH	44140	4/6/1999	Denise and Jackie - dropped off new inservice brochures to hand out. Discussed Darvocet usage in the nursing homes , explained HCFA regulations. Areas in nursing homes for improvement - assessment skills, communication, general knowledge of whats new. Drop off materials to them on Friday for Bay show next week. Get AHCPR guidelines to nursing. Denise will schedule lunch or dinner with pharmacists for pain inservice.
PPLPMDL0080000001	Beachwood	OH	44122	4/6/1999	dropped off bagels - during Passover! Jenny - told her about lunch with Greg Oswald and pricing concerns with single doses - she says they want to receive an order of 10 for emergencies - not only 1. Many times they have admits during the weekend and need the meds. Still working on the Fall conference with Michael Levy - not completed yet. She is doing talks down in Wooster - possibly for ONS for 50 nurses (2 talks).
PPLPMDL0080000001	Mayfield Hts	OH	44124	4/6/1999	Discussed differences between MSC and OXY. Nurses said they still use alot of Percocet. Got laxative protocol. Try to begin use at STEP 2 instead of Percocet.
PPLPMDL0080000001	Akron	OH	44319	4/6/1999	have all strengths, but the pharmacist doesn't know anything about pain management, he thinks every pts going to become addicted
PPLPMDL0080000001	Akron	OH	44307	4/6/1999	SCHEDULED RESIDENT LUNCH THROUGH KIM SELF
PPLPMDL0080000001	Akron	OH	44309	4/6/1999	MET RESIDENT, DR. ESPINOL. GOT COMMITMENT FOR NEXT CASE TO PUT ON OXY. GAVE ME CHIEF RESIDENT NAME TO SCHEDULE JOURNAL CLUB
PPLPMDL0080000001	Akron	OH	44307	4/6/1999	TRYING TO GET INTO SURGERY LOUNGE, NO GO. GOT GARY TOMKO NAME TO CONTACT AND ALSO LYNN RATHGRAFF, RN OF OR.
PPLPMDL0080000001	Akron	OH	44333	4/6/1999	Dr doesn't make any sense. He will use oxy on more severe pts, knees or hips, but his reasoning for not using oxy in place of vicodin for ambulatory patients is one cost and he says that pts that take more often q4 they feel that they are getting better pain relief, so basically he thinks that pain is mainly psychological. I replied that they use oxy for more severe which gives pain control, so why don't your lesser pain pts deserve the same pain control, he had no response.
PPLPMDL0080000001	Gates Mills	OH	44040	4/6/1999	4-6-99 Quick hit to remind him. Data shows no use. Will meet with Ann, chemo nurse for ideas. Scheduled lunch, usually more receptive then. Find out where he perceives OXY useful.
PPLPMDL0080000001	Solon	OH	44139	4/6/1999	he does not use any theophylline.need to find out if add on valu will be helpful.need to find where and when he is using oxy.
PPLPMDL0080000001	Mayfield	OH	44143	4/6/1999	4-6-99 Uniphyl quick hit. Reminded him of Oxy. Karpil reprint next call. Advantages over short acting opioids and dosing.
PPLPMDL0080000001	Akron	OH	44304	4/6/1999	hasn't thought of oxy as something he woul of used. he typically uses vic, introed oxy, comitted to using. say he needs constant reminders.
PPLPMDL0080000001	Cleveland	OH	44195	4/6/1999	Too nice and really ready to retire. Uses Oxy almost exclusively but only when they need LA-how does he decide and what does he con sider a "need" for LA? will HE use with pumps or blocks in place of vic??
PPLPMDL0080000001	Akron	OH	44308	4/6/1999	LET HIM KNOW THAT I'M PRESENTING TO BURN UNIT, ASKED TO START USING OXY IN THOSE PATIENTS.
PPLPMDL0080000001	Maple Hts.	OH	44137	4/6/1999	he does not get to follow up with patients and likes to be somewhat conservative.he is using t3 and vicodin on a routine basis.went over differences between oxy and the combos.pharmaco and q12 dosing.addiction and street valu are hot buttons.need to go over the back pain article and show average dosing and how to dose the 10mg tablet.
PPLPMDL0080000001	Richmond Heights	OH	44143	4/6/1999	4-6-99 Used in hospital for CA. Discussed dosing and titration. Also presented breakthrough OXY IR and OXYFast. Still hasn't seen pt. in office or used it there. Continue to try to ID patients. Bring in OA study.
PPLPMDL0080000001	Mayfield Village	OH	44143	4/6/1999	4-6-99 No data available. Says he uses on more complex post-op cases. Knows dosing. Discussed titrating post-op. Had two patients with side effects. Agreed to use. Bring post-op pain study and laxative protocols on next
PPLPMDL0080000001	Cleveland	OH	44195	4/6/1999	Using a lot but need to find out why only 10mg mostly????? Seeing accident victims and says doesn't like to give vic at all. Oxy best choice. Should be on higher doses though. Disc titration
PPLPMDL0080000001	Mayfield Hts	OH	44124	4/6/1999	4-6-99 Discussed MSC and OXY differences. Tried to figure out what other opioid he may be using. Maybe methadone? Ask about specific patients and highest dose. Titration. Try to get earlier starts.
PPLPMDL0080000001	Mayfield Village	OH	44143	4/6/1999	4-6-99 Arkinstall reprint and generic substitution of theophylline. Remind him. DOSING!! Presented advantages of Oxy over short acting opioids. Try to get him to ID specific patient. Go over dosing and titration.
PPLPMDL0080000001	Cleveland	OH	44195	4/6/1999	Discussed 4/28 program and 10/99 program. Has started a new pt on Oxy!!! OTHER PT still on 80mg q12h and doing great
PPLPMDL0080000001	Cleveland	OH	44106	4/7/1999	NS res-says using a ton of perc from his dept. Committed to trying and gave me info on how to setup lunches

PPLPMDL0080000001	Akron	OH	44333	4/7/1999	Dr does most of his work at the hospital as in patients.
PPLPMDL0080000001	Cleveland	OH	44195	4/7/1999	willL be PS fellow in july-says has seen it used and will use-uses perc now
PPLPMDL0080000001	Brookpark	OH	44142	4/7/1999	talked with jim.let him know about the fast and what connie is going to use.he is ordering and it will be in by 4-14
PPLPMDL0080000001	Brookpark	OH	44142	4/7/1999	talked about fast and dr laye office using it and they will order and will be in by 4-14
PPLPMDL0080000001	Cleveland	OH	44102	4/7/1999	says 1/2 his pats have gotten nauseated from oxy 10mg mostly elderly pats;also quick hit on uni;
PPLPMDL0080000001	Cleveland	OH	44106	4/7/1999	sAYS SEEING QUITE A BIT OF OXY BEING USED. SAYS WILL USE MORE
PPLPMDL0080000001	Cleveland	OH	44106	4/7/1999	willL BE IN ENT IN JULY-SD WD USE
PPLPMDL0080000001	Cleveland	OH	44106	4/7/1999	rather c ocky but sd wd use
PPLPMDL0080000001	Parma	OH	44129	4/7/1999	he was working with a student.they had a patient on albuterol, the dur, accolate who was still having symptoms.talked about differences between other theoph and uniphyl and how to convert that patient to uniphyl.need to find what kind of patients he is using oxy on now.has it expanded and is he using in place of some nsids.
PPLPMDL0080000001	Cleveland	OH	44106	4/7/1999	COMMITTED TO USING
PPLPMDL0080000001	Cleveland	OH	44195	4/7/1999	Committed to using more
PPLPMDL0080000001	Cleveland	OH	44102	4/7/1999	only has 1-2 pat on oxy that came from pain clini;did have pat that she could have used it on :was becoming chronic needs to think of it said she will
PPLPMDL0080000001	Brookpark	OH	44142	4/7/1999	focused on his patients that are already on oxy and asked what they are using for breakthru.most patients are coming in from the med onc setting with no b reakthru.went over proper calculation for breakthru and the fast.connie gave me a couple of rx's for the fast to take to rite aid and cvs to get stocked.
PPLPMDL0080000001	Cleveland	OH	44106	4/7/1999	Committed to tryin g
PPLPMDL0080000001	Parma	OH	44134	4/7/1999	used karpil.tried to do it in the same way that we role played with scott.asked about patients that are on albuterol and ipratropium.showed similar se profiles and how it could save \$ with less inhaler use.need to show anti inflam properties and kidney.keep showing guidleines.
PPLPMDL0080000001	Cleveland	OH	44109	4/7/1999	very open and asked alot of questions;came to lunch ;his step appr is ty3,per, ms;showed article on cyp2d6/levy and will use 10mg in elderly to start 1-2;20mg 1-2 in younger;follow-up in clinic
PPLPMDL0080000001	Cleveland	OH	44195	4/7/1999	Just wrote 40 mg rx for someone in-house. Has been using quite a bit lately

PPLPMDL0080000001	Parma	OH	44129	4/7/1999	went over del and abuse savings as well as addiction issues and tolerance
PPLPMDL0080000001	Akron	OH	44304	4/7/1999	hasn't used yet, reminded of benefits. sold his nurses. they say he is creature of habit. keep reminding
PPLPMDL0080000001	Parma	OH	44129	4/7/1999	talked about using oxy in the post op setting.talked about same benefits in the ca setting plus more.told him that i was going to get his post op stuff and told him about experience with robertson and what he has been doing.told him to ask him and get his opinion.
PPLPMDL0080000001	Akron	OH	44304	4/7/1999	hasn'ty used since we met at counter. closed on safety profile
PPLPMDL0080000001	Cleveland	OH	44109	4/7/1999	lets residents rx but not using much himself need to not think of it as stronger than vicodin
PPLPMDL0080000001	Uniontown	OH	44685	4/7/1999	i caught dr in the hospital, he said he is using oxy for his chronic pain patients and for cancer pain pts.. Nx:ask what using for acute pain?
PPLPMDL0080000001	Akron	OH	44333	4/7/1999	i quick hit dr with oxy, easier to titrate no ceiling and no black box warnings. Nx:ask when going to oxy, after immediate release or is he starting with oxy and then is he leaving oxy to go to the patch and at what dose?
PPLPMDL0080000001	Akron	OH	44320	4/7/1999	Dr is using 1-2 20mg tabs q12h for post op, still has not completely converted from lortab. Nx:ask when uses lortab post op vs oxycontin?
PPLPMDL0080000001	Beachwood	OH	44122	4/8/1999	quick hit at counter set up appt
PPLPMDL0080000001	Beachwood	OH	44122	4/8/1999	using per for breakthrough and has forgotten to bring rx pad to hilcrest
PPLPMDL0080000001	Cleveland	OH	44122	4/8/1999	saw copy of post op orders oxy not on it follow up to see when out of forms if they will add
PPLPMDL0080000001	Cleveland	OH	44195	4/8/1999	res. says will use uni-sees more copd and writes most of the rx for pts. Says just wrote oxy rx for pt from Tenn that came in on it and was seeing Dr. Mekhail from pain center.Disc using for acute pain also
PPLPMDL0080000001	Cleveland	OH	44195	4/8/1999	Quick hit on Uni and Oxy. NO more time
PPLPMDL0080000001	Garfield Hts	OH	44125	4/8/1999	they are going thru some changes but they do not seem major.borkouski is here but only one afternoon a week.his major priority is the surgery center in Garfield.set up a lunch to get more time and more info.he is using readily in the chronic setting but waits too long to get there.need to find why and how to get the start with going
PPLPMDL0080000001	Barberton	OH	44203	4/8/1999	QUICK hit dr with oxycontin, he likes oxycodone, hit oxy start with stay with, less constipation.
PPLPMDL0080000001	Cleveland	OH	44195	4/8/1999	gREAT! says uses some theo but will use Uni now-more asthma than COPD
PPLPMDL0080000001	Cleveland	OH	44195	4/8/1999	Great call!! USING MOSTLY ATROVENT AND B2-SHOWED KARPEL AND WAS IMPRESSED. SD WD USE uNI
PPLPMDL0080000001	Beachwood	OH	44122	4/8/1999	wnet over dif of ms vs oxy and dosing no pats on oxy or ms right now
PPLPMDL0080000001	Beachwood	OH	44122	4/8/1999	sees alot of nickols pats and gave info on oxyfast
PPLPMDL0080000001	Beachwood	OH	44122	4/8/1999	had lunch with dr and has been using cause dr cohn wnet over info uses 10mg:good resuilts
PPLPMDL0080000001	Beachwood	OH	44122	4/8/1999	says all dr hav own standing orders would help increase usage to have on pad
PPLPMDL0080000001	Beachwood	OH	44122	4/8/1999	only gave tyl today has used oxy and will use but sparing
PPLPMDL0080000001	Beachwood	OH	44122	4/8/1999	3 bottles of oxyfast rich only there one day no dr's names
PPLPMDL0080000001	Beachwood	OH	44122	4/8/1999	dont need any ms and no oxy fast yet
PPLPMDL0080000001	Beachwood	OH	44122	4/8/1999	bagels in or not too busy lots of vacations call vicki to get good day
PPLPMDL0080000001	Barberton	OH	44203	4/8/1999	i quick hit dr has before leaving tumor boards and talked to Dr Hazra.
PPLPMDL0080000001	Cleveland	OH	44195	4/8/1999	Fellow who will be staff attending in july. Int in women's issues. Says has seen oxy being used and will try.Also Uni-really liked and sd sees m ore asthma and will try
PPLPMDL0080000001	Barberton	OH	44203	4/8/1999	Working on getting dr to use only oxycontin and titrate up, not adding on the patch. He said she is starting to converting from the patch to oxy. nx:ask if pts can't tolerate oral meds then why not use oxyfast?
PPLPMDL0080000001	Northfield	OH	44067	4/8/1999	he likes using oxy but is not totally sold on all of its benefits.he is using the lower dose almost exclusivley.very amiable and does not want to talk about the patients that need more than the 10mg.need to find real objections to titration.need to find what he goes to next.he may be open to using ir for gauging the proper dose.
PPLPMDL0080000001	Warrensville Hts	OH	44122	4/9/1999	will use oxyfast told him of 160mg
PPLPMDL0080000001	Strongsville	OH	441366097	4/9/1999	he is using several different analgesics.anywhere from advil to perc and beyond.likes the idea of long term therapy but basically using for more chronic cases. went over del sys and compared to the combos.went over dosing and to use instead of the combo's.need to show better equvalencies and need to show anti inflam studies for theoph.also need to find how much he uses theoph if any.he is interested in general in the information
PPLPMDL0080000001	Cleveland	OH	44111	4/9/1999	uses dur in esophageal pats
PPLPMDL0080000001	Cleveland	OH	44111	4/9/1999	rx 80mg yesterday;says he!! rx more wont admit to using durag but colleges told me differny
PPLPMDL0080000001	Cleveland	OH	44111	4/9/1999	rx 2 today bring chocolate
PPLPMDL0080000001	Akron	OH	44333	4/9/1999	Dr Dietrich and Dr Njus are both using oxycontin after vicodin for more painful surgeries and if using they are rx for a few days and if pts need a refill they are stepping down to vicodin or darvocet. Reason being is that they think oxy is more potent than vicodin, they look at potency with how drugs are classed. Nx:show conversion chart and ask why think oxy is stronger and if they would try some of more routine procedures with oxy?
PPLPMDL0080000001	Cleveland	OH	44109	4/9/1999	had 2 surg this am no pain meds says he will tell res to rx
PPLPMDL0080000001	Akron	OH	44333	4/9/1999	Talked to dr wojno and dr goske. Dr is using more oxy mainly the 10mg tabs, he is still not using first line, but thinking more in place of vicodin. i need to find out what specific pts that he is using oxy on?
PPLPMDL0080000001	Beachwood	OH	44122	4/9/1999	let him know of inservice date at Madonna Hall - goes to nursing home Weds. p.m. discussed Uniphyl - usually will pass patients on after beta's/steroids - doesn't get into leukotrienes - will refer on to Dr. Williams.
PPLPMDL0080000001	Strongsville	OH	44136	4/9/1999	trying to make him more comfortable for writing for his every day pain patients.hung up on dea and addiction.would rather give nsaid's.may want to look at studies to give better reasons to use.need to go over safety in the elderly and kidney and other anti inflam data

PLPMDL0080000001	Akron	OH	44333	4/16/1999	Talked to dr stan, shin and holbrook. Dr stan and Shin are doing more of the pain management. I talked to dr about pain management and different disease states. He uses oxy, he believes in longer acting meds over short acting meds. Likes oxy with no apap or asa. Mentioned uses 10mg, 20mg and 40mg. The area he wants to specialize in is the spine and pain conditions. He believes in multidisciplinary treatment. Talked about using lower doses of opioids for pts, believes in some pts that 10mg and 40mg gives the pts equal pain relief, deals with receptors and endorphins that are produces. Likes information, talk about different disease states. Nc:ask about new pts on oxycontin and some of the other pts on oxy, what dose?

They are starting or using vicodin first on a prn basis before going to a mediation for around the clock. Another reason was that side effects or to see how the patients tolerated opioids. Dr mentioned that alot of his pts that need opioids to start are on a prn basis, and if pts falls into severe pain, he sends them down to Dr. Klejka. Nc. call ask when prescribing vicodin, how often they take it or how often he rx's vicodin. The issue of how high can you titrate came up, so nc call I need to emphasize that oxycontin has no apap or asa so what this means to thei pts is no gi intolerabilites or ceiling to this
PLPMDL0080000001	Akron	OH	44333	4/16/1999	I went over oxycontin vs vicodin for dr. He mainly does all shoulder surgeries which are very pain ful. Talked about a specific shoulder pt he was doing today young male with damage to shoulder, going to use 1-2 20mg tabs q12h. He says he usually writes vicodin 1-2 tabs q4-6h and they take the meds every 4hrs. He said he is in a habit of writing vicodin so I talk to one of his PA's and going to leave conversion chart by his rx pad. Nc:follow up about this pt and keep reminding him?

PPLPMDL0080000001	Barberton	OH	44203	4/19/1999	I talked to Dr pottschmidt and Dr. Rashmi about oxycontin, in which dr. rashimi said she doesnt have alot of chronic pain pts or pts that require that strong of medication. Dr pottschmidt is using oxy for chronic pain. Uniphyl they are using for copd pts but not alot on theo. not recommending laxatives, went over senekot-s and would recommend. Dr said he uses vicodin for pts that are acute and use on prn basis and he is not sure if will need chronic opioid use. His thinking is that oxycontin is stronger than vicodin. Nxask if has used on acute pain pt, if not ask what most common acute pain problem he is treating? Uni, ask what is going to after the inhalers for copd's? ask if has recommended senekot-s?
	Uniontown	OH	44685	4/19/1999	Dr said he hasn't written an oxycontin scrip in a while, said out of sight out of mind. He isn't seeing the benefits of oxycontin vs combo's. He said he would use oxycontin for acute pain pts. He said he would use tylenol/c for more chronic conditions because he can give them refills. He said the pts that take oxycontin get good pain relief with it and he is worried of them becoming addicted. This all stems from him thinking that oxycontin is strong and can be more addicting. Nxask what benefits he sees in oxycontin vs the combo med's? and also what most commonly treats with opioids? Uni, he said he isn't using as much theo, but all of his uniphyl samples are gone, and the nurse said she quesues that he used them, so next call ask when using uni or theo? senekot-s recommendations.

PPLPMDL0080000001	Barberton	OH	44203	4/19/1999	dr said he read guidelines on strong long acting opioids for chronic pain in the state pain initiative and he said we are both going to end up in jail for writing oxycontin for chronic, pain. I first told him to come to the talk at grand rounds at cityzenes hospital next wednesday. I hit the pi, with all studies I told him documentation and that oxycontin had least abuse potential. Nx:address all the studies and find out real concern with writing oxycontin for chronic pain? Uni, not using alot of theo, I told him to use after inhalers instead of longer acting inhalers?
	Akron	OH	44306	4/19/1999	I talked to dr about oxycontin in the acute post op pain pts. He uses iv demerol and versed for colonoscopy. For fissure and hemorrhoid surgery he uses lortab 10mg tabs 1-2 q4h. He is confusing oxycontin and ms contin, he said the medication is not lasting q12h for acute pain. He ahs used ms contin. He said for the first 3 days they have to take oxycontin every 4hrs, then can take it q12h. He said he tried the 20mg tabs 1-2 tabs q12h and didn't work. He has a hemorrhoid surgery this week and is going to try 1-2 20mg tabs q8h. I fthis works then will go to the 40mg tabs 1-2 q12h. Nx:follow up on the surgery and see if used and how oxycontin dosing worked? Senekot-s recommendations.

PPLPMDL0080000001	Barberton	OH	44203	4/22/1999	Dr says that oxycontin is her first line drug. Something doesn't add up though, she should be using more oxycontin. She said her highest pt was on 240mg q12h. I need to find out what specific patients she has on oxycontin, if she started these pts on oxycontin or were they on another opioid before oxycontin? What other opioids she is using and when using morphine? The patch? and why not oxycontin? Find out how many pts she puts on opioids a month? Ask what adjuvant medications she is also using? I did set up laxative protocols in the office.
PPLPMDL0080000001	Barberton	OH	44203	4/22/1999	Dr Haas is a funny guy, you don't know whether he wants to talk to you or not. He likes oxycodone, he has taken it from a surgery on his arm. Ncask what benefits he sees with oxycontin q12h vs immediate release oxycodone? Find out when using other opioids vs oxycontin. Recommends oxycontin but when pts have little money, he tells them to take peri colace.

PLPMDL0080000001	Cleveland	OH	44115	4/27/1999	Discussed several issues with VNA. Says Kadian making noise - have been in and will be back with mgr. Advantage Dr. Bruce sees is with sprinkling in those who can't swallow. Says data looks good on info presented. Roxanne did program at Western Reserve - first time they have done anything. Asked about MSIR - says sees strictly Roxanol. I told them that is there only product that really is recognized. Says he told them that PF has a great foot in the door and to change habits is very difficult. Discussed conference in Fall for Hospice Month. Looking at either first 2 weeks in November. Confirmed: Maria Shriver, Nadine Bruce, Rev. Danielle. Would like to get Michael Levy or Walter Foreman (Past Pres., from Cleve., in New Mexico). Would like to do Friday pm talk and then have conference Sat. from 8:30 - 12:30. Also interested in \$ issues with Oramorph vs. MSContin with rebate. Interested in offering Palliative Care Courses to area nurses on pain mgmt. and end of life issues. Would run monthly - and be CEU accredited. Also sees a need to reach out to lawyers and cover litigation in palliative care. Says David Simpson definitely runs the show at Western Reserve - also important is Bridget Montana. Says that Dr. Wellman taking over as Med Dir July 1. Next:May 25, 10:00 am.

PLPMDL0080000001	Cleveland	OH	44106	4/27/1999	Doesn't like to be sold. Says i'm not pushy but doesn't like it when reps are. Very vague. Says using but won't get specific. Is at the VA 2 days/wk and won't use there due to formulary.Says sees a lot used at UH. Says Rad Onc likes it and often times switches pts to it from whatever onc puts them on.
PLPMDL0080000001	Cleveland	OH	44106	4/27/1999	Very vague also. Says using but won't get real specific. Says many attendings use it or msc. Went over why oxy better.Didn't have anyone for it today. Has pts on 20mg. Discussed what to do next and time principles.
PLPMDL0080000001	Warrensville Hts.	OH	44122	4/27/1999	has use oxy in ca pats made sense to use for ambulatory surg sending pats home with oxy;
PLPMDL0080000001	Akron	OH	44319	4/27/1999	biggest concern is abuse, q12h, says pts will take medication more often, get alot of abuse pts and rely don't know how to treat pain properly. ask to try oxy on a few pts, say they don't follow up on pts, so then ask what concern with trying oxy for acute pain, back pain?
PLPMDL0080000001	Akron	OH	44319	4/27/1999	biggest concern is abuse, q12h, says pts will take medication more often, get alot of abuse pts and rely don't know how to treat pain properly. ask to try oxy on a few pts, say they don't follow up on pts, so then ask what concern with trying oxy for acute pain, back pain?
PLPMDL0080000001	Barberton	OH	44203	4/27/1999	quick hit dr haza with the new paste up titration guide, she said she is using higher doses of oxycontin and not using with the patch. But she still is using the patch, mentioned for patients with gi problems.
PLPMDL0080000001	Cleveland	OH	44106	4/27/1999	Very nice-discussed using oxy vs dura. sd many of the attendings use oxy or msc and then leave it and go to dura. says its easier,good pain control and less se. We discussed at length why they can stay with oxy. Sd it will be a tough sell. Does use quite a bit of oxy but no one over 40mg. Sd they usually die. Disc titration and couldn't tell me the highest dose right now. Keep hitting hard on start with and stay with issue.
PLPMDL0080000001	Akron	OH	44320	4/27/1999	using 1-2 20mg tabs q12h for post op. not as much chronic pain use with oxycontin. using the senokot-s protocols.

PPLPMDL0800000001	Barberton	OH	44203	4/28/1999	trying to get specific to see how the oxy is working and which patients he is using on.having some difficulty getting oxy and talked about the stores that do have vs calling
PPLPMDL0800000001	Cuyahoga Falls	OH	44223	4/29/1999	in with dr hall went over time and breakthrough young dr will be on matern leave;uni for asthma
PPLPMDL0800000001	Beachwood	OH	44122	4/29/1999	He is using the Oxy IR with OxyContin. However, I need to break his Vicodin habit, because there is a lot of businessto be had there. Set up in service next time.
PPLPMDL0800000001	Westlake	OH	44145	4/29/1999	Went to OPD bldg to ORS clinic and talked with residents and 1 attending Dr. Bley-- Has used quite a bit but it has been a problem for some pts. SE. Discussed this issue and told him they are mild and transient and shouldn't be any worse than vic or perc. Will cont. Done at end of June
PPLPMDL0800000001	Cleveland	OH	44106	4/29/1999	Quickly talked through the window. He is not writing OxyContin. He said to set up an appointment and bring some info.
PPLPMDL0800000001	Lakewood	OH	44107	4/29/1999	He has a good understanding of using Oxy IR with OxyContin for pain management. He wants me to keep close tabs on pharmacies to make sure they have a good understanding of OxyContin.
PPLPMDL0800000001	Lakewood	OH	44107	4/29/1999	set up pain inserv with video;and uni for asthma
PPLPMDL0800000001	Warrensville	OH	44122	4/29/1999	went over oxy movement and it is getting a little better but there is still alot of duragesic
PPLPMDL0800000001	Garfield Hts	OH	44125	4/29/1999	Uses as first choice long acting, but not switching to long acting soon enough.
PPLPMDL0800000001	Euclid	OH	44132	4/29/1999	Went to OPD bldg to ORS clinic and talked with residents and 1 attending Dr. Gillmore-still doesn't know where she will be going/looking at Boston and a few other places. Has been using only Oxy post-op with exception of 1 pt. Really good results with some nausea but no t a problem. Has been using the laxative protocol as well. Good response
PPLPMDL0800000001	Cleveland	OH	44106	4/29/1999	went over some of the new tools for assessment and management.he likes the pat to pat tape and said that it would help with his elderly patients.he is seeing patients already on meds esp duragesic.and alot of times the onc are using multiple drugs.he likes to use one at a time.senokot and bwc is important to him and need to get a stamper.
PPLPMDL0800000001	Garfield Hts	OH	44125	4/29/1999	went over time and breakthrough didnt realize you could use toge;gave contract and went over uni
PPLPMDL0800000001	Beachwood	OH	44122	4/29/1999	he is vety personal about vico profen.even uses it for more than 10 days.talked about how much like hydrocodone oxy is but it last longer.wnet over kidney and karpelfor his theoph add on.he likes to talk about a lot of different subjects.need to keep him focused.
PPLPMDL0800000001	Cleveland	OH	44130	4/29/1999	quick hit on all at window have appt set up
PPLPMDL0800000001	Beachwood	OH	44122	4/29/1999	using oxy for stones pat doing well mostly pm dosing
PPLPMDL0800000001	Cleveland	OH	44122	4/29/1999	he is being amiable but not yet using.need to get him to remember oxy.not sure what his objection is because he commits to using.
PPLPMDL0800000001	Middleburg Hts.	OH	44130	4/29/1999	he wanted to talk about nur hom patients and how oxy could help them.went over dosing and assessment and trouble that he is having with nurses over the phone.need to find out about uni potent in that setting as well.
PPLPMDL0800000001	Cuyahoga Fls	OH	44223	4/29/1999	he is using oxy but for only the most difficult and chronic patients.went over dosing and how to use in place of combo's.talked about converting theop pat to uni and how many are on generics.
PPLPMDL0800000001	Middleburg Hts	OH	44130	4/29/1999	I don't think he is very happy here. Doesn't want to be the new chief at VA. No time w/family etc. Says uses Oxy when he can and has about 4 pts on it. Says Silverman uses a lot of it. and also Rad Onc. Disc diff again betw
PPLPMDL0800000001	Cleveland	OH	44106	4/29/1999	Oxy and Msc. agrees oxy better but concerns with cost. VA has big problem with it.
PPLPMDL0800000001	Westlake	OH	44145	4/29/1999	He does give much time unless I have an appointment. He passed by me in the hallway and just mentioned OxyContin is a great pain med.
PPLPMDL0800000001	Cleveland	OH	44106	4/29/1999	Went to OPD bldg to ORS clinic and talked with residents and 1 attending Dr. Mullen--still using quite a bit -says it has pretty much become the standing orders for post-op. Having it on the form has helped remember. A few cases of nausea and 1 pt had to be disc but got sick on Vic as well
PPLPMDL0800000001	Middleburg Hts	OH	44130	4/29/1999	he is having trouble dosing and remembering tablet strengths.gave him po5 and talked about using the 10mg tablet and making it equivalent to darv, vic and perc.
PPLPMDL0800000001	Richmond Hts	OH	44143	4/29/1999	Oxy v short acting opioids. Not familiar. Will take some work to get her comfortable.
PPLPMDL0800000001	Garfield Heights	OH	44125	4/29/1999	went over the ir and the fast.focused on formualry and getting paperwork for grimin
PPLPMDL0800000001	Garfield Hts	OH	44125	4/29/1999	need to get back when bimal is here
PPLPMDL0800000001	Warrensville Hts	OH	44122	4/29/1999	spoke with 4 im/er res on xy and uni keep working with them to get spec pats
PPLPMDL0800000001	Cleveland	OH	44109	4/29/1999	met with res who very inter in using oxy;scott done in june doing fellowship in seattle
PPLPMDL0800000001	Cleveland	OH	44109	4/29/1999	lunch in clinic wnt over oxyfast and time
PPLPMDL0800000001	Cleveland	OH	44109	4/29/1999	no rx for oxyfast;more 20 and 40mg oxy moving
PPLPMDL0800000001	Cleveland	OH	44109	4/29/1999	ortho res still using quick hit

PPLPMDL0080000001	Cleveland	OH	44122	4/29/1999	will order oxfast and ir
PPLPMDL0080000001	Lakewood	OH	44107	4/29/1999	He said Dr. Obrien's scripts have dropped off for all meds.
PPLPMDL0080000001	Cleveland	OH	44106	4/29/1999	Pt just started at VA last week. Fleming gave him a hard time but Bokar got it approved. Using a lot at metro he says. Not at uh asmuch cuz not there much. Mostly VA and Metro. KNowos who I am and remembers Oxy every time. Try and get more specific with him next time
PPLPMDL0080000001	Cleveland	OH	44109	4/29/1999	inter in pricing of competitive products;only uses fental in npo
PPLPMDL0080000001	Cleveland	OH	44102	4/29/1999	oxy vs vic and oxyfast for nursin/ca pats;reminder on uni
PPLPMDL0080000001	Cleveland	OH	44106	4/29/1999	Is probably leaving mt. Sinai--fed up with what is going on here. Has used oxy a couple times but says that is all he sees res writing for his pts. So far so good
PPLPMDL0080000001	Cleveland	OH	44106	4/29/1999	Went to OPD bldg to ORS clinic and talked with residents and 1 attending Dr. Sherman-very nice and assign a lot of Oxy--says mostly outpt-has rx for inpt as well after PCA. Trying to stay in Cleve--has seen attendings use it a
PPLPMDL0080000001	Cleveland	OH	44106	4/29/1999	Will not be director of VA onc after 5/30. Wants to do more research. Says has had no problem getting oxy at VA. Discussed formaline situation and told him Bokar would be supporting. Felt there was a need but nothing he can do. They are not too happy with him right now. Has pts on oxy at UH and will be busier in June.
PPLPMDL0080000001	Akron	OH	44310	4/29/1999	says been using more since lunch, saw at kent office. left pca study
PPLPMDL0080000001	Richmond Hts	OH	44143	4/29/1999	Uses some Oxy not early not often.
PPLPMDL0080000001	Richmond Hts.	OH	44143	4/29/1999	Uses Oxy. Discussed OxyIR and OxyFast. Left laxative protocol.
PPLPMDL0080000001	Lakewood	OH	44107	4/29/1999	He is using OxyContin post op. He wants some mini pocket dosing conversion guides which I'm out of. Bring them to lunch.
PPLPMDL0080000001	Westlake	OH	44145	4/29/1999	He said he likes OxyContin for all his OsteoArthritis and back pain. Gave him Uniphyl.
PPLPMDL0080000001	Lakewood	OH	44107	4/29/1999	lunch He remembers my wife from St. John West Shore. He likes OxyContin for chronic pain (Osteoarthritis and back pain.) He wasn't really clear about the q12h. I drilled that point to him. He also likes Uniphyl as an add on.
PPLPMDL0080000001					Set up another lunch next time.
PPLPMDL0080000001	Cleveland	OH	44127	4/30/1999	uses mostly 10mg for elderly chron nothing for younger pats
PPLPMDL0080000001	Cleveland	OH	44109	4/30/1999	been using more oxy fear of making pats addic went over add vs psedo add
PPLPMDL0080000001	Akron	OH	44333	4/30/1999	Follow up with dr and ask how many pts he has put on oxycotin post op? What doses he is using? how is their pain control? side effects? Ask about gender of pts and what different procedure he has done? Is he willing to use oxycotin first line? patients getting good pain control, mentioned a patient getting snowed but said wasn't a concern because they were pain free.
PPLPMDL0080000001	Cleveland	OH	44113	4/30/1999	asked if he would use on case this am very minor would only give tyl
PPLPMDL0080000001	Akron	OH	44303	4/30/1999	closed on a fuy currently on vic for chronic pain, committed to trying
PPLPMDL0080000001	Akron	OH	44333	4/30/1999	using theo as last resort, talked about after inhalers and used the karpel rerint for COPD pt.
PPLPMDL0080000001	Akron	OH	44307	4/30/1999	says she specializes in geriatrics, discussed arthritis pain mgmt
PPLPMDL0080000001	Cuyahoga Falls	OH	44221	4/30/1999	difficult to get time talked about how to use oxy and dose it equiv to combos.may want to try lunch for whole building or take off as core
PPLPMDL0080000001	Cleveland	OH	44106	4/30/1999	Getting busier/says has 2 pts on oxy and doing well. Only really sees pts 1 day /wk at VA but that is where the oxy pts are. Dis titraitaon again and how to convert from Dura. Likes to take pts off dura cuz not approved on VA
PPLPMDL0080000001	Cleveland	OH	44106	4/30/1999	formualny-even though Oxy isn't either it's easier to get approved.
PPLPMDL0080000001	Akron	OH	44310	4/30/1999	Research mostly. Very important and influential. Knows it all about oxy. Wouldn't get real specfic.Talked to him at Blood club
PPLPMDL0080000001	Cleveland	OH	44106	4/30/1999	says has been using for a few arthritis patients, or chronic pain
PPLPMDL0080000001	Akron	OH	44333	4/30/1999	Saw at Blood club--nothing new to report just that he sees me all the time and says he will never forget Oxycontin
PPLPMDL0080000001	Cleveland	OH	44113	4/30/1999	not doing alot of pain management except for immediate post op pain. working on giving an oxycotin with a block for post op knee pts

PPLPMDL0080000001	Cleveland	OH	44195	5/5/1999	Not really helping us. Sort of upset that we could not sponsor her talk in Toledo this month. Getting more involved with hospice. May have 1-2 pts on Oxy she says. some from PEI. Still 2nd line on formulary.
PPLPMDL0080000001	Cleveland	OH	44109	5/5/1999	good discussion on pat who was in lots of pain dura 50-75-100 pat went to uh; reinforce 80mg tab and 160 coming
PPLPMDL0080000001	Akron	OH	44312	5/5/1999	doesn't get the concept of pain management, seeing no benefits of oxycontin, potency is an issue along with side effects of long acting vs short acting.
PPLPMDL0080000001	Cleveland	OH	44106	5/5/1999	Pam - contacted because of Hillmed request - said that they and Mentor are piloting generic Sen - S because of cost issue with Sen - S. She asked what I know about generic - told her did not know but the quality of the product would not be the same. Reemphasized that hospice has already tried the PeriColace to replace SenS and it did not work as well. She says they will try. I committed to her to help out with samples if necessary to reduce costs - but could not do much else on price.
PPLPMDL0080000001	Cleveland	OH	44102	5/5/1999	overview inservices available - get times Richard - gave him objectives for talk - has left messages for nursing education. Pharmacy credit through ACPE - see red book for info. Converted resident off of Percocet/Percodan regimen - was having liver problems. Drs. Keshor Patel, DellaRocca,Domingo Ramos,Reyas,Sundaram - 80% of physicians. discussed new article with Richard discussing that PRNs are not used correctly in the nursing home - he agreed. Discussed that OxyContin is the drug to use for those residents with chronic pain.

PPLPMDL0080000001	Parma	OH	44130	5/6/1999	With Bernie Katsur. Discussed OxyC to be put on formulary - positioned vs. Duragesic. Mary Ann says it comes down to pricing - Oramorph dirt cheap. Painted picture that they are not grouped the same - morphine typically cancer med - oxycodone bigger window, more uses. say conversion is 1:1 - said that they could start at 2:1 and then would have to move up to 1:1 because they see "tolerance" build up - not related to disease progression. Would love to do speaker program with physicians - Bernie has contact of Kaiser dr. in Calif. looking for CME's to attract crowd - need to look into OhioState providing. Clinic only provides for physician programs >4 hours long. OPI has an influential voice - told Mary Ann that its based on \$ and Purdue will not do that. Next: check on CME providers and let Mary Ann know

PPLPMDL0080000001	Cleveland	OH	44111	5/6/1999	busy today has elderly lady with compression fract will prob admit went over safety of oxy in elderly
PPLPMDL0080000001	Cleveland	OH	44109	5/6/1999	wont use breakthou but is using 40mg aggrs dosing sugg to use 20mg only uses few days and then pats seem to want something not as strong sug using 20mg
PPLPMDL0080000001	Parma	OH	44130	5/6/1999	With Bernie Katsur. Discussed OxyC to be put on formulary - positioned vs. Duragesic. Mary Ann says it comes down to pricing - Oramorph dirt cheap. Painted picture that they are not grouped the same - morphine typically cancer med - oxycodone bigger window, more uses. say conversion is 1:1 - said that they could start at 2:1 and then would have to move up to 1:1 because they see "tolerance" build up - not related to disease progression. Would love to do speaker program with physicians - Bernie has contact of Kaiser dr. in Calif. looking for CME's to attract crowd - need to look into OhioState providing. Clinic only provides for physician programs >4 hours long. OPI has an influential voice - told Mary Ann that its based on \$ and Purdue will not do that. Next: check on CME providers and let Mary Ann know
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	Is going to CCF to do a hand surgery fellowship. Has been using a lot of Oxy. Says all the residents have. It has been their #1 choice
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	Busy-sd wd try. Had seen residents wirtre for it.
PPLPMDL0080000001	Warrensville Hts	OH	44122	5/6/1999	has 2 pat on oxy came to him on it discussed time and how oxy can keep him from refering out to pain clinics;
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	REMEMBERED me from Journal Club.Sd tried Oxy yes. Thing is-they don't see the pts back is probably leaving Mt. Sinai.
PPLPMDL0080000001	Cleveland	OH	44111	5/6/1999	uses oxy regu has rx 5 this am
PPLPMDL0080000001	Cleveland	OH	44111	5/6/1999	has been using more;getting good results;keep going over dosing
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	Is going to Erie to join group practice/has been using Oxy.Mostly good results.
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	Extremely interesting man!!!! Director of the dept. Been there afor 23 yrs. Not sure what he will do after June. Told me right away up front that he does not use theo at all. Hasn't for yrs. Used to lecture to students about it. Used to use it all the time. never used Uni. VERY concerned with TOXICITY from it and blood level monitoring. Concerned withlegal issues from rx theo. Got into a big discussion. Has been involved with 2 cases where the dr got sued from not checking tho levels. Thinks everything out there is better. Starts out really dogmatic and rude but really is not. Left and kept coming bak in while I was talking with Dr. Renston. Nurses sd he must have liked what I said cuz he never talks to reps. Asked him when the last time he saw a theo rep was--he said 10 yrs or more. Probably got a little excited that someone was actually talking about it and that it was still "en vogue". Really enjoyed teasing me but did listen o me also and wanted a copy of Kersten. We discussed Karpel as well but was very int in what happened when pts were taken off theo. Sd he doesn't see many pts in clinic but does in-house and in ICU. Doesn't think k the hospital has bought any theo in yrs. Didn't actually commit but took all the info and sd wd read it. He gave me a copy of his book and has written 10 books on all kinds of subjects. He is an avid golfer and scuba-diver. Maybe go in next time with something about this. I asked him for 1 pt only--couldn't commit but is definitely thinking about it. Told him I would bring him 1 more lunch to see if he's worth
PPLPMDL0080000001	Cleveland	OH	44111	5/6/1999	quick hit at window on uni and oxy
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	Great call--has never used uni before--targeted a pt today that is in-house on aminophylline that is going home today. Will give Uni. Very impressed with Kersten and had already read the reprint!!! Does believe that about 50% of his COPD pts would do well on theo. Problem is he isn't very busy. Not sure what will happen with hospital but will def use Uni today and will keep in mind for other pts. says issue with them is that he doesn't see private practice pts like he did at metro. At Mt. Sinai they really just do critical calre and then may not see the pt again. Got into good discussion about theo. Definitely is a believer in it but just never used Uni
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	Will definitely be leaving Mt. Sinai--doesn't know where to. Has seen residents write Oxy. He has not personally written for it. Says he knows some pts have done very well with it. Nice guy. F/U to see where going.
PPLPMDL0080000001	Cleveland	OH	44122	5/6/1999	arrogant wants indians tickets thinks he knows everyg/thing about oxy;signed for uni samples and went over pocket refer guide
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	Will be going to Alabama/has been using Oxy. Says some pts complain of nausea a lot. Mos tit works fine for. 20 1-2 works best.
PPLPMDL0080000001	Cleveland	OH	44111	5/6/1999	good conv on time and pasedo addition;has been using on shoulders and more painful surgeries see if he has used in hosp
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	great guy/sd he is probably leaving Mt. Sinai and maybe even Cleveland. Stepped down from being chief of surgery. Not happy with hospital situation.Has not tried Oxy except on that one pt that a resident wrote for. Will try
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	Is new chief od surgery/says he'll use whatever. Likes q12h.Wants something simple that he doesn't have to remember. Uses perc now.
PPLPMDL0080000001	Cleveland	OH	44106	5/6/1999	Tough one/s not using as much anymore. Says pts say it doesn't work. Not dosing high enough at 10mg q12h. Says if goes higher they get snowed. Has had several pts complain of nausea. Would only ocnsider now for more chronic cases or long-term. Disc giving 1 more try.sd MAYBE but doesn't like the call-backs.
PPLPMDL0080000001	Cleveland	OH	44195	5/7/1999	Is all talk. Acts like he's doing a lot. Hit me up for hats and support of rock band again. I don't think he is using. Get more specific w/him next time and ask for pt.
PPLPMDL0080000001	Cleveland	OH	44195	5/7/1999	Is probably best guy. Writing a lot of oxy and influencing others. Keep seeing Set up lunch
PPLPMDL0080000001	Cleveland	OH	44104	5/7/1999	QICK HIT WHILE TALKING TO DR RAMOS
PPLPMDL0080000001	Cleveland	OH	44195	5/7/1999	Great guy. Is done in June and going to Erie w/Lupo. Sd will only use Oxy until he leaves. Has used quite a bit but doesn't always remember.
PPLPMDL0080000001	Cleveland	OH	44195	5/7/1999	Not very well-liked/using a lot for someone who doesn't like to use margs. Feels safest with oxy
PPLPMDL0080000001	Cleveland	OH	44195	5/7/1999	Invited to 5/14 program. Just got back from Metro. Has not used oxy but will
PPLPMDL0080000001	Cleveland	OH	44146	5/10/1999	tryign to get the easy business first he does not brand specify theoph and it gets filled generically,tried to talk about hte del sys and how it is only qd that can be given at night.need to get more time and make sure that he knows what i am after try doing more with chris
PPLPMDL0080000001	Cleveland	OH	44195	5/7/1999	Great guy. Will be key person and ally when he becomes an attending in July. Is using a lot in house. Is w/Dr. Grass right now.
PPLPMDL0080000001	Cleveland	OH	44195	5/7/1999	Is done in June and going to Japan. Has used oxy but n ot recently. Sd phcy in-house gave him a problem.has seen some other residents use it.
PPLPMDL0080000001	Cleveland	OH	44195	5/7/1999	Is using a lot and sees many residnets writing for it.Discussed upcoming happy hour w/speaker. Sd wd come

PLPMDL0080000001	Cleveland	OH	44127	5/12/1999	NO 80MGSS HAS SEEN OXYCON FROM POD AND DIDNT THINK IT WAS INDICATED FOR ACUTE EXPLAINED AND THEN AGREED
PLPMDL0080000001	Cleveland	OH	44109	5/12/1999	ROD DID NOT GIVE TOO MUCH INFO ON
PLPMDL0080000001	Middleburg Hts	OH	44130	5/12/1999	he has concerns about oxy stocking talked to him about the surgery center stocking oxy soon talked about hte stores where oxy is in stock. he is using in the same quantities as his combo rx's. need to get more consistent using oxycontin for chronic pain and after vicodin and codeine. percetel oxy as stronger than vicodin. oxy for more chronic and acute pts using codeine or vicodin. short acting vs long acting. uni, uses theo as last resort, not starting pts on theo but is maintaining pts on theo. senokot-s recommending.
PLPMDL0080000001	Akron	OH	44333	5/12/1999	see dr paris, same luncheon, but he is more apprehensive about opioids, oxy is alot stronger than he wants to use. theo, not starting any new pts on theo's.
PLPMDL0080000001	Barberton	OH	44203	5/12/1999	use has oxy placed after the combination opioids, using oxy for more severe chronic pain, using price as an out. issue is potency and onset of action, prn vs fixed dosing. uni, using theo's for copd and after long acting
PLPMDL0080000001	Akron	OH	44314	5/12/1999	find out what opioid dr is starting with and when going to oxycontin? using oxy after already on comco opioids. talked about starting pts on oxycontin before short acting opioids. uni, using theo for ashma and copd, using after long acting albuterol. recommends senokot-s.
PLPMDL0080000001	Akron	OH	44333	5/12/1999	has tylox and percocet on post op orders, need to get oxycontin to be recommended.
PLPMDL0080000001	Cleveland	OH	44106	5/12/1999	Vey aloof and says he doesn't have anything to do with what pt gets post-op residents do it all but that was a smoke-screen because then he wanted to know all about it and why to use it instead of perc. Sees it being used when he does his major abdominal surgeries. F/U somehow. Does mostly transplant surgeries. Won't be hard to see on a regular basis but get to the general surgery residents.
PLPMDL0080000001	Middleburg Hts	OH	44130	5/12/1999	not sure if what he tells me is accurate. having trouble verifying his use in pharmacies. talked about fast for some of his post op and how that may be easier to swallow and then going to oxy.
PLPMDL0080000001	Akron	OH	44302	5/12/1999	quick call, spoke this morning at oncology conference. gave benefits of oxy over ms, didn't offer feedback as to whether she's using.
PLPMDL0080000001	Akron	OH	44302	5/12/1999	sat in on resident lunch, didn't contribute much. interested in pca conversion. emphasized patient counseling on price of rx, seemed interested in generic vs ox
PLPMDL0080000001	Parma	OH	44129	5/12/1999	talked about oxy in the wc setting. talked about the reel of life and how simple oxy really is. safety and addiction are issues with her but he biggest concern seems to be pseudo addict behaviors. talked about hte definition but will need to give a better description. also need to be more consistent and get here more often. next call...non malignant data back pain and elderly clinical data
PLPMDL0080000001	Akron	OH	44333	5/12/1999	still using some combo opioids, says oxycontin is first line, keeping pts on combo's or titrating to duragesic. seeing pts from the arthritis group.
PLPMDL0080000001	Cleveland	OH	44106	5/12/1999	Pretty much a jerk. Wants to do tons of blocks and isn't titrating oxy effectively. Boswell is best target.
PLPMDL0080000001	Akron	OH	44320	5/12/1999	find out when and why still using lortab? what using for chronic pain patients now? abdominal hysterectomy pts, go home on tylox or percocet, the meds that they were put on in the hospital, converted to 40mg q12h for post op. tylox or percocet doses 2 tabs q3-4hrs.
PLPMDL0080000001	Akron	OH	44312	5/12/1999	trying in the hospital so he can monitor the pts, had a chronic arthritic on oxy 20mg q12h doing well. trying to use as first opioid before short acting? tolerance is an issue, like the toradol effect, pts get to a pt and not more opioid will improve pain control. going to expand to outpt.
PLPMDL0080000001	Cleveland	OH	44110	5/13/1999	CEU program - Sue Tannenbaum, Neighborcare Just passed state survey - have hospice pt on Duragesic and using 10mg morphine sulfate every 2 hrs. Sue says she'll pull chart and look at conversions to OxyContin. Dr Whitehouse has majority of residents.
PLPMDL0080000001	Akron	OH	44333	5/13/1999	ask why he won't switch pts from vicodin to oxy. when would use oxycontin?
PLPMDL0080000001	Westlake	OH	44145	5/13/1999	He is a pretty loyal Uniphyl writer. He also writes some OxyContin but even more Vicodin. Go after Vicodin next time.
PLPMDL0080000001	Cleveland	OH	44106	5/13/1999	Says residents do most of the writing but he has written some himself and has seen it written by several residents. Will cont to use
PLPMDL0080000001	Cleveland	OH	44106	5/13/1999	Kind of cocky/is going to Harvard in July. Says has used some but doesn't always remember
PLPMDL0080000001	Barberton	OH	44203	5/13/1999	oxyconti as first choice of opioids for pts, said using all doses even 80mg tabs.
PLPMDL0080000001	Cleveland	OH	44111	5/13/1999	has been using more went over dosing
PLPMDL0080000001	Westlake	OH	44145	5/13/1999	He cancelled lunch, but appreciated the Senokot and asked me to reschedule to talk about OxyContin. I went over OxyContin with his staff. They were interested in dosing.
PLPMDL0080000001	Westlake	OH	44145	5/13/1999	He asked about OxyIR and said he will start writing IR and maybe OxyFast.
PLPMDL0080000001	Akron	OH	44333	5/13/1999	concern is potency vs vicodin. carpal tunnel pts are most routine study for workerrs comp pts.? said using more oxy, for bone pain and more complicated procedures, 10mg and 20mg tabs.
PLPMDL0080000001	Cleveland	OH	44106	5/13/1999	F/U--still using. Will probably be on eof the last times I see her. Says that oxy is all they are using. She will be doing a fellowship at UH in July.

PPLPMDL0080000001	Akron	OH	44333	7/22/1999	dr places oxycontin along with blocks, not using alot of oral opioids, only to supplement blocks.
PPLPMDL0080000001	Cleveland	OH	44113	7/22/1999	will use more in hosp concerned with helping me;went over oxyfast follw up andsee if he'll use
PPLPMDL0080000001	Cleveland	OH	44111	7/22/1999	just rx oxy today and will recommend senk with all oxy rx's
PPLPMDL0080000001	Beachwood	OH	44122	7/22/1999	has used once will use again and left senk protocol adn also mentioned oxyir for breakthru;
PPLPMDL0080000001	Uniontown	OH	44685	7/22/1999	when using vicodin vs oxycontin, why not oxycontin for the acute pts? using oxycontin to replace ms contin, or ca pain and she said has only one cancer pt. not think for in place of vicodin. Nk:ask what type of pain she is using vicodin for and does she have any pts on vicodin now?? uniphyl, going to theo after severe for asthma and copd. why isn't she using theo?? senokot-s.
PPLPMDL0080000001	Barberton	OH	44203	7/23/1999	said using theo when he listens to pts lungs and feels they are having trouble breathing, went over uni, qd dosing improves nocturnal o2 saturation and nighttime wheezing. nX:ask if has started a pt on uni??
PPLPMDL0080000001	Cleveland	OH	44109	7/22/1999	commnt to using oxyfast an doxycont need to tell him walgreens is ordering it in
PPLPMDL0080000001	Cleveland	OH	44113	7/22/1999	no 80mg yet keep reimmind him no oxyfast this wk has in stock and has been using
PPLPMDL0080000001	Cleveland	OH	44113	7/22/1999	pain clinic set up app with doud new ans to go over oxy,ir,fast

PPLPMDL080000001	Cleveland	OH	44109	7/22/1999	gave info on oxyfas/ir doesn not have using oxycon no 40 or 80s
PPLPMDL080000001	Akron	OH	44333	7/22/1999	using more oxycontin or oral opioids, but still does procedures, he goes to oxycontin if taking alot of short acting opioids, converts alot of his pts...
PPLPMDL080000001	Beachwood	OH	44122	7/22/1999	Nx:ask what concern he has with initiating oxycontin as the first opioid?
PPLPMDL080000001	Akron	OH	44333	7/22/1999	uses only in ca pats;need more time with him to get comfo using on nnon ca pain
PPLPMDL080000001	Akron	OH	44333	7/22/1999	ask why he is not using oxycontin on a more routine basis? vs vicodin or lortab? was thinking that oxycontin is stronger than vicodin and using only for more painful procedures or for pts that may think has an addiction problem. start with 1-2 10mg tab and titrate up . for vicodin es pts need to use the 20mg q12h. writing 1-2 tabs q3-4 h for both vicodin and vicodin es..
PPLPMDL080000001	Akron	OH	44333	7/22/1999	dr will start out with 10mg q12h and if not working he will go to q8h dosing, then go to 20mg q12h. thinking this way b/c when get to 20mg q12h, thinks jumping to 2 20mg tabs q12h is a big jump. Nx: ask what real concern with when going to q8h vs titrating and staying q12h.??
PPLPMDL080000001	Akron	OH	44333	7/22/1999	talked to dr alexander, he uses vicodin and tylenol w/codeine 1-2 tabs q4-6h. went over oxycontin and told him to use the 10mg tabs, 1-2 tabs q12h. he had three procedures in pm and said would use oxycontin on all three.
PPLPMDL080000001	Akron	OH	44333	7/22/1999	went over oxycontin, she said using for more severe pain cases mainly 20mg tabs q12h along with oxy ir for breakthrough. thinking oxycontin is stronger than vicodin, which she is using on a more routine basis. Nx:work on potencies and still what concern with using oxycontin vs vicodin?? worried about abuse and legal issues too???
PPLPMDL080000001	Akron	OH	44333	7/22/1999	talked to dr alexander, he uses vicodin and tylenol w/codeine 1-2 tabs q4-6h. went over oxycontin and told him to use the 10mg tabs, 1-2 tabs q12h. he had three procedures in pm and said would use oxycontin on all three.
PPLPMDL080000001	Akron	OH	44333	7/22/1999	using the 10mg tabs, said using vicodin for breakthrough sometimes, or darvocet. Likes because of no APAP, and q12h getsr no call backs and pts get goo pain control. Nx:talk about oxy ir for breakthrough.???
PPLPMDL080000001	Akron	OH	44312	7/23/1999	i have showed him every info in comparing oxycontin to vicodin, showing less abuse liability, but he says that is fine but, cil vs cill by the dea and he can get in more trouble for writing a CII. Checking with the ER dept, he has alot of addiction behavior pts, on mutiple opioids.

Will follow up again next Tuesday.
PPLPMDL0080000001	Cleveland	OH	44106	8/31/1999	big issue is that Dr connelly is that she says that duragesic is more cost effective than oxycontin at higher doses. If patients are on an iv pcs morphine pump she just converts them to oral morphine. Starts patiets on short acting until they are taking 4 pills a day and then converts to oxycontin. Goes to Duragesic when taking alot of pills, a couple of 80mg tabs, or if having gi problems.
PPLPMDL0080000001	Barberton	OH	44203	8/31/1999	dr mentioned that some patiets just want to be taking something every 4-6 hours, patients that have taken vicodin before say that oxycontin is not working. PLPMDL0080000001	Cleveland	OH	44195	9/7/1999	Had a long conversation with Dr. LeGrand. She is hospice Director of Cleveland Clinic Hospice. She will not use Oxycontin because she says it is too costly. She said her drug costs need to be \$10.00/day, and they are already \$12.00/day. She said she likes the drug, but she can't afford to use it. She is using Oramorph SR. She said she cannot notice any clinical difference between oxycodone and morphine, and she thinks that we should be teaching people not to be afraid of morphine, rather than playing on their fears of morphine.
PLPMDL0080000001	Cleveland	OH	44111	9/7/1999	rx a couple of oxy today on pat that he thought were seekers;kidney stone pts who are seekers says they are allergic to dye in the ivp test

PLPMDL0080000001	Cleveland	OH	44195	9/7/1999	Met briefly with Dr. Told her we would be donating \$2500.00 to her program at the end of October. Need to let Linda Pelidi know. We will be exhibiting at this program. Dr. says she uses Oxycontin when she can. Dr. Walsh won't let them use a lot.
PLPMDL0080000001	Cleveland	OH	44195	9/7/1999	Dr. Stillman is now in the neurology Department. He is dealing almost exclusively with primary headaches. He said opioids do not work at all for headaches. He said that for some unknown, opioids work better for pain below the head (barring head and neck cancer) than above the neck. He will not be using much Oxycontin at all anymore. Will continue to see quarterly to keep my foot in the door.
PLPMDL0080000001	Barberton	OH	44203	9/7/1999	starting with oxycontin and staying with it, has a patient on 480mg a day. She said the patch is giving very variable delivery and patients are not getting pain control, alot of breakthrough is needed. I think that she titrates kind of unusual, so I need to use the titration guide. Breakthrough medication, mentioned oxy ir but said patients have to take alot of pills,so I went over oxyfast.
PLPMDL0080000001	Garfield Hts	OH	44125	9/7/1999	get specific info about pat and how they are being treated with a particular focus on their follow up visits to monitor titration focused on function as being guide to when and how to titrate and esp to use this to determine efficacy

PPLPMDL0800000001	Lakewood	OH	44107	9/10/1999	He mainly uses Uniphyll with only an occasional UniDur. He tries to keep blood levels low around 5-10. He did say that he is only using a portion of what he used to write and that the trend is away from theophylline. Find out why he may have slowed down.
PPLPMDL0800000001	Cleveland	OH	44111	9/9/1999	all oxy including ir not oxyfast;says she recommending senkot;chauncy
PPLPMDL0800000001	Cleveland	OH	44102	9/9/1999	no oxyfast;all strenghts of oxy
PPLPMDL0800000001	Cleveland	OH	44106	9/9/1999	Dr. said he just discharged a pt. on Oxycontin, but it was written by the pain clinic, and was q8 dosing. Explained to increase the dose, don't decrease the interval.
PPLPMDL0800000001	Cleveland	OH	44102	9/9/1999	had pat that he gave uni to and thought it was generic but it prob was 400mg;has hard time swithing pats to oxy from vic will continue to try and new starts
PPLPMDL0800000001	Warrensville Hts	OH	44122	9/9/1999	make sure he calls ed pharm for formulary form for oxyfst;has pat on 1000mg oxy couldnt swallow gave oxyfst in house got intensolgave info on conv from oxy to pca morphine put pat on 20mg per hr then titrated up to 40mg;was on 1000mgoxy
PPLPMDL0800000001	Independence	OH	44131	9/9/1999	morphine metabolites and less invasiveness of oxy.titration guide and keeping patients on oxy when they come in on it. he said he is using with good results but it sounds false.talked about morphine metabolites and creatinine toxicity as well as morphine se.went over less invasiveness and updated delivery.he feels that he is being loyal to morphine and very hesitant to move from its use.the highest dose of oxy that he has used is the 40mg.went over the titration chart and wall chart of drugs.
PPLPMDL0800000001	Bedford	OH	44146	9/10/1999	follow up with uni conversions vs generics and bid's.see if oxy safety can displace darv showed martin and pak to get him to convert to uni.talked about how to convert
PPLPMDL0800000001	Northfield	OH	44067	9/9/1999	state board piece and peer influence went over the state bd of pharm piece and talked about how the guidelines are there to help.safety issues and labeling changes.titration guide to get him to go the multiple dosing of 10 mg tablet

PPLPMDL0080000001	Cleveland	OH	44106	9/14/1999	Lunch for the Oncology Clinic. Will discuss formulary status. Dr. Bokar said he is using mostly Oxycotin. he said he even put a low back pt. on it after the talk we had last time about chronic non-malignant pain. He said to let him know about P&T so he won't go for nothing. It appears Oxycotin didn't make this months agenda. Dr. Bokar did mention that he has never had a problem weaning a pt. off Oxycotin, and it appears easier than other opioids. Also showed Dr. Model Guidelines from the US Board of Medical Examiners as he mentioned tgat many physicians are afraid to write opioids.

	Cleveland	OH	44106	9/14/1999	Lunch for the Oncology Clinic Spent a lot of time talking with Beth about Oxycontin. Told her that Dr. Fleming respects her opinion and would like to know what it is regarding Oxycontin. I told Beth to cover the side effect and addiction issue heavily, as both are better with Oxycontin. Beth said she would go to the meeting as well as call Dr. Fleming. Beth also said that she would always start pts. on short-acting opioids like Percocet, and then convert them to Oxycontin. Tried to convince Beth the restricted formulary status is not good.

	Cleveland	OH	44106	9/16/1999	Spoke with Dr. about Oxycontin. She has not used much because only uses it for chronic malignant pain. Explained some of benefits of using it in chronic non-malignant pain such as for DJD when pts. no longer do well on NSAIDs. for pts. on short-acting opioids. Less abuse potential with long-acting etc. She said she would reexamine the issue.
PPLPMDL0080000001	Cleveland	OH	44106	9/16/1999	Dr. was not real interested in hearing about Oxycontin. It sounded like she was going to what whatever she wanted and she only listened to be courteous.

PPLPMDL0080000001	Cleveland	OH	44106	9/16/1999	Spent a lot of time talking with Dr. He said he tries not to use opioids if at all possible, but will if he needs to. We discussed the changing perceptions of opioids, and how Oxycontin is a very safe opioid due to it delivery system. He will need some work and will have to be moved along in baby steps. Next time will go for one pt. to convert to Oxycontin.
PPLPMDL0080000001	Cleveland	OH	44106	9/16/1999	Saw Dr. Lacy at the display. She said she has a rheumatoid pt. on Oxycontin and pt. is doing well. Couldn't remember the dose.
					Dr. hates Oxycontin. He said he has a terrible time taking pts. off the medications and he thinks that it should never be used for chronic non-malignant pain. He said there are many other things one can use that would be better than opioids. He does low back and thinks everyone on opioids become addicts. he will be virtually impossible to convince otherwise.

	Cleveland	OH	44106	9/16/1999	Spoke with physician mostly about Oxycontin. She does not to prescribe opioids, especially the "strong" ones. Only for CA pain. Showed the PI that shows oxycodone and hydrocodone as 1 : 0.9. She said she was unaware of this. We discussed it use in chronic non-malignant pain when NSAIDs fail. PLPMDL0080000001	Cleveland	OH	44119	9/16/1999	Senokot vs. Senokot Extra - differences between morphine vs. OxyContin ... bioavailability, side effects at higher doses, stigma - advantage of MSContin over Oramorph - color of tablets - nurses commented on that during the day - asked about rectal route of OxyContin - no information to give to him on that - would like to sit and talk with him concerning pricing, especially over Duragesic. Said that they are staying away from Duragesic if possible. Would have to talk with Elizabeth Pitork to get permission to do so. Doesn't seem to like that because of background at Mednet and seeing reps on continual basis -told him I ordered Pain book by McCaffery as a resource - greatly appreciated it - difference for him between MS and Oxy - he was trained on MS previous stint in hospice and feels more comfortable with it. would tend to use more of that than Oxy. will be attending both speaker programs at the end of the month with Dr Berger

PLPMDL0080000001	Cleveland	OH	44106	9/16/1999	Spent as lot of time talking with the Dr. about Oxycontin. We discussed the use of opioids in chronic non-malignant pain. We discussed differences in addiction and physical dependence. She thought it was a play on words. I showed her the definitions in the back of the US State Boards paper. She caught on the addiction was psychological. She admitted that this was contrary to what she was taught. I asked her to try in a DID pt. that has not responded to NSAID's. She said she would. Will continue to leave her information in her mailbox until the next time I can see her.
PLPMDL0080000001	Cleveland	OH	44106	9/17/1999	We discussed the use of theophylline. Dr. thinks there is a place for theophylline. He said that it is not fashionable to use anymore. He specifically said for nocturnal symptoms. I asked him how COPD pts. can inhale an inhaler. He said it is a problem. Told him that with Uniphyll, at least he can be sure that pts. are getting a dose of medication. He agreed. he said he will use Uniphyll when he uses a theophylline. Next time, find out when he will place a pt. on Uniphyll. At what point in the disease process.

He asked about doing for bilateral knees. Told him start on 20mg q12h and if no pain relief, go to 40mg q12h. He also asked about breakthrough. Told him Oxy-IR or Oxyfast. This Dr. could be a big writer. Also gave him reference of 1 Vicodin q4h = 20mg q12h and 2 q4h = 40mg q12h. He said that he will start using more 20mg q12h.

PPLPMDL0800000001	Cleveland	OH	44195	9/23/1999	Did lunch for the pain management clinic. Discussed Oxycontin. Had extensive conversion on Oxycontin. They just heard a lecture by Dr. Covington this morning. he was saying how the more severe cases do better when not on opioids. She is interested in hearing a speaker on opioid pharmacology and withdrawal in acute and chronic pain. I emphasized the fact that opioids have no ceiling so there is no need for polypharmacy. Discussed the Ginsberg paper and the conversion from IV morphine to oral oxycontin. The cost issue always comes up. Dr. is hard to read. She appears to like Oxycontin, but is easily influenced by her peers. Need to show acute pain

PPLPMDL0800000001	Akron	OH	44333	9/24/1999	wrote a 20mg script for a female patient that is experiencing RSD from hardware in her foot that was crushed. He is very conservative with oral opioids, and is not as willing to titrate a patient immediately.

PPLPMDL0080000001	Akron	OH	44333	9/24/1999	what type of patients has he tried on oxy? what dose? what is normal dose of vicodin that he is using? tried difficult patients that he tried on 20mg q12h and patients called back for lack of pain control, I asked what they would normally take and he said 2 vicodin q4h so the patients were being underdosed. I went over the dosing with 10mg tabs and told him to write 1-3 10mg tab q12h, he put a breast augmentation on oxy and going to write 30 tabs going 3-2-1 dosing.
PPLPMDL0080000001	Cleveland	OH	44106	9/24/1999	Met with Dr. Lavertu. he liked the idea of q12h dosing, but said the residents do most of the prescribing. He said he uses T3 most of the time. He IV morphine a lot because many of his pts. cannot swallow. He gave me the name of the chief resident. I will contact him to set up something for them.

PPLPMDL0080000001	Akron	OH	44333	9/27/1999	what does dr most commonly treat with vicodin? why not oxycontin?? He does not see any real difference in the potency he said there may be a slight difference. He said he has alot of patients on oxycontin, mainly 10mg and 20mg q12h.
PPLPMDL0080000001	Uniontown	OH	44685	9/27/1999	seeing alot of low back but he is mainly using vicodin for all pain states that require an opioid. He talked about using vicodin first until he got to 6 tabs a day and then going to oxycontin. I asked if he thoughtoxycontin was stronger than vicodin and he said no. Not thinking oxycontin as a quick onset of action, even for acute pain. I went over the the osteo study and low back study to show benefits of oxycontin, I told him the most common dose is 20mg q12h. Uniphyl, he said he isn't using any theo. He mentioned that he is recommending senkot-s.
PPLPMDL0080000001	Cleveland	OH	44103	9/27/1999	Will have lunch for the clinic. For 10 people. PPLPMDL0080000001	Barberton	OH	44203	9/28/1999	Dr connely says that she starts with short acting opioids until she gets to around six tablets a day then she will go to oxycotin and then titrate up. She said she is going to duragesic at higher doses because she says the patients have to take too many tablets, since the 80mg tab is the highest and she also said that at higher doses duragesic is more cost effective, not sure how she is converting between the two medications.
PPLPMDL0080000001	Cleveland	OH	44106	9/28/1999	Met Dr. at lunch. He seems to be pretty well versed in pain management. He said that it is usually starting pts. on oxycotin whenever they are candidates for opioids. He said he is not afraid to increase doses, and would rather increase the dose than add a second drug. He said he will usually wait 1-2 days to increase a dose. He said all the right things. Next time. Find out what the highest dose he ever had a pt. on. and was the pt.. eventually taken off the Oxycotin. Why?
PPLPMDL0080000001	Barberton	OH	44203	9/28/1999	dr said he is still mainly using on hernia surgery patients, painful procedures. Also mentioned use on an appendix case. Using the 20mg tabs q12h with apap every 6 hours.
PPLPMDL0080000001	Akron	OH	44333	9/28/1999	follow up on new patients on oxycotin?? did put a difficult vicodin patient on oxycotin and the patient called back, this patient is just looking for the buzz, tried 1-2 20mg tab q12h. He likes idea of 10mg tabs 1-3 tabs q12h, he used for breast augmentation and patient did well, he was not discouraged and said will continue to write more.
PPLPMDL0080000001	Barberton	OH	44203	9/28/1999	ask what he thinks is stronger, vicodin or oxycotin? what new patients on oxycotin? dr was going in to do a total knee procedure and He said he would try oxycotin on this patient. Mentioned writing 1-3 10mg tabs q12h after getting off the PCA. still keeping for more painful procedures.
PPLPMDL0080000001	Barberton	OH	44203	9/28/1999	dr said she was going to use oxycotin on two cases and she forgot, I asked what kind of cases and she did mention an abdominal procedure. She mentioned that she thought she would need 30mg of oxyconti q12h for the procedure, so I told her to use the 10mg tabs and write 1-3 tabs q12h.
PPLPMDL0080000001	Cleveland	OH	44106	9/29/1999	Dr. is Gynecologist by trade. is taking over Dr. Smirnoff's practice. He will be here Mon, Wed, Fri every week. I discussed Oxycotin. he does not seems to be opposed to using, but is cautious in light of what happened to Dr. Smirnoff. He does use Clif's. We discussed the importance of documentation and also the fact there is less abuse potential. Also Uniphyl. he said he will use if he has samples. SKT-5 also.

He said he has to try to remember OxyFast and he would like a list of pharmacies that carry it. He was glad to see me bring samples of Senokot. He recommends Senokot to all patients.
PPLPMDL0080000001	Cleveland	OH	44102	9/29/1999	HAS NOT USED MUCH UNI WILL TRY TO REMEMBER;HAS NOT FOUND OXY TO BE ABUSED AND WILL THINK OF IT FOR KIDNEY STONES;DR RYAN GOING TO KAISER
PPLPMDL0080000001	Westlake	OH	44145	9/29/1999	He said Oxycotin is his most used pain medication. He also uses some Vicodin for some patients that don't respond to OxyContin. He is becoming more comfortable with OxyIR and he is writing more. He appreciated the Senokot samples and he likes his patients to go on Senokot immediately. I set up a sit down appointment for Nov. 22 for the new drug.

PPLPMDL0080000001	Cleveland	OH	44119	9/29/1999	McCaffery book - very appreciative of the information. Asked a lot of questions regarding meds and where to use to Dr. Beger. Seems to be more comfortable in writing at higher doses - knowing its ok. Need to keep close to him to see that OxyContin is being used. Says not much Duragesic - but check on Hillmed notes showing otherwise for home pts. Order Ann Berger's book for him.
PPLPMDL0080000001	Cleveland	OH	44195	9/29/1999	Very quick meeting. nothing much accomplished this time.
PPLPMDL0080000001	Westlake	OH	44145	9/29/1999	he said he just put an arthritic patient and a low back pain patient on Oxy this week
PPLPMDL0080000001	Westlake	OH	44145	9/29/1999	She stopped in the lunch room quickly. Talked about 12 hour dosing vs. 4-6. She said she is using the Uniphyl and just put a new patient on in yesterday for COPD.
PPLPMDL0080000001	Cleveland	OH	44124	9/29/1999	Says she converts patients to long acting opioids. Highest dose used is 60 q12h. Left Senekot samples.

PLPMDL080000001	Barberton	OH	44203	9/30/1999	bring in a cost comparison of oxycontin vs duragesic. Showed her the cost comparison, but she still thinks with all th etablets compared to the patch that it is more expensive. She sticks to the same approach, short acting to oxycontin or morphine then to the patch. She is not seeing oxycontin as the superior product. I can not get what goes into the patient selection to choose what medication.
PLPMDL080000001	North Olmsted	OH	44070	9/30/1999	She said she has a few patients that she has tried on Uniphyl for COPD. She has not tried OxyContin yet. Josanne the PA was impressed with a Pharm D speaking on Oxy and pain management. See if she can influence Dr. Frith

PLPMDL080000001	Lakewood	OH	44107	10/6/1999	He has some fears about writing schedule 2 narcs. He is starting to write OxyContin and OxyIR. He is becoming a very good Uniphyl writer.
PLPMDL080000001	Lakewood	OH	44107	10/6/1999	He said he likes OxyContin more and more each time he uses it. He has been getting nothing but good results.

PLPMDL080000001	Westlake	OH	44145	10/6/1999	He's bee n using OxyContin for chronic pain because he likes the fact that it does not give a big peak and high. His patients can function as close to normal as possible. We talked about using it acutely instead of Vicodin. He liked the idea of using it for these patients. Follow up.
PLPMDL080000001	Parma	OH	44129	10/6/1999	follow up with speaker program HE was genuinely happy iwth the browns tickets.started another pat on oxy form a chronic vic user.he is gettign good results but still slow to convert more.hopefully tickets can act as impulse
PLPMDL080000001	Lakewood	OH	44107	10/6/1999	John mentioned that more breakthrough has been written lately. So we went over tetration principles.
PLPMDL080000001	Lakewood	OH	44107	10/6/1999	Went over OxyContin dosing and dosing breakthrough
PLPMDL080000001	Lakewood	OH	44107	10/6/1999	He said he mostly uses OxyContin but he does use Dilaudid before OxyContin. He believes narcotics should not be used for nonmaligant. He will probably be my largest Palladone XL target. He said he has a hard time trying to remember our breakthrough meds, but he will make an effort to remember and wants to use OxyIR and specially OxyFast.

PLPMDL0080000001	Garfield Hts	OH	44125	10/6/1999	avg dosing in clinicals and show back art and go over equiv doses showed him the back article and average dosing.tried to correlate that to his post op patients and how to give a little flex when writing by sriting 1-2.he is still concerned with addiction and used stillman's line about reentering life vs escaping life
PLPMDL0080000001	Independence	OH	44131	10/6/1999	titrate and ca studies talked about using the ir and the fast.went over proper breakthru percentages and how that can lead to when and how to titrate.he was very busy but we did talk a little about the patient that he was seeing next.colorectal ca with some bad mets.asked what he would do next for that pat and he just laughed.
PLPMDL0080000001	Independence	OH	44131	10/6/1999	trying to get past his amiability by asking different questions.he is using quite a bit of perc before he goes to long acting meds.and alot of those patients are taking significant amounts.trying to get him to convert those pat to oxy and then using the titration process to keep them on oxy.
PLPMDL0080000001	Lakewood	OH	44107	10/6/1999	He has had good success with OxyContin. Although, someone recently stole one of his script pads and was writing narcotics. He writes Oxy Contin for a lot of arthritis and osteo syndroms.
PLPMDL0080000001	Akron	OH	44320	10/6/1999	using 20mg q12h for post op with phenegrin suppository. Said not using tylox or percocet post op only oxycotin. Also has patients on chronic oxycotin.
PLPMDL0080000001	Cleveland	OH	44195	10/7/1999	Spoke with Dr. Basali about Oxycotin conversions. He is now on staff of the Acute Pain Management service. He said it is common practice to convert pts. from PCA to oral meds on the acute pain service. Left Oxycotin conversion chart and wall chart.
PLPMDL0080000001	Barberton	OH	44203	10/7/1999	showed how the patch compares with oxycotin at lower doses, but she said it doesn't work for higher doses. Using more duragesic for patients in more severe pain. Starts out with short acting then she is going to oxycotin. Still using morphine for some patients.
PLPMDL0080000001	Independence	OH	44131	10/7/1999	need to get one specific patient that has come in on oxy and talk about results and titration and how to manage this one at a time. em with him.he asks why being loyal to morphine is bad and i just tried to say that there is a better way.

PLPMDL0080000001	Barberton	OH	44203	10/7/1999	at first potency was the issue, using more for severe pain patients. Now it is more habit than anything. He uses vicodin. I mentioned oxycotin, or he mentioned it so he knows about oxycotin but need to get him in a habit, need to pick out a surgery, common to use oxycotin on.
PLPMDL0080000001	Barberton	OH	44203	10/7/1999	not much to say, he thinks that he is doing great things with oxycotin but his pain rational is senseless. He starts out patients on NSAIDs then is goes to vicoprfen because of the lbuprofen for antinflammatory effect, but he is already getting that effect with the NSAID, and then he goes to oxycotin with a NSAID. There is no reason he can't go to oxycotin right after the NSAID except he thinks ????????
PLPMDL0080000001	Cleveland	OH	44195	10/7/1999	Met Dr. Basali. Also spoke with Nancy about their use of poop kits. She said they would use them.
PLPMDL0080000001	Cleveland	OH	44106	10/7/1999	Tried to concentrate on this area. I tried to make appt. with Columbi, Delaney, and Chelmsky. Delaney makes his own appts. Columbi is at Green Road on Thursdays. Will try to see him next week. Diane is Chelmsky's secretary. Both were out.
PLPMDL0080000001	Oakwood Village	OH	44146	10/7/1999	Spoke with Anne Bourassa about direct contracting. Husband works for Novartis in Oncology div. Brought in lunch.
PLPMDL0080000001	Akron	OH	44314	10/7/1999	using for chronic pain, she is converting patients from short acting, vicodin and percocet. She is going to the program in november. Also mentioned that oxycotin can be used for acute post op pain.
PLPMDL0080000001	Westlake	OH	44145	10/8/1999	He has really increased his OxyContin usage. He prefers the long acting of short

PLPMDL0080000001	Akron	OH	44333	10/7/1999	has a few patients on ms contin, none on oxycotin, I covered the advantages of oxycotin over ms contin, in fact this patient was on 30mg q8h so I converted to 1-2 20mg tbas q12h to start. I went over the low back pain study and how to dose. uni, using for COPD patients and hit compliance and works when most patients need it the most. senokot-s.
PLPMDL0080000001	Akron	OH	44333	10/7/1999	liked the q12h dosing as an advantage, mentioned low back pain as most common acute pain. I went over the low back pain study and how to dose oxycotin. uni, using theo on new patients, mentioned no generic and works when patients need theo most in the early morning.
PLPMDL0080000001	Cleveland	OH	44106	10/8/1999	Did lunch with Tim Tarver, the Abbott rep. He has many things scheduled that we will do jointly. This lunch was for IM residents, but we did see Surgery residents also.
PLPMDL0080000001	Akron	OH	44333	10/7/1999	wanted a comparison drawn with ms contin first, so he had oxycotin placed for more severe pain. Also mentioned for oxycotin for acute pain patients, alot of low back pain. I went over the low back pain study. He asked about dosing, also the APAP level for hospital patients. uniphyl, said 50-50 for new theo starts and maintaining patients. talked about no generic of uniphyl and mentioned 20% fluctuation in theo's. asked about dosing bid for smokers. mentioned most common dose he mentioned 800mg. senokot-s.
PLPMDL0080000001	Barberton	OH	44203	10/7/1999	asked her if she has any patients on both oxycotin and the patch and she said very few that she is converting most to oxycotin. Titrating up as needed with oxycotin and she said that the absorption is bad with the patch. mentioned oxyfast and said has not tried it yet.
PLPMDL0080000001	Maple Hts	OH	44137	10/7/1999	kinds of patients and how to titrate asked him why he choses the meds that he does nad he feels that diff meds work differently for dif people.pre set ideas about se and effectiveness.he may even be a bigger candidate for future drugs
PLPMDL0080000001	Barberton	OH	44203	10/7/1999	going to use more on lap colys and hernia patients to get more experience. Most using 20mg q12h and on some using the 10mg tabs to titrate to 30mg q12h.
PLPMDL0080000001	Akron	OH	44203	10/7/1999	dr mentioned using oxycotin more for pain patients, using for suturing procedures and pts coming in on vicodin already. He is using the 10mg tabs q12h for patients not on opiods already, and 20mg q12h for patients already on vicodin. Also said converting patients, low back from vicodin to oxycotin.
PLPMDL0080000001	Westlake	OH	44145	10/8/1999	He has really started using Oxy IR. Find out why MS Contin is picking up again

PLPMDL0080000001	Cleveland	OH	44106	10/8/1999	Dr. attended a lunch. I discussed the benefits of Oxycotin post-op. This doctor was not that interested in what i was saying. I don't think she will use much.
PLPMDL0080000001	Cleveland	OH	44106	10/8/1999	I talked about using Oxycotin post-op. Dr. said in his heart patients, the incision in the chest does not hurt. he said Oxycotin may be good in his threectomy patients. I told him if he is using Percocet, use Oxycotin q12h instead. he said he will try it.
PLPMDL0080000001	Akron	OH	44333	10/11/1999	said no real difference in pain control with oxycotin vs vicodin. q12h dosing is an advantage and no peaks and troughs. Mentioned vicodin is a habit.
PLPMDL0080000001	Warrensville Hts	OH	44122	10/11/1999	will be doing preceptorship with him to gain better understanding of his pats;will not keep pats on oxy if they itch;

PLPMDL0080000001	Cleveland	OH	44106	10/11/1999	Have been trying to make an appt. with Dr. Chelmsky. Finally got to see Diane. She isi Dr. Chelmsky's secretary. She will call me tomorrow with a date for an appt.
PLPMDL0080000001	Cleveland	OH	44113	10/11/1999	wint over who step ladder and how oxy fits in step 2 &3
PLPMDL0080000001	Barberton	OH	44203	10/11/1999	dr mentioned putting nonmalignant chronic pain patients on oxycotin from vicodin, after 4 vicodin tabs then he goes to oxycotin, some patients say that it is not working, and goes back to vicodin. Mentioned using morphine derivative for cancer pain patients and duragesic for convenience in nursing home patients, not controlling pain very well and can only get 5 patches. uni, starting new patietns on for COPD, uni doses in the evening, hit no generic issue and also mentioned senokot-s.
PLPMDL0080000001	Cleveland	OH	44106	10/11/1999	Discussed the use of Oxycotin post-op. Dr. said he likes to use short-acting meds post-op because he thinks it is easier to titrate. Explained the titration of Oxycotin. Explained that 20mg q12h = 1short-acting q4h. This made a little more sense to him. Told him to start on 20mg q12h and increase dose daily if needed. He was not convinced. I'm not sure exactly what his objection was. Possibly didn't understand long-acting compared to short-acting deliveries, although I did explain about the spikes of using CII's. He then deferred to Dr. Goodfellow, the sports medicine doc.
PLPMDL0080000001	Cleveland	OH	44113	10/11/1999	quick hit on oxy see if he used on pat today
PLPMDL0080000001	Akron	OH	44304	10/11/1999	oxy vs vicodin and perc for non malign pain, copd step ladder
PLPMDL0080000001	Cleveland	OH	44106	10/11/1999	Dr. is still using Oxycotin and getting good results. Need to find out why some pts. get Oxycotin post-op and some don't. How does he make his decision on what to use.
PLPMDL0080000001	Akron	OH	44333	10/11/1999	what new patients are on oxycotin? mentioned that has patients on vicodin usually taking 4-6 vicodin tabs or until taking around the clock before going to oxycotin. Also mentioned some type of limit on oxycotin for his patients. Potency did not seem like it was an issue.
PLPMDL0080000001	Akron	OH	44307	10/11/1999	still hasn't bee using but going to try him out speaking
PLPMDL0080000001	Cleveland	OH	44106	10/11/1999	Dr. is a pediatric orthopedist. He said he usually doesn't give his kids opioids except post-op. Here he gives T3. I explained the benefits of oxycodone vs. codeine. He said he could see some benefit to Oxycotin for his teenagers. I don't expect much business here.
PLPMDL0080000001	Bedford	OH	44146	10/11/1999	potency comparison from pi and aps he is using oxy for his more severe and chronic patients.perceives it for a ca drug and for when others aren't enough.mother took vic for her cancer and he was happy with results but does understand importance of pain management.showed him equiv to vic and said the oxy is just like vic but lasts longer.
PLPMDL0080000001	Warrensville Hts	OH	44122	10/11/1999	needs to be continually reminded to use oxy pat just left with lorcet he said he would have used oxy if he had remembered

PLPMDL0800000001	Akron	OH	44304	10/11/1999	oxy vs vicodin and perc for non malign pain, copd step laddersays vic is mostly habit and doesn't think of using oxy for acute pain although says it does make sense
PLPMDL0800000001	Akron	OH	44333	10/11/1999	mentioned that he thought oxycontin is more potent than vicodin(perception of C II vs CIII). Used the phone in ability as being able to control how much the patient is taking better, but more control with oxycontin. Also mentioned that old habit die hard. Still has alot of patients on vicodin and need to ask if would convert to oxycontin.
PLPMDL0800000001	Akron	OH	44313	10/11/1999	he is starting to use oxy for his chronic patients but has bad perceptions of the patients.he is using in one back pain pat but feels he is seeking meds instead of help.wnet over the definitions piece and tried to get him to be open about barriers and not being skeptical
PLPMDL0800000001	Akron	OH	44333	10/11/1999	need to find out what most common dose he is using, and how difficult are these patients normally. using oxycontin 1-2 10mg tabs q8-12hrs. using vicoprofen for more minor procedures.should have asked what procedures doing oxycontin?
PLPMDL0800000001	Cleveland	OH	44106	10/11/1999	Dr. was in on same discussion as I had with Nick Wandders. Dr. said he may try post-op. He will start patients on 40mg q12h and see how pt. does. He does not want to see the patient again for pain. I explained the benefits of no Tylenol and ability to increase the dose if pt. needs. He did say he will try it. Will follow-up with him next Monday.
PLPMDL0800000001	Cleveland	OH	44105	10/12/1999	just gv oxy yesterday uses 10mg only went over breakthrough wont use and qcik uni
PLPMDL0800000001	Akron	OH	44333	10/11/1999	using oxycontin 1-2 tabs 10mg q12h. using darvocet for carpal tunnel. still usingin vicodin for post op and mentioned refill is the issue. I think potency is still the issue.
PLPMDL0800000001	Cleveland	OH	44105	10/12/1999	QUICK HIT MOSTLY TEACHES DOESNT SEE MANY PATS
PLPMDL0800000001	Cleveland	OH	44122	10/12/1999	has pat he was going to give perc to will give oxy 20,mg
PLPMDL0800000001	Akron	OH	44333	10/11/1999	using 1-2 10mg tabs for most patients even had one patient taking 3 10mg tabs q12h. Mentioned needing the oxy ir and taking APAP.
PLPMDL0800000001	Bedford	OH	44146	10/12/1999	went over evans and how and when to add uni.went over the asthma case study and identified a couple of pat to convert from bid theoph
PLPMDL0800000001	Cleveland	OH	44106	10/11/1999	Discussed use of Oxycontin post-op. Dr. could see the benefit in this. He is using Oxycodone post-op so why not use q12h dose. He said he will probably use a lot more. He alaos goes out to Geauga.

PPLPMDL0080000001	Euclid	OH	44132	10/13/1999	Discussed resources available. Don't normally do lunches in office but wanted to request it from office manager. Poop kits.
PPLPMDL0080000001	Akron	OH	44333	10/13/1999	ask where oxycontin fits into treatment vs short acting and morphine or the patch. using alot of oxycontin at edwin shaw hospital, when back pain surgical patietns come from the acute care hospital, if their pain is being controlled on short acting he keeps them on, said usually about a third of the patients and the other two thirds are not being controlled so he converts these patietns to oxycontin and then titrates up.
PPLPMDL0080000001	Akron	OH	44333	10/13/1999	his only complaint was the cost of oxycontin and he was comparing to methadone, he is using some for chronic pain because of the cost and he also did mention the nMDA receptors. Using mainly for all low back pains and said easy to titrate adn better for chronic pain control.
PPLPMDL0080000001	Barberton	OH	44203	10/13/1999	mentioned that the patients he is putting on oxycontin are patients that he is converting from short acting mainly vicodin, and alot of low back pain patietns, most commonly converting to the 20mg tabs q12h. uni, said using for COPD patietns that are not being controlled on the inhalers, instead of using higher steroid doses adding on uniphyll. senokot-s.
PPLPMDL0080000001	Euclid	OH	44119	10/13/1999	Poop kits for Onc Clinic. Pam, RN, said she would recommend OXY and titration where appropriate.
PPLPMDL0080000001	Cleveland	OH	44106	10/13/1999	Dr. is a new pain fellow. He really like Oxycontin. I told him of the Ginsberg paper for converting form IV morphine. He was converting to oral morphine and then to Oxycontin. He says there are fewer side effects from Oxycontin. He is using breakthrough as a titration guide. He will be big for us.
PPLPMDL0080000001	Cleveland	OH	44106	10/13/1999	Dr. is a new pain fellow. He really like Oxycontin. I told him of the Ginsberg paper for converting form IV morphine. He was converting to oral morphine and then to Oxycontin. He says there are fewer side effects from Oxycontin. He is using breakthrough as a titration guide. He will be big for us.
PPLPMDL0080000001	Akron	OH	44333	10/13/1999	he still has the idea that oxycontin is not covering the pain and that it causes more nausea. He tried 1-2 20mg tabs q12h and said 1 20mg was not enough and that 2 20mg tabs made the patietns sick. I mentioned the 10mg tabs and he is apprehensive. His patients are taking 2 vicodin every 4hours post op.
PPLPMDL0080000001	Akron	OH	44333	10/13/1999	dr said he tried about 20 patients on oxycontin post op using the 10mg tabs taking 1-3 tabs and 8 out of every 10 patients called back and said it was not working the next day. I was also talking with dr kperley and he mentioned that some patietns you are not going to get completely pain free. So I asked him if he would tell them to stay with it for at least two or three days. The he said he has some patients taking 2 vicodin evry 3 hours so they are taking 16 vicodin a day. So I told him to write 1-2 2mg tbas q12h and start them taking 2 20mg tabs post op. He was doing this on a lady he was going into surgery.
PPLPMDL0080000001	Akron	OH	44333	10/13/1999	dr mentioned he does not use alot of oxycontin, he said he has used on a chronic patient or two mentioned low back. Post op, knees and hips he mentioned they are on morphine pca for first 24 hours then they go home on either tylox or vicodin. Mentioned short acting and the placebo effect that patients like. Long acting he is worried about the medication not lasting 12 hours and having them need to take something else. mentioned that the nurses have to know exactly what to do.
PPLPMDL0080000001	Akron	OH	44333	10/13/1999	dr said he ahs used oxycontin on a patients or two, the 10mg tabs. He said that every patients is different and that he uses all the different types of opioids post op. He mentioned the q12h dosing as a benefit.

PPLPMDL0080000001	Cleveland	OH	44111	10/15/1999	tyried using oxyfst and pat couldnt find gave stocking list and oxy for pst ofp
PPLPMDL0080000001	Akron	OH	44333	10/18/1999	ask if no peaks and troughs and q12h dosing is enough to write oxycontin over vicodin? quick reminder to dr, told him I was here to break the habit of vicodin.
PPLPMDL0080000001	Cleveland	OH	44195	10/18/1999	Dr. is 5th yr. resident. Said he is using Oxycontin. Likes it because of less addiction potential. Appears to be using for the medications he send the pts. home on. Writing for 1-2 weeks.
PPLPMDL0080000001	Akron	OH	44333	10/18/1999	using the 400mg tablets and then going to BID theo because of concern for dose dumping or toxic levels with a qd dose of 600mg. I showed the astham multiple actions card to show 600mg getting a blood level of around 12. He said he would try a 600mg tab.
PPLPMDL0080000001	Berea	OH	44017	10/18/1999	he is using for more severe cases.has used in arthritis but only for patients that have failed nsaid and other regimens.talked about using in conjunction with the nsaid and not waiting so long

PPLPMDL0080000001	Akron	OH	44333	10/18/1999	not doing much pain management with oral medications, he does some blocks.
PPLPMDL0080000001	Cleveland	OH	44130	10/18/1999	he is using alot of gen and bid theoph.need to get him to convert. followed up with his case and talked about the grand rounds programs and threw a couple of names out for him.showed him martin and pak and talked about getting more specific when he uses theoph and talked about extra assurances for patients.also went over how to convert
PPLPMDL0080000001	Middleburg Heights	OH	44130	10/18/1999	followed up with the phone calls that they always get about se with pain meds.they are getting with oxy but they are also getting with vic and used the nurse to verify the volume.talked about generic vic and the safety and labeling changes
PPLPMDL0080000001	Oakwood Village	OH	44146	10/18/1999	need to find something that he is not sarcastic about he deeply cares about his pain patients and often has to convince them or a family mamber that it is ok to take the oxy and other pain meds.even took a couple to a pain conference.cost and his skepticism are his major drawbacks
PPLPMDL0080000001	Cleveland	OH	44195	10/18/1999	Dr. said he has been using Oxycontin more often. He said he is on Dr. Anderson's service and has told him about it also. Dr. is a fellow in sports medicine. He said he had one pt. that was eating it like candy. I told him that maybe he needed more for pain relief. He also mentioned using it q8h.
PPLPMDL0080000001	Akron	OH	44333	10/18/1999	ask what it will take to increase oxycontin use and replace some of the short acting opioids, or why is he still using short acting over oxycontin? said placebo effect some patients just want to take something every 4 hours. Asked about duragasic and advantages of oxycontin vs it. He said he put two patients on it that haven't been controlled on anything including oxycontin. Also mentioned Kadian. I mentioned benefits of oxycontin. I just asked him to increase his oxycontin rx'ings.
PPLPMDL0080000001	Cleveland	OH	44195	10/18/1999	Dr. said he is not using much Oxycontin at this time, as he is on Hand service and Dr. Culver is a Percocet man and will not change. Dr. said if I get a stamp made, he will let me stamp a few scrips for him. Will have one next
PPLPMDL0080000001	Cleveland	OH	44195	10/18/1999	Lunch in-service for the Ortho residents.
PPLPMDL0080000001	Euclid	OH	44119	10/18/1999	CME office. Sponsoring 11/18/99 program. Setting up Fifth Vital sign for early next year.

PPLPMDL0080000001	Parma	OH	44134	10/18/1999	add on with uni and when.samples are important and so is keeping the name in front of him
PPLPMDL0080000001	Cleveland	OH	44195	10/18/1999	Saw Dr. at lunch. He is familiar with Oxycontin, but is not using much. Will need to discuss what he is using post-op. He does mainly foot and ankes. he did not discuss many specifics with me on Oxycontin.
PPLPMDL0080000001	Barberton	OH	44203	10/19/1999	dr black mentioned that about half of his theo are new starts and the other half are maintenance. He said he has some patients on uni.
PPLPMDL0080000001	Cleveland	OH	44195	10/18/1999	Dr is an intern. I discussed the benefits of using Oxycontin post-op as opposed to using a q4h short-acting opioid. He agreed with the philosophy. He said he would use.
PPLPMDL0080000001	Akron	OH	44333	10/18/1999	it gets harder to talk to dr about oxycontin and pain management each time. Oxycontin is being initiated after patients come in on short acting opioids and they are not being controlled, then he will convert. If the patient is doing ok on short acting he sometimes will keep them on the existing opioid.
PPLPMDL0080000001	Cleveland	OH	44195	10/18/1999	Dr. said he likes idea of long acting because there is no street value to the meds. He said he is using it. Need to get more specific as to when he is using it and what dose he is starting pts. on.
PPLPMDL0080000001	Parma	OH	44129	10/18/1999	acl and short term benefits went over short term data and how oxy can be used instead of vic.he said that he likes the call in availability.his biggest problem is that he keeps getting out of the habit and more follow up will be required
PPLPMDL0080000001	Parma	OH	44129	10/19/1999	used the case study to try to identify a couple ofpat for conversions
PPLPMDL0080000001	Cleveland	OH	44106	10/18/1999	Met with Andrea Dracon. She is Dr. Silverman's nurse. She told me that the Drs. are using a lot of Oxycontin. She said that what they use depends on physician preference. She seems to think that all the physicians at UH are "cutting edge" physicians, and know it all about pain management. I asked her if I tell me when they will convert a pt. off of Oxycontin if they believe that opioids have no ceiling. She did not have a good answer. Will keep in touch with her on a monthly basis.
PPLPMDL0080000001	Cleveland	OH	44106	10/18/1999	Met with Dr. She said she is using a good deal of Oxycontin. She said if pt. if taking Cills more than twice a day, she goes to Oxycontin. She said that when pts. get more than 40mg q12h, she goes to morphine. I explained to her that she can increase the dose of Oxycontin just as she did with MS Contin. She appeared not to know this. She did say that Oxyntin appears to cause less sedation. She said she will continue to use. Ned to concentrate on getting her to increase doses.
PPLPMDL0080000001	Akron	OH	44333	10/18/1999	dr shin is still mainly using the 10mg and 20mg tabs. His titration scheme is to go q8h before going up to the next strength tablet. Still using Ms Contin for more severe pain patietns, if he can not controll them on oxycontin, which is usually only 20mg q8h.
PPLPMDL0080000001	Akron	OH	44203	10/19/1999	dr frank quick mention of oxycontin, he said he has used a couple of times for fractures.
PPLPMDL0080000001	Cleveland	OH	44195	10/18/1999	Dr. said he is still using Oxycontin, but is using 10's. He said he feels like he has more control. He starts with 10mg q12h and then goes to 20 if he needs to.
PPLPMDL0080000001	Parma	OH	44129	10/19/1999	conversions from bid and generics.kirten and uni dosing benefits he says that some pateints like to take meds twice a day.talked about the reliability of brand vs generic
PPLPMDL0080000001	Cleveland	OH	44195	10/18/1999	Dr. Goodwin said it is getting a lot easier to get Oxycontin in the hospital. He is not having to hassle with pharmacy as much as he used to. He said he is seeing many pts. get started on 20mg q12h.
PPLPMDL0080000001	Cleveland	OH	44109	10/19/1999	quick hit too busy to even sign for samples
PPLPMDL0080000001	Cleveland	OH	44113	10/19/1999	just recived samples of uni and does use;
PPLPMDL0080000001	Akron	OH	44333	10/18/1999	he mentioned that he uses short acting medications for post op, 7 days or less. Mentioned codeines and hydrocodones. I went over oxycontin and then he said he writes percocet 1-2 tabs q6h for post op. APAP is a concern too. I told him to write 1-2 10mg tabs q12h post op. He said he would use oxyfast for cancer patients. Senokot-4 for bowel control.
PPLPMDL0080000001	Cleveland	OH	44109	10/19/1999	one pat couldnt get 20mg told him walgreens;agreed if pat didnt get relief it wasnt correct dose;some pats didnt tolerate uni but will keep truing to switch
PPLPMDL0080000001	Cleveland	OH	44113	10/19/1999	has used in house and out patient;find out what types of pats
PPLPMDL0080000001	Cleveland	OH	44106	10/19/1999	Talk to Dr. about when he starts a pt. on oxycontin. What are they on when they come to him? Discussed P&T status of Oxycontin at V.A. He said he will go to the meeting when it gets before the P&T committee. I will keep him informed.

PPLPMDL0080000001	Cleveland	OH	44115	10/19/1999	still thinking about usig oxy
PPLPMDL0080000001	Cleveland	OH	44109	10/19/1999	is using oxy and vic or lortab together
PPLPMDL0080000001	Cleveland	OH	44130	10/19/1999	more ahcpr data and the oa study again non malignant data and dosing ranges in the pi
PPLPMDL0080000001	Independence	OH	44131	10/19/1999	need to focus on his perc pat and get those conversions quicker he goes to long acting meds as soon as he feels pain will be a chronic thing,he is using oxy because of his training at metro and from the conversation it appears that his perc is being used as breakthru,we talked about the titration guide and how to dose with the 3-2 rule,also talked about using the fast and the ir instead of perc,asked about his success with the oxy and how none of the other group seems to getting same results and he said that they are hard to break from old habits,he said that using ms and duragesic together was dumb,they liked the poop kits alot.
PPLPMDL0080000001	Barberton	OH	44203	10/19/1999	what new cases that he is still using vicodin on would be appropriate for oxycontin? or what cases is he still using vicodin on vs oxycontin? using mainly on hernia patients, 20mg q12h with APAP. I asked about gall bladder surgery, and he said he hasn't tried it yet. Mentioned that has vicodin standing orders for patients to go home on.
PPLPMDL0080000001	Barberton	OH	44203	10/19/1999	ask what common surgery he performs that he is willing to use more oxycontin? He said he gave oxycontin a good test and gave it to patients that have not been able to be controlled on percocet or vicodin. Using 1-2 10mg tabs q12h post op. Als mentioned that a patient with chronic panceatitis is doing well on. also mentioned a hernia patient on oxycontin.
PPLPMDL0080000001	Lakewood	OH	44107	10/20/1999	lunch. He admitted that he uses a fair amount of Vicodin. We went over delivery less abuse, and less dosing and acute use. He admitted that there are many advantages over Vicodin and he will use it more often.
PPLPMDL0080000001	Lakewood	OH	44107	10/20/1999	lunch. He said he has used OxyContin on a couple of chronic pain patients. He agreed that it is a good drug. We compared to Percocet and he admitted the advantages with the delivery system and less abuse potential.
PPLPMDL0080000001	Warrensville Hts	OH	44122	10/20/1999	pats having hard time getting oxyfast likes it better than oxyir doesnt have any high dosed oxy pat right now
PPLPMDL0080000001	Lakewood	OH	44107	10/20/1999	He said he has only used OxyContin for some oncology patients. Showed him that OxyContin can be used for acute and chronic and right after NSAIDS. He liked the delivery.
PPLPMDL0080000001	Warrensville Hts	OH	44122	10/20/1999	whats the highest dose oxycont today;uses pca for three days post oper and then oxy need to find out why he wouldnt swtch sooner

PPLPMDL0080000001	Westlake	OH	44145	10/20/1999	had a quick hit in the hallway. He said he prefers OxyContin over anything
PPLPMDL0080000001	Cleveland	OH	44122	10/20/1999	said he just started pat on oxy20mg and pat came back and wnated to kiss him it worked so well;gve him poop kits and liked very much
PPLPMDL0080000001	Cleveland	OH	44195	10/20/1999	First meeting. Also with Mary Ann Karam. Dr. said she is the main one for pain management. Find out where Oxycontin fits into their pain medication scheme. Dr. said most of his patients are on Oxycontin. He said after the PEI program, MS Contin was phased out, although the XPonent data do not verify this. Dr. said Mary Ann Karam is the one responsible for all the pain management. Dr. said Mary Ann starts all pts. on 2 Skt-5 t.i.d. Mary Ann says all are started on 2 b.i.d. Get Mary Ann the laxative protocol.

PPLPMDL0080000001	Cleveland	OH	44106	10/20/1999	Discuss Dr. views on Oxycontin. When does he use it and why? Will he use in plsc of CIIIs? Dr. is using almost exclusively Oxycontin. He seems to know how to titrate and is very happy with the results. I discussed Oxyfast with him and also Senokot-S. he was just using plain Senokot and a stool softener. He will be on staff in a few months.
PPLPMDL0080000001	Cleveland	OH	44106	10/20/1999	Dr. is big supporter of Oxycontin. He said most of his pts. are on it if need an opioid. He said most pts. get started on 20mg q12h and get titrated if needed. Next time. Find out how often he titrates.
PPLPMDL0080000001	Parma	OH	44129	10/20/1999	he said that he is using half the oxy in the hospital,he is using higher doses,he is using pre op so we talked about using in the outpatient setting and we talked about dosing 1-2 of the 10 and 20mg,he is sometimes titrating to 40mg,tryign to get him to influence surgeons,he said that wolani is getting alot of nausea when he uses
PPLPMDL0080000001	Cleveland	OH	44106	10/20/1999	Dr. is in charge of residency program... Discussed Oxycontin with him. He had heard of it, but was using MS Contin. Asked him to convert pt. to 20mg q12h of Oxycontin. He said he would. I asked if I could provide a speaker. He said usually pharmaceutical company's not allowed. Will work through the chief resident to get one scheduled.
PPLPMDL0080000001	Westlake	OH	44145	10/20/1999	He said he is a Lortab uses. Showed that both are similar strength and that patients will get a smooth 12 hour control with Oxy

PPLPMDL0800000001	Akron	OH	44333	10/25/1999	ask dr if the patient is taking 4 vicodin a day, if he feels they are taking medications around the clock. Also, what is overdosing or ceiling dosing? it seems that 40mg q12h is where he keeps mentioning aa the dose where he would become concerned. The reason, he did not give one. I went over no ceiling with oxycontin, no APAP. He bought into that. I addressed the 4 vicodin a day, and asked if he gives it to them to take as needed. He did say that they do take it every 6 hours or around the clock.

PPLPMDL0080000001	Cleveland	OH	44106	10/27/1999	Did lunch for the IM noon conference. Got to discuss product with 3 of the residents. Dr. had oxycontin conversion chart in her coat. She said it is very helpful and uses it a lot after she got chewed out by an attending for not controlling a pts. pain. She said the residents want more of these.
PPLPMDL0080000001	Cleveland	OH	44106	10/27/1999	Did Journal Club for the residents. Went over the Sunshine and the Ginsberg article. Discussed addiction issues and how they are using Oxycontin post-op. Dr. Wilber is very afraid to use Oxycontin for fear of making his pts. addicts. he said he will not leave his pts. on ot for any more than 3 months. We explained why Oxycontin has less potential for abuse that short-acting opioids.

PPLPMDL0080000001	Cleveland	OH	44195	10/28/1999	Had long discussion with Dr. LeGrand. We discussed cost issues with Oxycontin. She said ideally, she would like to give 50-50 between us and Roxane. We are not getting anything close to that now. I told her that if they are going to use oramorph because it is cheaper, then at least use Oxycontin where appropriate, ie. renal pts., those who don't tolerate morphine. She somewhat agreed. Will continue to work on her with this concept.

PPLPMDL0080000001	Bedford/Sinai	OH	44146	10/28/1999	went over more pain management stuff and the 3-2 rule talked about having a plan and how well oxy fits in that plan how easy it is to get nurses and other care givers in that plan.se over morphine and cost.he sais he is using just to be amiable but he does not take an aggressive approach to pain.
PPLPMDL0080000001	Barberton	OH	44203	10/28/1999	using oxycontin for chronic pain, mentioned mainly low back pain and shingles, using 40mg and 80mg doses. Did ask about cost and what health plans it is covered by. uniphyl, for COPD patients asked if needed to take with food. 40mg mainly using.
PPLPMDL0080000001	Cleveland	OH	44195	10/28/1999	Dr. is still not doing much with opioids. He is still dealing with headaches, although he is active in pain management on a state and national level.
PPLPMDL0080000001	Barberton	OH	44203	10/28/1999	ask if cost is the only reason she goes to the patch? when goes to morphine instead of oxycontin. The ease of titration, maybe the issue, she is not as comfortable titrating to higher doses with oxycontin. Thinking the patch is easier to titrate.
PPLPMDL0080000001	Barberton	OH	44203	10/28/1999	waht type of patients still on the patch? what concerns is she seeing with oxycontin that she would not put all patients on oxycontin or most? ifound out that she is not comfortable of familiar enough with oxycontin, oxy ir and oxyfast to titrate with comfort, so sometimes she adds the patch to it. I went over PO5 and told her that for every 25UG of the patch it equals 10mg of oxycontin. She liked the titration guide because it had the oxycontin dose and the breakthrough dose also.

PPLPMDL0080000001	Akron	OH	44310	11/1/1999	definetely starting to use for; more acute pain
PPLPMDL0080000001	Bedford	OH	44146	11/1/1999	aps and jachmo.more equivalencies and dosing giving him info is small spurts seems to be best.saving oxy for more serious hard to treat and chronic. stuff but is starting to use for his reg vic patients.went over labeling changes and equivalents
PPLPMDL0080000001	Akron	OH	44203	11/1/1999	habit, habit, habit, still using vicodin, but she had low back pain patient and going to use 20mg q12h.
PPLPMDL0080000001	Cuyahoga Falls	OH	44223	11/1/1999	he is going to oxy sooner than than bressi but he has a tendency to use q8talked about dosing and he really has not given q12 a chance.starts out q12 but it is a low dose.when it does not work, he titrates but also increases the frequency.
PPLPMDL0080000001	Cleveland	OH	44111	11/1/1999	HARD TO GET INFO OUT OF SAYS HE'S USING OXY HAS NOT YET USED OXYFAST HAS GONE TO 120MG Q12
PPLPMDL0080000001	Barberton	OH	44203	11/1/1999	ask what concerns with in using oxycontin in place of vicodin postop? he tried oxycontin 20mg q12h on a post op patient and the patient did not get pain control with it. It was only on 2 patients. He is using vicodin and percoet for kidney stones and post op, quick onset giving pain control. He said he would use for kidney stones and post op, stint insertion for kidney stones.

PPLPMDL0080000001	Cleveland	OH	44106	11/9/1999	Got to see Dr. very briefly at ER in V.A. Only got to mention Oxycontin. Invited him up to lunch in Oncology. He said he would come, but never did.
PPLPMDL0080000001	Akron	OH	44320	11/9/1999	why still using short acting opioids post op vs oxycontin? he wrote a 40mg script for chronic pain, using short acting in hosp tylox is on formulary and post delivery orders.
PPLPMDL0080000001	Cleveland	OH	44109	11/9/1999	committed to using oxy in post oper pain has ca pat waiting to do surgery
PPLPMDL0080000001	Cleveland	OH	44106	11/9/1999	Confirmed talk with Debra for Jenny Hooks for Friday. She said she asked Jenny to upscale the talk as there will be some advanced nurse practioners there. Debra is using MS Contin first as she says that is what the V.A. wants. She is not one to fight the system.
PPLPMDL0080000001	Cleveland	OH	44106	11/9/1999	Met with one of the ER physicians. - William Myer, M.D.
PPLPMDL0080000001	Cleveland	OH	44195	11/9/1999	Got the name of Joanne Palmer through another nurse. I met with her. She said none of the staff will see reps. She said only one physician would write Oxycontin and he already is. His name begins with a B. He works closely with the spine center.
PPLPMDL0080000001	Cleveland	OH	44106	11/9/1999	Met with Chief of Pharmacy. See notes under pharmacy department. Also worked ER.
PPLPMDL0080000001	Cleveland	OH	44106	11/9/1999	Met with Director of pharmacy. His name is Mike Margevicius. He is VERY rep friendly. He is very interested in what we have to offer for JCAHO. They are going to develop a critical pathway for pain next year. I offered to help. He was interested. I set up an in-service for the pharmacy on Nov. 23. It will be on pain management and Senokot-S.
PPLPMDL0080000001	Cleveland	OH	44106	11/9/1999	Dr. said he is using more Oxycontin at Metro than at the V.A. He said he has more new patients at Metro. He said that the pts. he sees at the V.A. are already on Oxycontin. He also asked about what was the best laxative . Told him Senokot-S. Emphasized need for laxative and stool softener. he said he is using. Giving 2 at bedtime. Told him can to 8/day.
PPLPMDL0080000001	Cleveland	OH	44109	11/9/1999	very inter in using oxy instead of vic for occ med pats only on on Mondays
PPLPMDL0080000001	Strongsville	OH	44136	11/9/1999	talked about how to use in the er setting that is what he will be doing soon
PPLPMDL0080000001	Cleveland	OH	44105	11/9/1999	ask what he does after viox ;see if he switched vic lady to oxycontin with workman's comp;has pat with hardware in back to oxy 10mg thought 20mg was too strong
PPLPMDL0080000001	Barberton	OH	44203	11/9/1999	ask what new procedures would use oxycontin on? using oxycontin on the more sever pain patients post op, the smaller ones she said needs only 5 mg tabs.

PLPMDL080000001	Cleveland	OH	44195	11/9/1999	Met with Dr. Walsh. He said that the one thing that is keeping Oxycontin off the formulary is money. He said our own studies show it is not superior to MS Contin, and MS Contin is much cheaper. He said that he is no longer on the P&T committee, and if someone really wants it on formulary, they should step up and request it. He said he finds it to be no better clinically than MS contin. It works for some better, but not for others.
PLPMDL080000001	Parma	OH	44129	11/9/1999	having trouble with nausea
PLPMDL080000001	Akron	OH	44203	11/9/1999	dr gordon said he used oxy at UH and barberton, said using the 10mg and 20mg on low back pain and a dislocated shoulder. Likes pure opioid and q12h dosing. he had a back pain patient o the board and he said he was going to use oxycontin on this patient, 10mg tabs 1-2 q12h.
PLPMDL080000001	Cleveland	OH	44106	11/9/1999	Met with Dr. Myer. He said he would use Oxycontin, but only for something like fractures. He is a former orthopedic surgeon. He would not likely use it for other types of pain. Next time, find out what he uses for back pain.
PLPMDL080000001	Akron	OH	44319	11/9/1999	mentioned concern that some patients like the medication, if he tells them to take 1 20mg tabs q12h, they take 2, worried about addiction. Mentioned acute pain is two to three weeks and after that, it is chronic pain. I asked what benefits he sees in oxycontin vs vicodin and really couldn't think of any real advantage, thinks opioids are all problem related. A lot of low back pain. uniphyl, using more for copd and for asthmatics with nocturnal symptoms. 400mg and 600mg. senokot-s for medicated induced constipation.
PLPMDL080000001	Cleveland	OH	44106	11/9/1999	Have lunch for the clinic. Find out how many pain scripts he writes in a typical day. What is he starting pts. on? Dr. said he is having no problems with oxycontin. he said he wrote a lot for one patient, and found out that the patient was selling it. he stopped writing it. he is a little fearful for his license due to the number of narcotics he writes. Discussed documentation as the key. Will keep informed about P&T meeting. he will go.
PLPMDL080000001	Barberton	OH	44203	11/9/1999	he still has not tried oxycontin post op, there is more to it than habit. More potent than vicodin is the real concern, he said he has aknee this thursday, and will use 1-2 20mg q12h.
PLPMDL080000001	Barberton	OH	44203	11/9/1999	took a patient, older woman with a bad back, fearful of becoming addicted, pseudoaddiction. he is worried about the patient getting dependent on the opioid, addiction is a problem. He is still using vicodin first then going to oxycontin. Need to find out what concern is? uni, theos are being held as last resort.
PLPMDL080000001	Barberton	OH	44203	11/9/1999	ask if has used, if noit ask what post op procedure he would use on? thinking more kidney stones, not post op. Had to insert a stint and said would use th 20mg tab q12h.
PLPMDL080000001	Cleveland	OH	44109	11/10/1999	doing studies on theo use in asthmatics
PLPMDL080000001	Cleveland	OH	44106	11/10/1999	Cris is a P.A. in the ER. She was familiar with Oxycontin, and does seem like she would be amenable to using it. She is going on maternity leave any day.
PLPMDL080000001	Akron	OH	44333	11/10/1999	ask him to try the 10mg tabs taking 3 10mg tabs and then backing down. he is going to try this on his shoulder patients, they come back after one week, so hten he can give them more medication. Also was doing a tennis elbow and was only going to give 1-2 10mg.
PLPMDL080000001	Cleveland	OH	44195	11/10/1999	Spoke with Dr. about his Palliative Care idea. Said he wants to speak with people who have done it, and wants our support for clinical studies. Told him I would give him Neil Iricks number. He said he is getting Oxycontin much easier in the hospital now. He said he doesn't deal with bowels. That is Mary's deal. I gave her a laxative protocol. Will follow-up to see how she is using it.
PLPMDL080000001	Cleveland	OH	44106	11/10/1999	John does a lot of the prescribing with Dr. Biscup. He concurs that it is getting easier to use Oxycontin in the hospital.

PLPMDL080000001	Akron	OH	44333	11/10/1999	still using oxycontin q12h and if needs to titrate then goes q8h first, using mainly 10mg and 20mg. Chronic apin, low back, some neuropathic pain.
PLPMDL080000001	Akron	OH	44333	11/10/1999	new patients on oxycontin , Post op? Go over conversion doses between vicodin and vicodin es? HE SAID HE IS USING THE 10MG TABS AND TELLING THEM TO TAKE 1-2 Q8-12H. I mentioned that oxycontin to vicodin is a mg to mg conversion so he needed to use the 20mg tabs 1-2 q12h. He wrote two scripts while there.
PLPMDL080000001	Akron	OH	44333	11/10/1999	seeing alot of nausea, he then gives them compazine and vicodin instead of staying with oxycontin. Using both 10mg and 20mg q12h. Likes q12h dosing and also said might not be the oxycontin could be anything from surgery. going to give compazine with oxycontin post op.
PLPMDL080000001	Akron	OH	44333	11/10/1999	general orthopedic surgery, using 1 20mg tab q12h post op.
PLPMDL080000001	Akron	OH	44333	11/10/1999	go over conversions of oxycontin vs vicodin or vicodin es, make sure using proper dose? he had a patient on 80mg q12h for chronic pain, using more for chronic pain. Post op use, mentioned that after 7 days the patients call back add need more medication. mentioned that he can write the same amount of tablets and get 14 days worth of oxycontin. He said he would use some post op, 1-3 10mg tabs q12h.

PPLPMDL0080000001	Akron	OH	44333	11/12/1999	ask if he has any patients on vicodin now that he would convert to oxycontin? he said he has two patients taking vicodin q6h that he will switch to oxycontin 20mg q12h. both are chronic arthritic back pain..
PPLPMDL0080000001	Akron	OH	44333	11/12/1999	views the use of oxycontin and opioids as means to improve the quality of life, his outlook is that some patients are going to experience some pain and total pain free may not be possible. q12h dosing and improving the quality of life is the biggest issue at hand.
PPLPMDL0080000001	Akron	OH	44333	11/12/1999	oxycontin is more potent than vicodin, and is also concerned about patients taking oxycontin more than q12h. Dosing and conversion is the issue she is not buying into the mg to mg conversion with hydrocodone and
PPLPMDL0080000001	Akron	OH	44333	11/12/1999	using the 20mg tabs q12h and supplementing either oxy or ibuprofen every 6 hours. Reason he would switch is side effects, then goes to darvocet. Nausea and itching has been the main complaints.

PPLPMDL0080000001	Barberton	OH	44203	11/18/1999	give her more titration guides. talked about a patient that is on 40mg of oxycontin q12h and on a 75 mcg patch and worked the conversion to be 2 40mg tabs q12h to start for pain control, keeping it simple with the 10mg to 25mcg rule and the ease of titration, she has a couple other patients on both that she is going to convert to only oxycontin.
PPLPMDL0080000001	Barberton	OH	44203	11/19/1999	using uni for dyspnea, likes no generic and qd dosing.
PPLPMDL0080000001	Mayfield Hts	OH	44124	11/18/1999	Discussed titrating dose in ORS cases rather than the usual 20mg Oxy w/ IR for breakthrough. He said they were beginning to do that.
PPLPMDL0080000001	Euclid	OH	44132	11/18/1999	Told me about specific patients. One on 80 mg q12h and another on 20mg q12h for OA. Is really seeing the difference Oxy can make. Is still reluctant to use in younger people. Gets a pain mgmt consult to cover himself.
PPLPMDL0080000001	Barberton	OH	44203	11/18/1999	Dropped off Senekot protocols and opioid booklets for his office on Friday.
PPLPMDL0080000001	Barberton	OH	44203	11/18/1999	still using medications across the board, she says she starts most patients on oxycontin, but is using alot of morphine and the patch, the reasoning for the patch she says is compliance because using alot of 80mg tabs q12h and also the cost of oxycontin vs the patch at higher doses. there is some other underlying problem, but need to uncover because cost????
PPLPMDL0080000001	Euclid	OH	44119	11/18/1999	Gave an excellent talk on chronic pain management. Hit on all principles we try to cover. Only discrepancy was he said dosing could be q8-12h. Willing to speak but cannot go to train the trainer because of Sabbath on
PPLPMDL0080000001	Barberton	OH	44203	11/18/1999	getting back from vacation, ask what new surgeries he will try oxycontin on? still reserving oxycontin for more severe cases, he said he is testing by trying oxycontin on most difficult pain patients, using mainly 20mg q12h for them. No specific surgeries, that he mentioned. He said he had a hernia case that he would use on.

PLPMDL0080000001	Independence	OH	44131	11/19/1999	titration guide went over the dosing in the pi and in the back pain article.he is going to higher doses but he takes his time.he gets very philosophical when using and addictin is still a barrier
	Independence	OH	44131	11/19/1999	specific case to figure why he swithces instead of titrating he feels that oxy is not a strong opioid and when the low doses do not work he switches at nurses urging.on the other end they will use a 10 mg tab let and expect to take all pain away so not sure if this is a strong vs weak or a strong that can not be titrated.receptionist is having difficulty and they believe it to be the beginning of ca.10mg dose of oxy.constipation is being dealt with but very little pain management was done for her.hesitant to take another tablet.we talked about titrating and helping her
PLPMDL0080000001	Richmond Hts.	OH	44143	11/19/1999	Said he has used more OxylR. Continue discuss patients and titration.
PLPMDL0080000001	Westlake	OH	44145	11/19/1999	He said he has nevered beened detailed on OxyContin. He said he sees the advantages over Percocet and Vicodin and he will try it on a back patient. 10mg 1-3 q12h
PLPMDL0080000001	Lakewood	OH	44107	11/19/1999	He has a patient on 200mg of Demerol per day that he wants to switch to something else because he doesn't want him on it for a long period of time. He was considering Kadian because the Kadian rep has been aggressive. He tried OxyContin 40mg q12h but it didn't work. We went through the conversions and he was underdosing. He will experiment between 60 - 80mg q12h of OxyContin.
PLPMDL0080000001	Middleburg Hts.	OH	44130	11/19/1999	he is being hesitant because of calling in meds and it gets the patient out of his hair.talked about giving 12 hour out of your hair care.
PLPMDL0080000001	Rocky River	OH	44116	11/19/1999	He said he uses Duragesic for those who can't swallow or can't take oral meds which he said is his first way to go. He said he didn't know that OxyContin could be used acute, for those acute cancer pains he's been using T3. I showed him the conversion to show him how OxyContin can be the one to start with. He brought up a patient that said only Percocet works for here about 12 per day. He said he is afraid that she may be taking advantage of her. He said he will offer her OxyContin around 30 - 40 mg q12 h next time as he pulled her chart and will tell her to take it or leave it.
PLPMDL0080000001	Middleburg He	OH	44130	11/19/1999	pi equiv and dosing compared to vic and talked about safety and 12 hour duration.he is getting good results but goes back to calling in meds
PLPMDL0080000001	Cleveland	OH	44195	11/22/1999	Dr. likes and uses Oxycontin, but says it is hard to get at the Clinic due to the fact that it is not on formulary. He said he has to hassle with the pharmacists about using it. I asked him to continue to do that, as the more people that ask for it, the more likely they are to put it on formulary.
PLPMDL0080000001	Cleveland	OH	44195	11/22/1999	Dr. attended lunch for residents. She listened to talk on Oxycontin. Went over benefits of Oxycontin over Percocet.

PLPMDL0080000001	Lyndhurst	OH	44124	11/22/1999	Uniphyl is his favorite. Has forgotten it. Weekly calls to continue reminding him.
PLPMDL0080000001	Akron	OH	44333	11/22/1999	oxycotin is being used for more chronic apin and vicodin for acute pain. uniphyl, if all else fails. senokot-s, will be recommended.
	Parma Hts.	OH	441303030	11/22/1999	he is using opioids for several different disease states but does not like the addition principles.went over oxy and safety and labeling changes and talked about the difference between a pain patient and a seeker.uses quite a bit of darv and talked about using oxy in conjunction with most stuff add on valu with uni and when and where to use he is old scholl when it comes to theoph but will use singular first.
PLPMDL0080000001	Westlake	OH	44145	11/22/1999	go over Palladone show how it is easier to take than Duragesic. He is still using Vicodin for breakthrough
PLPMDL0080000001	Akron	OH	44333	11/22/1999	using alot more, as long as it controls the pain he will use it, side effects have been a concern, itching and nausea. I went over side effects and they will disipate over time. Use adjuvant medications for the first dya or two and then the patient will be fine.
PLPMDL0080000001	Cleveland	OH	44195	11/22/1999	Dr. was familiar with Oxycotin, but had an arrogant attitude. He was asking everyone else if they were using the medication. Need to find out what his perception is of Oxycontin.

PLPMDL0080000001	Cleveland	OH	44195	11/22/1999	Dr. is pediatric orthopedic surgeon, but is the new head of the residency program.
PLPMDL0080000001	Akron	OH	44333	11/22/1999	why patients still on short acting and not oxycotin? I used the APAP ceiling chart and showed him th enumber of tablets that the patients are limited to. He said he has some patients that are exceeding the limit with the short acting opioids, and he said he would switch these patients to oxycotin.
PLPMDL0080000001	Independence	OH	44131	11/22/1999	followed up from the football game and that is just what he needs.he said that he would take care of using more oxy and uni insted of th24.will need to do more stuff that stands out for him.
PLPMDL0080000001	Mogadore	OH	44260	11/22/1999	oxy vs duragesic, pushed to hard, got defensive. keep telling him how great he looks!!!!
PLPMDL0080000001	Akron	OH	44333	11/22/1999	still using more vicodin for acute pain and oxycotin for chronic pain. Difference in acute and chronic? why? uni, for COPD patients with nocturnal problems.
PLPMDL0080000001	Cleveland	OH	44111	11/22/1999	asked if he had any pats on high dose oy teased me and said only 10 20's
PLPMDL0080000001	Akron	OH	44333	11/22/1999	what he feels is difference between oxycotin and vicodin? what type of patients? uni, what benefits vs theo 24? vicodin for acute pain and oxycotin for chronic pain. Difference? why? told him no dose dumping with uniphyl, and gives better nocturnal coverage.
PLPMDL0080000001	Tallmadge	OH	44278	11/22/1999	followed with patient he talked about at last lunch, did put on oxy and doing great, expanded to other patient types!

PLPMDL0080000001	Cleveland	OH	44195	11/22/1999	Dr. is using some Oxycontin, but said it is a hassle getting it at the clinic as it is not on formulary.
PLPMDL0080000001	Tallmadge	OH	44278	11/22/1999	less phone calls with oxy, nhbl guidelines and uni delivery system
PLPMDL0080000001	Cleveland	OH	44111	11/22/1999	has used in acute pain ankle fracture
PLPMDL0080000001	Akron	OH	44333	11/22/1999	new patients on oxy? any today? three patients on oxycotin today all chronic low back pain patients. He is using alot of darvocet, vicodin and on occasion I heard a patient getting soma. Using the 20mg tab. He had a patient the came in and needed another oxycotin script after two weeks and said his girlfriend flushed it down the toilet and the pharmacy would not fill it, so Dr told him to take it to another pharmacy.
PLPMDL0080000001	Cleveland	OH	44195	11/22/1999	Need to show Dr. information on using 20mg q12h as starting dose. Will show Ginsberg study. Dr. is still starting pts. on 10mg q12h. This is what he feels comfortable doing, and he is getting what he feels is good results.
PLPMDL0080000001	Akron	OH	44333	11/22/1999	he is still using mainly vicodin, 1-2 tabs q4h post op. I told him he could have the same flexibility with oxycotin on a q12h dosing schedule, using the 20mg tab, having them take 1-2 tabs q12h. He said he has a couple case tommorrow and would try some post op.
PLPMDL0080000001	Cleveland	OH	44195	11/22/1999	Find out what dose he starts his pts. on. Dr. is starting pts. on 10 or 20mg q12h. He said he likes Oxycontin and the concept of using it instead of Percocet makes sense. He said when he uses he gets good results, but sometimes forgets. I going to Seattle to do a fellowship after this year.
PLPMDL0080000001	Akron	OH	44333	11/22/1999	how many vicodin tablets are you writing for post op? How many oxycotin are you writing? 30 tabs. why not oxycotin for these patietns? quick hit dr in office, said using more oxycotin, mainly the 10mg and 20mg tabs. Pts doing well, they are taking q12h.
PLPMDL0080000001	Cleveland	OH	44195	11/22/1999	Will stamp scripts for Dr. Find out what kind of dose he is starting his pts. on. Dr. is still on hand service and not using much Oxycontin. He did put a pt. on medication, and pat. said was not helping. Went up to 40q12h with no relief. Patient liked Percocet. Put pt. back on Percocet.
PLPMDL0080000001	Akron	OH	44333	11/22/1999	using it on more severe pain cases, worried about patients taking it more often than q12h, if not controlling pain, I mentioned oxyir for breakthrough, she felt more comfortable with that but still using vicodin first.
PLPMDL0080000001	Akron	OH	44333	11/22/1999	using the 20mg q12h post op with ibuprofen every 6hrs. When patient get nausea he switches them, so went over side effects and telling him that it will disipate over time, for them to just take an anti emetic.
PLPMDL0080000001	Cleveland	OH	44103	11/23/1999	Went to see Dr. for the second time. He just looked at me and said I know about your products. I asked him if he tried Oxycontin yet. He said no. Reminded of less addictive potential which he said was important to him.
PLPMDL0080000001	Cleveland	OH	44106	11/23/1999	Did pharmacy in-service on Oxycontin. Went very well. Pharmacists were very perceptive. George is worth following up with. He said his thought processes may have changed some as to when to recommend Oxycontin.

PPLPMDL0080000001	Cleveland	OH	44106	12/1/1999	Saw Dr. briefly at the V.A. lunch. We discussed bioavailabilities of oxycodone to MS. He also asked me for an iPAP form for one of his pts. Will get him one.
PPLPMDL0080000001	Cleveland	OH	44106	12/1/1999	Dr. sat and discussed Oxycontin with me for an hour. We discussed formulary issues with the V.A. and how to request Oxycontin even though it is not on formulary. I told Dr. Eicher to start with the patients who are renally impaired and tell the pharmacy that they need Oxycontin as morphine will cause problems. We discussed differences in side effects between MS Contin and Oxycontin and why Oxycodone was a better drug.Will follow-up with him at next lunch to see if he has used any and what problems he may have had in getting it.

PLPMDL0080000001	Cleveland	OH	44106	12/6/1999	Spent a lot of time with Dr. Krupkin discussing Oxycontin. He is using it, but is still rather conservative in when he will use it. He understands the value in it, and is willing to use, but does so cautiously. He can be a big help down the road if we stay on top of him, and keep making him feels better about his using Oxycontin.
PLPMDL0080000001	Akron	OH	44304	12/6/1999	tried to get specific patients, went over converting
PLPMDL0080000001	Akron	OH	44333	12/6/1999	how many vicodin tablets are you writing for post op? How many oxycontin are you writing? 30 tabs. why not oxycontin for these patiets? 30 tabs of vicodin, using for less pain ful cases and if may need a refill. Still perceiving oxycontin and being stronger.
PLPMDL0080000001	Lakewood	OH	44107	12/6/1999	she is using some OxyContin for chronic but more Percocet and Vicodin because she perceives it as stronger. She is now thinking of using it earlier. I went over conversions. Go over conversions again and she where she is with potency. She is using theophylline but a lot of generic and some Uniphyl.
PLPMDL0080000001	Lakewood	OH	44107	12/6/1999	huge Percocet and Vicodin writer. Set up a dinner with him and his wife. He said he has about 10 patients on Oxy now. He said he is using more Uniphyl
PLPMDL0080000001	Cleveland Hts	OH	44118	12/6/1999	Interested in powerpak site. Keep discussing adv of Oxy. Doesn't understand and doesn't stock.
PLPMDL0080000001	Lakewood	OH	44107	12/6/1999	set up inservice , went over dosing. Debbie Hammel was not in so I set up the inservice with Bridget Tyler. Also she said I could bring in bagels for the surgeons.
PLPMDL0080000001	Akron	OH	44333	12/6/1999	falling away from starting alot of patients on theo, using seervent more and other agents, need to reemphasize the benefits of uniphyl.
PLPMDL0080000001	Lakewood	OH	44107	12/6/1999	met with Rita Sebes went over some of the patient handouts that she requested. talked about Obrien's writing habits. talked about handling side effects

PPLPMDL0080000001	Akron	OH	44333	12/6/1999	when does he use bid theo vs uniphyl? starts low doses of theo, BID theos and then titrates up, concerned about giving higher doses of the at one time, so said uses uniphyl on bid basis also.
PPLPMDL0080000001	Lakewood	OH	44107	12/6/1999	talked about using Oxy vs. Percocet or Vicodin. Set up in-service to go over how it should be used. Set it up when Dr. Baij is in

PPLPMDL0080000001	Lakewood	OH	44107	12/6/1999	he said he is using more OxyContin and that he has replaced Percocet with it. Now get his Vicodin business
PPLPMDL0080000001	Akron	OH	44333	12/6/1999	don't switch the patients from oxycontin give them adjuvant medication and the will go away. asked how long a patient could be on oxycontin and I told him as long as they had pain. He is writing the 20mg tab 1-2 q8-12h post op and said working better. talked about anti inflammatory.
PPLPMDL0080000001	Akron	OH	44333	12/6/1999	why is she using vicodin before oxycontin post op? placing oxycontin with percocet and tylox, stronger drugs. Concerned with patients taking more often than 12 hours and then would have to write oxy ir for breakthrough.
PPLPMDL0080000001	Akron	OH	44203	12/6/1999	put a patient on 20mg q12 for chronic arthritic pain. He also had a patient back in the er with knee and leg pain, that was put on vicodin before and he said he would send home with 20mg q12h.
PPLPMDL0080000001	Berea	OH	44017	12/7/1999	talked about safety issues and how oxy can really give him the benefit of treating the pain and minimizing the abuse and recreation.talked about using in conjunction with other meds.feels that oxy is stronger than cod and hydroc.went over potency and cleared that up.multiple dosing and how to match to specific pain need

PPLPMDL0080000001	Lakewood	OH	44107	12/7/1999	he's using it for total knees and fractures. he is also using Darvacet 1-3 q 4-6. so I made the conversions of Oxy and talked about why Oxy is a better choice.
PPLPMDL0080000001	Euclid	OH	44119	12/7/1999	Sherri is going to push idea. She believes they do rotten pain mgmt.
PPLPMDL0080000001	Independence	OH	44131	12/7/1999	talked to him about barb.he is not doing her primary treatment but is watching the pain.she has an unknown primary with bone mets.she needs alot of support for taking her meds and using the senokot.he is very hesitant to titrate her medicine and will add on adjuvants quickly.he said that is what hehas always done and it has worked.talked about using a primary drug and giving it a chance to work.
PPLPMDL0080000001	Middleburg Hts.	OH	44130	12/7/1999	dosing and familiarity went over dosing and writing multiple tablets.1to2 or 2-3.and how that can be the whole titration for the post op period.need to find a way to get to him when he is doing surgeries and that they act as a better reminder.
PPLPMDL0080000001	Akron	OH	44333	12/8/1999	made comment it would be nice if oxycontin was a cll like hydrocodone so can call in and perception would be oxycontin being less abuse potential. Still not comfortable with using oxycontin for acute pain, more for chronic pain control, he writes the orders in office pre operatively for all his patients.
PPLPMDL0080000001	Akron	OH	44333	12/8/1999	says starts patients on oxycontin after have been on short acting and going to be a chronic pain condition. He is using the the patch alot though , not sure though where using the patch????
PPLPMDL0080000001	Westlake	OH	44145	12/8/1999	caught him for a quick second in the hallway. he will be a big Palladone XL target because he likes Duragesic with OxyContin to cut down on pills and to have two different entities covering the pain so if one fails then the other should pick up some of the slack.
PPLPMDL0080000001	Cleveland	OH	44106	12/8/1999	Saw Dr. Briefly in the hall. Asked him if he is using any Oxycontin in the ER instead of Percocet. He said he has not seen any used in that capacity. Reminded him of the value of Oxycontin in his pts. over Percocet. He said he knew.
PPLPMDL0080000001	Akron	OH	44333	12/8/1999	He believes in using pain medications to relieve pain, but if the patients are not getting better pain control after around 6 weeks then he will get them off opioids or refer them out. He still uses alot of the patch, says less constipating and 72 hours of pain control
PPLPMDL0080000001	Akron	OH	44333	12/8/1999	addiction is biggest concern, no new patients on oxycontin, staying away from opioid use in chronic setting. uniphyl, using more steroids.
PPLPMDL0080000001	Cleveland	OH	44195	12/8/1999	Met with Sally Verlijounis, R.N. She is Dr. Dreiser's nurse. I gave her a variety of patients education and staff education material on Oxycontin and pain management. Also gave her some Senokot-S samples. She wants more. She is a worth while nurse knowing, and Dr. Dreiser is important.

PPLPMDL0080000001	Middleburg Hts.	OH	44130	12/8/1999	proper dosing
PPLPMDL0080000001	Akron	OH	44333	12/8/1999	talked about a patient with low back pain, he even tried heroin for the pain, and asked me to tell why should use in stead of the patch for low back pain. starting 20mg q12h and will titrate as need. SHowed more consistant pain control over the 12 hours with ease of titration.
PPLPMDL0080000001	Akron	OH	44333	12/8/1999	using oxycontin to get patients off of vicodin and short acting and also for nursing home patients. replacing the patch, easier to titrate, better pain control with less side effects. uniphyl, no new patients, he is going steroid crazy with the COPD patients. senokot-s.
PPLPMDL0080000001	Westlake	OH	44145	12/9/1999	he said he likes Uniphyl and it is his main theophylline. He said to set up a lunch next time in
PPLPMDL0080000001	Akron	OH	44333	12/8/1999	what new patients? He said he is using more, but not specific on the patients he is using?? writing 1-2 20mg q8-12h. I believe he is using for more of the severe pain patients, vicodin still for more routine patients.
PPLPMDL0080000001	Lakewood	OH	44107	12/9/1999	He said he uses theophylline as an add on for COPD. He truly believes in combo therapy. He uses Uniphyl, Unidur, and Theo24. He changes brands if the effectiveness changes before increasing dose. He first goes to Uniphyl or Unidur. I showed our advantages with peaking early morning
PPLPMDL0080000001	Westlake	OH	44145	12/9/1999	great Oxy writer but hard to teach anything new to. He said he also uses some Vicoldin. Go over Palladone XL next time.
PPLPMDL0080000001	Garfield Hts	OH	44125	12/10/1999	copd and add on valu with out increasing the inhalers
PPLPMDL0080000001	Cleveland	OH	44106	12/9/1999	Spoke with Dr. in the hall. He told me that he was going to physicians offices to teach them proper pain management. He is doing this a part of a study. He said this is something we might be interested in. He is not a large user of opioids.
PPLPMDL0080000001	Lakewood	OH	44107	12/9/1999	he is a huge OxyContin writer but is still writing a large amount of Vicodin. Ask for that business
PPLPMDL0080000001	Cleveland	OH	44106	12/9/1999	Saw Dr. Driscoll at a dinner meeting. We discussed Oxycontin again. She still says she likes MS Contin. Need to find out specifically what problems she has had with Oxycontin.
PPLPMDL0080000001	South Euclid	OH	44121	12/9/1999	Saves Oxy for problem pts.
PPLPMDL0080000001	Euclid	OH	44119	12/10/1999	Nursing pain mgmt in-service to discuss pain mgmt. Turned into review of pts. Excellent info time!!
PPLPMDL0080000001	S. Euclid	OH	44118	12/9/1999	Has used some Oxy. Doesn't like methadone post-op. Believes nausea incidence is high.
PPLPMDL0080000001	Cleveland	OH	44106	12/9/1999	Saw Dr. Chelmsky.
PPLPMDL0080000001	Akron	OH	44314	12/9/1999	dr richmond is starting a palliative care program at barberton citizens hospital at the beginning of next year. Interest is with family care physicians not having to send their patients out to pain clinics , yet still being able to take control of with a second opinion. Mentioned a patient taking 40mg in am and only 20mg in pm for arthritis, patient is heavy and around 62 years of age. usinf oxycontin after short acting and stable dose is found.
PPLPMDL0080000001	Akron	OH	44312	12/9/1999	gave indication that was using less theo's, but said using uniphyl for COPD patients. mentioned using oxycontin for nursing home patients, but vicodin and short acting for acute care patients in office. senokot-s poopoo kits.

PLPMDL0800000001	Barberton	OH	44203	12/9/1999	nurses name from family practice and oxycontin titration principles. sating patients on oxycontin but still is using the patch alot, says only when patients have gastric problems, but titrating is also an issue.
PLPMDL0800000001	Euclid	OH	44119	12/10/1999	Discussed where he uses Oxy. Remind him of IR and FAST.
	Maple Heights	OH	44137	12/10/1999	need to get more info on how and what he does.acute vs chronic talked alot about chronic vs acute and benefits of oxy in both settings.generics vs brand and safety changes and how oxy can be added on and in what settings.got him to open up about uni.he is adding it on to the inhalers and is still a big proponent of the add on thereapy.tlaked about using in the elderly and not increasing the inhalers
PLPMDL0800000001	Independence	OH	44131	12/10/1999	getting him to different programs helps with his amiability and his writing
PLPMDL0800000001	Parma	OH	44129	12/10/1999	tried to find what role he has in the indep pain office and most of his stuff is coming from the hospital
PLPMDL0800000001	Cleveland	OH	44106	12/10/1999	Did lunch for the IM residents. Got to speak with them individually about Oxycontin, although it is quick as they are getting ready for lecture.
PLPMDL0800000001	Maple Heights	OH	44137	12/10/1999	went over acute vs chronic adn how to use instead of vic in that acute setting.established chronic drug of choice and usually converts when patients are getting refills of combo's.talked about how to use in that acute setting and how to write in multiple tablets because he feels that sometimes he is giving too much when he uses a 20mg tablet/
PLPMDL0800000001	Cleveland	OH	44106	12/13/1999	Tried to follow-up with Dr. Dowlati on his indigent pt, but he was not in. Spoke with Mary, but she was not sure what he did with it. She put it in his mailbox.
PLPMDL0800000001	Garfield Hts	OH	44125	12/10/1999	placing oxy is important.he needs to be reminded what type of patients that oxy should be used on.getting established with chronic but need to work on the more acute setting
PLPMDL0800000001	Independence	OH	44131	12/10/1999	titration, titration, titration.getting him to write in multiple tablets should be a help.instead of writing one 20 mg, write it 10 and give it 1-2
PLPMDL0800000001	Cleveland	OH	44117	12/10/1999	Discussed specific pt w/ CA titrated her dose. He also added Duragesic after the discussion. Need to figure out a tactful way to keep him w/ one product.
PLPMDL0800000001	Lakewood	OH	44107	12/13/1999	lunch He said he puts about a third of his post ops on OxyContin. Vicodin is his other one he uses.
PLPMDL0800000001	Akron	OH	44333	12/13/1999	using mainly BID theo's starting with 50mg and thitrating to need, hard to get alot of info and why using BID theo's vs uniphyl.
	Unlontown	OH	44685	12/13/1999	said that it is hard to switch patients over from vicodin and percocet, the patients do not or say that oxycontin does not work. She said they only get on script, concern about abuse? Alot of patiena are on at least 4 percocet a day??? Using more accolate than theo, but some uniphyl for chronic COPD patients. senokot-s.
PLPMDL0800000001	Unlontown	OH	44685	12/13/1999	no patients for oxycontin, thinking more for cancer pain and more severe chronic pain, but she has written vicodin a few times. uniphyl, not using alot of theo's no new patients, using accolate too.
PLPMDL0800000001	Akron	OH	44319	12/13/1999	how many vicodin do you allow the patients to take before switching to oxycontin? 4-6 vicodin tablets, allows before switching to oxycontin.
PLPMDL0800000001	Lakewood	OH	44107	12/13/1999	he said he will have to remember to use more OxyContininstead of Percocet. Went over dosing. Set up dinner next time
PLPMDL0800000001	Cleveland	OH	44106	12/13/1999	Went to see Ann Breen to discuss alternative speaker program. She was not in the office.
PLPMDL0800000001	Akron	OH	44319	12/13/1999	poop kits.
PLPMDL0800000001	Fairlawn	OH	44333	12/13/1999	poop kits.
PLPMDL0800000001	Lakewood	OH	44107	12/13/1999	Talked through the window, he said he has a new CA patient he will put on OxyContin this afternoon. She was taking Vicodin and she complained that it doesn't work well.
PLPMDL0800000001	Unlontown	OH	44685	12/13/1999	what is oxycontin? abuse is issue? go over all opiods and what is in it. oxycodone is the same as percocet and percodan. Hydrocodone is in vicodin and asked what kind of codeine is in tylenol with codeine? thinks oxycodone in percocet is more addicting than hydrocodone in vicodin.
PLPMDL0800000001	Lakewood	OH	44107	12/13/1999	lunch. He stopped in for a minute but did not eat. He said he noticed some of his partners using more OxyContin and he has decided to use it earlier as well. He has a patient he will see later today that he will put on Oxy
PLPMDL0800000001	Akron	OH	44312	12/13/1999	afraid of going higher than 200mg qd dosing, said no need to use the 400mg patients do not need that much, will see side effects with higher doses.
PLPMDL0800000001	Lakewood	OH	44107	12/13/1999	he used OxyContin on a patient last week after we discussed OxyContin and they did fine. He has another one this afternoon he will put on Oxy after a procedure
PLPMDL0800000001	Lakewood	OH	44107	12/13/1999	lunch. He said it will take a lot for him to change his Vicodin habits but he did say that he uses OxyContin on certain patients that he feels will have a low threshold of pain.
PLPMDL0800000001	Akron	OH	44333	12/13/1999	using uniphyl for nocturnal problems and getting to use whenever he needs a theo, showed MAN reprint to show no difference in the day vs BID theo's and better pulm coverage in the early morning.
PLPMDL0800000001	Lakewood	OH	44107	12/13/1999	he said again that he prefers OxyContin over Percocet. So then I mentioned what about Vicodin he was a little surprised that OxyContin is outselling Vicodin. He said he will use even more Oxy
PLPMDL0800000001	Akron	OH	44319	12/13/1999	startedanother patient on oxycontin 10mg tab q12h, for acute low back pain. uniphyl, said has some patients on seerevnt still that are having nocturnal problems.
PLPMDL0800000001	Akron	OH	44333	12/13/1999	using the 10mg and 20mg tabs q12h for cancer pain.
PLPMDL0800000001	Akron	OH	44333	12/14/1999	his staple is still darvocet and vicodin, but once again I asked him to replace all vicodin scripts with oxycontin ones. He said he would. Lack of peaks and troughs with q12h dosing.
PLPMDL0800000001	Cuyahoga Falls	OH	44223	12/14/1999	talked about how to use instead of vic.he likes the fact that he can call it in.talked about safety and labeling changes
PLPMDL0800000001	Euclid	OH	44132	12/14/1999	Liked pt info materials. Giving pts tear off sheets. Still wants pain mgmt consult to treat chronic pain.
	Cuyahoga Falls	OH	44223	12/14/1999	because it works is how he answers most questions.10 day limited indication is not a factor.does try oxy first for any chronic established pain syndromes.he uses the phrase long acting so there may be duragesic and other morphines mixed in
PLPMDL0800000001	Barberton	OH	44203	12/14/1999	how many patients are NPO? for the patch? quick hit her at the window and talked more about the palliative care team. Starting patients on oxycontin first. Did not get the answer of the number of NPO patients. Higher doses is where she is wavering with oxycontin, to either morphine or the patch?
PLPMDL0800000001	Euclid	OH	44119	12/14/1999	Keeps forgetting. Nurse is a big advocate of Oxy. Stamped 3 scripts.
PLPMDL0800000001	Euclid	OH	44119	12/14/1999	Discussed start with/stay with. Helping me to target physicians in Euclid.
PLPMDL0800000001	Brookpark	OH	44142	12/14/1999	need to find out how many rx's he or connie write and maybe they are just being credited to med onc
	Barberton	OH	44203	12/14/1999	Oxycontin is the only prescription that his patients lose or misplace, he asked how much it is being sold on the street. He considers himself very conservative with narcotics, and starts with tylenol then goes to ultram then vicodin and finally oxycontin. Abuse is the biggest concern and he says he sees the most with oxycontin vs vicodin???? not using any theo on new patients. senokot-s.
PLPMDL0800000001	Barberton	OH	44203	12/14/1999	has used on hernia patients that are whiny and say that percocet will not hold them, perception is that oxycontin is stronger than both percocet and vicodin. Reserving for more severe pain. Only thinking for hernia patients.
PLPMDL0800000001	Barberton	OH	44203	12/14/1999	saw him in doctor's lounge he said using more oxycontin, but after vicodiprofen, confusing reasoning, likes the anti inflammatory in vicoprofen, but in his first step of starting them on vioxx, the already have an antiinflammatory, and when uses oxycontin he adds on vioxx.
PLPMDL0800000001	Barberton	OH	44203	12/14/1999	poop kits and oxycontin 80mg.
PLPMDL0800000001	Barberton	OH	44203	12/14/1999	poop kits and did snokot-s inservice.
PLPMDL0800000001	Garfield	OH	44125	12/14/1999	spreicific patients that are getting refills for vic he is not doing alot with vico profen and we talked about the limited indication.brand vs generics and labeling changes
PLPMDL0800000001	Euclid	OH	44132	12/14/1999	Uni samples have not arrived yet. Wanted me to go over Oxy dosing again. Sent easy dose letter.
PLPMDL0800000001	Middleburg He	OH	44130	12/14/1999	acl data and benefits to using even in the short term.multiple tablet dosing to get dame flexibility as vic.his major objection is the c2 vs c3 and calling in hte med
PLPMDL0800000001	Cleveland	OH	44132	12/14/1999	Cancelled lunch. Won't reschedule. Appears to be maxed on Oxy. Remind him of IR and FAST.
PLPMDL0800000001	Beachwood	OH	44122	12/14/1999	QUIKE HIT ON OXYFAST SAYS HE'S FAMILAR BRING BAGELS AND FOLLW UP ON;quick hit on oxy may get him preprinted rx pads
PLPMDL0800000001	Euclid	OH	44119	12/14/1999	Nausea with trial use. Cannot pin point why. Nurse wants him to try. Working on way to get him to try again.
PLPMDL0800000001	Richmond Hts.	OH	44143	12/14/1999	Saw Oxy IR script going out. Try to increase use.
PLPMDL0800000001	Cuyahoga Falls	OH	44221	12/14/1999	add on therapy in oa and ra.when to add on uni
	Independence	OH	44131	12/14/1999	talked about a bone met patient but he is only on 20mg q12.talked about adding on adjuvants and titrating.avg dosing in the pi and how that 20 is really a low dose.relatively young man and he insists on working.can use this as a good case for titration and instruction
PLPMDL0800000001	Middleburg Hts	OH	44130	12/14/1999	talked about se and matabolites with morphine but he see oxy as not being a strong opioid and will not go high enough with the dosing.a typical patient may be on 20mg and then switched or another opioid added.went over average dosing in the pi and how to titrate.his perception is that oxy does not work.uses relatively low doses of morphi
PLPMDL0800000001	Barberton	OH	44203	12/14/1999	concerns with using oxycontin inplace of vicodin? just as flexible, but on a q12h schedule? ease of use, he had 4 hernia cases today and said he would try oxycontin, but post op orders and thinking easier than oxycontin
PLPMDL0800000001	Akron	OH	44320	12/14/1999	q12h. Simple and more familiar with 1-2 tabs q4-6h.
PLPMDL0800000001					tylox is still the drug that is being administered immediately post op at the hospital, but he said he sends them home with oxycontin 1-2 20mg tabs q12h, phenergan for nausea. Using chronically and told him can be on oxycontin for rest of life and no limit on dose that can be used.
PLPMDL0800000001	Solon	OH	44139	12/16/1999	talked about using before singular.more function and less cost.when and where to add on
PLPMDL0800000001	Akron	OH	44203	12/14/1999	had a kidney stone and knee pain patient on the board, I asked if oxycontin was an option and he said he would write oxycontin 1-2 10mg tabs q12h.
PLPMDL0800000001	Barberton	OH	44203	12/14/1999	what cases she thinks have severe pain post op and what has moderate? when oxyconti vs vicodin is used? had a post op breast cancer patient that is in hospital on a PCA, but going to send home with oxycontin 1-2 10mg tabs q12h. She said using 50-50 of vicodin vs oxycontin, I asked what distinguished using one from the other and she said that some patients just want to take 2 tabs q4-6h for pain control. Thinking use of vicodin is more simple than oxycontin.
PLPMDL0800000001	Cleveland	OH	44124	12/15/1999	Wanted Oxy FAST samples for facial reconstructive procedures. Nicki is contact to scedule time to further discuss using Oxy post-op.

PLPMDL0800000001	Parma	OH	44134	12/15/1999	kirsten and get a specific patient
PLPMDL0800000001	Cleveland	OH	44106	12/15/1999	Lunch for oncology office.
PLPMDL0800000001	North Olmsted	OH	44070	12/16/1999	he said he uses Uniphyl but he is really writing for generic. Continue to show him our advantages over the unpredictable generic
PLPMDL0800000001	Westlake	OH	44145	12/16/1999	He said he is sold on Uniphyl and it is all he'll use. He likes once a day and he was sold on the idea of peaking at night.
PLPMDL0800000001	Parma	OH	44129	12/15/1999	dosing and how to let patient be a part of treatment
PLPMDL0800000001	Richmond Hts	OH	44143	12/15/1999	Discuss availability of IR and FAST. What is the highest dose you currently have a patient on?
PLPMDL0800000001	Cleveland	OH	44106	12/15/1999	Call not much better than last call. He said he is using it. His nurse confirms this. He did not give me much information other than this. It was a very quick call.
PLPMDL0800000001	Westlake	OH	44145	12/16/1999	he said he likes to use OxyContin for his nursing home patients. We talked about using it instead of Vicodin for his practice. We went over the delivery and how we can minimize peaks and valleys
PLPMDL0800000001	Olmsted Falls	OH	44138	12/16/1999	he said he is starting to experiment using Oxy for acute as well as chronic. He is also using Uniphyl more as an add on
PLPMDL0800000001	Olmsted Falls	OH	44138	12/16/1999	he is starting to use Uniphyl but he is treating less pain and referring more out

PPLPMDL0080000001	Cleveland	OH	44106	12/16/1999	Met Dr. for the first time. He said he is getting good results with Oxycontin. He said he can get it at the V.A. with good reasons. He asked differences in Kadian, Oramorph SR and MS Contin. Explained differences, and also benefits of Oxycontin.
PPLPMDL0080000001	Olmstead Falls	OH	44138	12/16/1999	went over using Uniphyl and the added benefits as an add on
PPLPMDL0080000001	N Olmsted	OH	44070	12/16/1999	went over dosing OxyContin and the benefits over short acting
PPLPMDL0080000001	Cleveland	OH	44107	12/16/1999	he said he likes Uniphyl because of once per day and covers nocturnal symptoms
PPLPMDL0080000001	Lakewood	OH	44107	12/16/1999	had a quick minute to introduce myself through the window. He said he will have his staff call me to set up a meeting. He said he is familiar with OxyContin and uses some.
PPLPMDL0080000001	Bedford/Sinai	OH	44146	12/16/1999	how to write fast and how to dose talked a bout how to write breakthrough and when to titrate and dosing
PPLPMDL0080000001	Fairlawn	OH	44333	12/17/1999	mentioned oxycontin use for fractures that he sees, not using it post op, using vicodin post op. why not for surgery?
PPLPMDL0080000001	Westlake	OH	44145	12/17/1999	He said the majority of his patients are on OxyContin with OxyIR for breakthrough. He only has a couple that he has put on the patch wh can not swallow.
PPLPMDL0080000001	Lakewood	OH	44107	12/17/1999	lunch He said OxyContin has been working well and he will even write IR for breakthrough for some of the chronic patients. We talked about using it for acute and not to worry about DEA. He said he is sold on Uniphyl and thats all he'll write
PPLPMDL0080000001	Lakewood	OH	44107	12/17/1999	lunch He said he has mostly been using OxyContin for chronic pain. We talked about using it for acute and comparing vs. Vicodin and he agreed that less pills would be better and less chance for the patient to develop habits
PPLPMDL0080000001	Lakewood	OH	44107	12/20/1999	He said he put a new patient on Uniphyl earlier in the morning
PPLPMDL0080000001	Akron	OH	44333	12/17/1999	working on post op orders for oxycontin, the 3-2-1 rule with the 10mg tabs, going to implement.
PPLPMDL0080000001	Lakewood	OH	44107	12/17/1999	we talked about using OxyContin for acute pain and the benefits over short acting
PPLPMDL0080000001	Akron	OH	44333	12/17/1999	what new patients will he use oxycontin, and write out post op orders? likes the 3-2-1 10mg dosing post op, but the concern is that patients say that opioids make feel funny, also likes q12h dosing, mentioned his daughter wisdom teeth out and had to take tylenol/codeine q4h and had to get up in middle of night to take meds. had 5 shoulders and was going to try it more.
PPLPMDL0080000001	Akron	OH	44333	12/17/1999	what type of patients? using it for more sever pain patients dosing q8-12h post op. Says patients are not getting pain control and if could give something every 15 minutes he would.
PPLPMDL0080000001	Akron	OH	44333	12/17/1999	using for mor ebone involvement, 1-2 10mg tabs q12h, working well. Vicodin vs oxycontin?? difference??
PPLPMDL0080000001	Lakewood	OH	44107	12/17/1999	quick hit through the window. he likes the 12 hour control for his patients and it has been effective for his difficult patients
PPLPMDL0080000001	Akron	OH	44333	12/17/1999	using 1-2 10mg tabs q12h, and sometimes going to a thirs but doing well and having them take APAP q4-6h. side effects only time goes away from oxycontin, nausea and itching.
PPLPMDL0080000001	Akron	OH	44333	12/17/1999	working with dr to get oxycontin on board for post op pain. Still mainly using 10mg and 20mg, q8-12h.
PPLPMDL0080000001	Lakewood	OH	44107	12/20/1999	he was in a hurry because he was doing a procedure. He said he will take a closer look at OxyContin. He said the concept sounded good but he said I will not lie and give you a commitment right now. He said we'll get together again after the first of the year and talk more extensively
PPLPMDL0080000001	Lakewood	OH	44107	12/20/1999	he is still writing way too much Vicodin. Go harder after that usage.
PPLPMDL0080000001	Lyndhurst	OH	44124	12/20/1999	Using about 60% Oxy/IR. Discussed bringing in pain mgmt speaker 1st quarter 2000.
PPLPMDL0080000001	Akron	OH	44333	12/20/1999	where is he using oxycontin? why waiting until more severe pain.? using oxycontin for patients that need pain contol, or are chronic, giving vicodin if need 1-2 tabs a day or not tking on an around the clock basis. So until taking 4-6 tabs a day then he will put them on oxycontin.
PPLPMDL0080000001	Akron	OH	44333	12/20/1999	still using alot of short acting opioids, percocet and vicodin vs oxycontin. Mentioned that workers comp will only pay for oxycontin so long so he has to give them short acting which is less expensive.

PPLPMDL0080000001	Barberton	OH	44203	1/13/2000	Met with Dr. Lowrie. He is a geriatrician. He said he is using Oxycontin for both malignant and non-malignant pain, however, he will not go to Oxycontin before he tries a short acting opioid. He said that having a long acting product in the body of an elderly person is asking for trouble. Next time, show him the side effect profile of Oxycontin in the elderly iss no different than that of a younger person. I think he is afraid of the exception rather than the rule. He may be hard to convince to use in place of Cllis.
PPLPMDL0080000001	Cuyahoga Falls	OH	44223	1/13/2000	caught dr coming out of first surgical case, said has tried oxycotin but not using on a consistant basis. potency is the issue. Vicodin frsr, said has used oxycotin for his tough cases.

PPLPMDL0080000001	Euclid	OH	44119	1/14/2000	Still says he had too much nausea. Nurses are working on him. Keep trying to hit his hot button.
PPLPMDL0080000001	Akron	OH	44333	1/14/2000	patients are being started on vicodin for more episodic pain and the if taking around the clock, then will convert to oxycotin.
PPLPMDL0080000001	Akron	OH	44319	1/14/2000	what is chronic pain? acute pain is 7-10 days and gives vicodin. For more chronic pain he uses oxycotin. Talked about the cost. Need to find out what he does if pts call back after 10 days of vicodin? uni using for COPD patients after severet.
PPLPMDL0080000001	Cleveland	OH	44117	1/14/2000	Discussed a patient with back pain due to multiple surgeries. Pt on 40mg q8h. Doesn't believe that Oxy lasts 12 hours.
PPLPMDL0080000001	Parma	OH	44129	1/14/2000	trying to get him to extend his patient base for starting oxy more difficult to treat patients are doing well and talked about oa and other minor patients that oxy could be added.talked about using in conjunction with the nsaid
PPLPMDL0080000001	Akron	OH	44333	1/18/2000	still using vicodin as first line. he said he treats mainly spine and back problems. Failed surgery and patients that maybe going to back surgery. oxycotin q12h dosing with less abuse potential.
PPLPMDL0080000001	Northfield	OH	44067	1/18/2000	focused on his vic patients and he is converting a few.finding his hot button to get him to convert more.samples are a help to him so need to get over that and the ability to call in.add on valu with his copd patients
PPLPMDL0080000001	Lakewood	OH	44107	1/18/2000	he is beginning to write some Oxycotin with OxyIR and less Vicodin and Percocet
PPLPMDL0080000001	Rocky River	OH	44116	1/18/2000	he said he is now using Oxycotin in place of many of his patients that would normally be put on Percocet
PPLPMDL0080000001	Westlake	OH	44145	1/18/2000	he said he never considered long acting pain meds for nonmalignont. So I said why not. he said he does have a lot of patients that seem to like Vicodin too much
PPLPMDL0080000001	Solon	OH	44139	1/18/2000	he has significantly more potential.alot of his vic stuff is called in.need to get him over that issue.
PPLPMDL0080000001	Broadview Heights	OH	44147	1/18/2000	Met with Karen Parsons. Karen is the area clinical manager. She is the liaison between the pharmacy and the field, including the long term care facilities and the consultants. Neighbor Care Services about 6000 beds, most of which are long-term care beds. The formulary is dictated by medicaid, but they do have a preferred products list of which Oxycotin is a preferred product. There are 8 consultants in all. They buy their products through Cardinal and purchase through MHA. The consultants meet the Last Thursday of every month. I have scheduled breakfast at the February 24th meeting. We also discussed a speaker program for the D.O.Ns, A.D.O.N.s and other key people on JCAHO and pain management. We are leaning toward a breakfast meeting. Karen will ask her consultants their feelings on best time, and get back with me.
PPLPMDL0080000001	Cleveland	OH	44119	1/18/2000	Met with Cindy Lowe and Cindy Johnson for the hospice rebate materials. Made copies of the invoices and will do them at home. Cindy Lowe said that Roxanne is on Dr. Wellman about switching to Oramorph SR. I will meet with him later today.
PPLPMDL0080000001	Fairlawn	OH	44333	1/18/2000	poop kits.
PPLPMDL0080000001	Broadview Heights	OH	44147	1/18/2000	Met with Karen Parsons. Karen is the area clinical manager. PPLPMDL0080000001	Lakewood	OH	44107	1/18/2000	he said he has now tried Oxycotin and admits that it has worked well but of course those former Vicodin patients that he switched likes the high peak of the Vicodin. He is still a little scared of being watched by DEA for writing scheduled II
PPLPMDL0080000001	Lakewood	OH	44107	1/18/2000	he said he really likes Oxycodone and either uses Oxycotin or Percocet and he is starting to use more Oxycotin
PPLPMDL0080000001	Strongsville	OH	44136	1/18/2000	went over pain management and how oxy fits in.she is not treating alot of pain patients in the new office but she is not that busy either.went over the labeling changes and how she can use in combination with other meds esp nsaid.she has opioid fears and hit on the addiction issues and street value.identified a couple of patients that can be put on oxy and how to dose.add on valu with uni
PPLPMDL0080000001	Cleveland	OH	44119	1/18/2000	Met with Dr. Wellman. He asked ma a lot of questions about Oxycotin, how it works, the delivery system etc. I believe I answered all his questions. he says he is not using Oxycotin as much as some of his fellow physicians, ie. Dr. Thomas. he is using more MS Contin. Next time I meet with him, I will ask him what is keeping him from using more Oxycotin. He did not mention anything concerning Oramorph, and I did not directly bring it up. I got the idea that an Oramorph bashing was not what he wanted to hear. Will continue to follow-up with him on a regular basis.
PPLPMDL0080000001	Westlake	OH	44145	1/18/2000	he mention a couple of patients he has on Oxycotin outside of the nursing home but most of his Oxy patients are in a nursing home
PPLPMDL0080000001	Lakewood	OH	44107	1/18/2000	he said he is using more Oxycotin and less Vicodin. But I know I still have a long way to go and a lot more business to get
PPLPMDL0080000001	Uniontown	OH	44685	1/18/2000	oxycotin is being used after vicodin and she says that she has a lot of vicodin patients. Getting them to convert is tough. Seeing alot of low back pain, i went over study and she said going to convert to 20mg q12h to start. uniphyl for COPD patients that are noncompliant with inhalers.
PPLPMDL0080000001	Lakewood	OH	44107	1/18/2000	lunch He said in addition to his hospice patients he gives Oxycotin for low back pain and fibromialgia. Note his wife just died! Dec. 12
PPLPMDL0080000001	Euclid	OH	44132	1/18/2000	Met with Dr. She said she is using Oxycotin. She immediately began to focus on her hospice pts. in the nursing home. She said that the nurses are giving it sublingual and crushing it. I told her not to do either. I also emphasized using it q12h and not going to q8h when it doesn't work. I then tried to shift her attention to her osteoarthritis patients in the nursing home and using Oxycotin for them. I showed her the studies in the package insert and the graph on the file card showing 20mg q12h for most pts. out to 18 months. She seemed somewhat hesitant, although she said this makes sense. Next time, I will show her the Rothr-Reder study on Opioid use in Osteoarthritis. This will reemphasize the use in osteoarthritis.
PPLPMDL0080000001	Westlake	OH	44145	1/19/2000	Did in-service for the nurses in the home. Was on the basic principles of pain management. Was related mainly to the elderly, and used PF in-service kit on "Chronic Pain Management in the Elderly". Pat Hornbeck is the education coordinator. Mary Carlson is the D.O.N. Mary said she has not had good success with Oxycotin. She said she has had a number of patients on 10mg q12h of Oxycotin that were snowed. When she took them off the Oxycotin, the did much better. Needed to find out more in-depth information from her, but will have to do that on a follow-up visit. Am trying to schedule another in-service on specific analgesic and their uses. The medical director of this facility is Dr. Lorenzo Lalli. This facility has 138 beds, all skilled.
PPLPMDL0080000001	Richmond Hts.	OH	44143	1/18/2000	Dr. normally does not see reps, however he did see me. We talked about pain management in the nursing home setting and how I can help them get up to speed with pain management and JCAHO. Dr. seems to be good with pain management. He seems to believe his pts. He uses Oxycotin for non-malignant pain, and realizes the value of documentation. This Dr. may be a good physician for our speakers bureau. I told him I would continually give him information on pain management to help him improve his pain management. He is not the medical director of any homes, but he admits to at least 7 different homes. He could be a big physician. Next time, bring in cookies for the office. Also bring in the Opioids for Osteoarthritis study for the doctor.
PPLPMDL0080000001	Lakewood	OH	44107	1/20/2000	inservice. floor 4b ask for Judy, hopefully Dr. Baij will be in. Dr. Baij was under dosing Oxycotin we did the conversions and he should be around the 30mg q12 h range instead of 10 or 20 mg for the orthopedic patients
PPLPMDL0080000001	Akron	OH	44320	1/18/2000	using the 20mg 1-2 tabs q12h post op. working on titrating past 80mg q12h for chronic pain.
PPLPMDL0080000001	Mayfield Hts	OH	44124	1/19/2000	Keeps telling me to find his nurse but their schedule changes. Have to set up appt with her. Is this a smoke screen?
PPLPMDL0080000001	Lyndhurst	OH	44124	1/19/2000	Wants Senekot smaples. Not writing many rx for opioids but is using some Oxy.
PPLPMDL0080000001	Bay Village	OH	44140	1/19/2000	Met Jackie. She, along with Denise McNamara are the RN clinical coordinators for the pharmacy. They do the IV therapy as well as provide education for the nursing homes. Jackie gave me some information on a health fair that the pharmacy is having in April. I mentioned us providing a speaker. She like the idea. I will try to meet with the pharmacy in early February to finalize thing. Will try to get Dr. Agneberg.
PPLPMDL0080000001	S. Euclid	OH	44118	1/19/2000	Discussed adv of Oxy over short acting opioids. I don't think he bought it.
PPLPMDL0080000001	South Euclid	OH	44121	1/19/2000	Powerpak. Senekot samples to go into Rx's.
PPLPMDL0080000001	Gates Mills	OH	44040	1/19/2000	Asked what was the highest dose he had anyone on and he said 80mg. He thought that was max dosage.
PPLPMDL0080000001	Mayfield Hts	OH	44124	1/19/2000	Has used some more OxyFast. Hospital pharmacy doesn't want it.

PLPMDL0080000001	Akron	OH	44333	1/20/2000	Did a 1st qtr 1999 hospice rebate. Also spoke with Stacie buying Senokot-S direct, about switching her provider pharmacy from a CVS owned pharmacy to either Hillmed or Hytree. Also spoke with her about in-servicing the nurses to teach them proper pain management to help save them money. She will be speaking with Pat Wakeman, the Executive Director of the hospice. Will get back with me in about a week. The in-pt. hospice is 26 beds. There are also about 80 home pts.
PLPMDL0080000001	Middleburg Hts	OH	44130	1/21/2000	talked about how he is treating the patients he has in hospice.he is using morphine because he is most familiar with it.talked about hte differences between oxy and morphine.less se and easier to tolerate.add on benefits
PLPMDL0080000001	Strongsville	OH	44136	1/21/2000	talked about chronic vs acute and how oxy is more than a drug of last resort.safely in the elderly.went over pharmaco but hesitant because of traditional barriers
PLPMDL0080000001	Richmond Hts	OH	44143	1/21/2000	Find out about specific patient. Ask him to remember IR and FAST.
PLPMDL0080000001	Middleburg Hts	OH	44130	1/21/2000	he is unaware that most of his theoph is generic.talked about the importance of keeping theoph se in check and how generics may not give required clearances.he does alot with the elderly patients and that is where most of his theoph comes in to play.talked about differences between uni and theo dur which is most of his bid which is going to generics.
PLPMDL0080000001	Cleveland	OH	44130	1/21/2000	his pain management ideas sometimes goes in the other direction.hearing dreicer is a help but he does not understand about chronic vs acutelikes and understands oxy but those barriers are there.
PLPMDL0080000001	Cleveland Hts.	OH	44118	1/21/2000	This facility allows reps to visit with physicians as long as we sign in first and get a badge. This facility does about 800 scripts/day. There is oncology, IM, neurology, surgery in this facility. Went to oncology. Made appt. with Ruth Streeter, M.D., an oncologist. Also saw Clive Sinoff, Regional Director of Oncology. See his notes for todays call. Will do lunch for the oncology on February 2. Chief of Pharmacy at this unit is Eric Tawney, R.Ph.
PLPMDL0080000001	Strongsville	OH	44136	1/21/2000	This is one of the smaller pharmacies. They do about 400 scripts/day here. This facility allows reps back to see the physicians after signing in with the pharmacy. There are 4 IM physicians on staff here. I got to see Dr. Li today. See notes on her.
PLPMDL0080000001	Middleburg Hts	OH	44130	1/21/2000	kept message simple.how to use instead of hte combos and in hte post op setting
PLPMDL0080000001	Middleburg Hts	OH	44130	1/21/2000	trying to get past the i use it.trybg to find what kind of patients is not much of a help either.he has traditional opioid fears.even with the labeling changes he still feels that addiction and tolerance are there.
PLPMDL0080000001	Middleburg Hts	OH	44130	1/21/2000	talked about the different form in which he can use and how to use in some of his post op patients.how to make it equivalent to the combos and he also talked about some of the upcoming programs that he is involved.need to come to office in a couple of weeks and get stuff organized and finalized.he said that audrey is trying to get him to write his scripts on hospital pads only
PLPMDL0080000001	Cleveland Hts.	OH	44118	1/21/2000	Spoke with Dr. about getting Oxycontin on formulary. He said some of the formulary decisions are made by the local P&T, and some are made out of California. He said most of the decisions are being made based on the California P&T. He said that if he were asked, he would say they would use it, but we will need to show that it is far superior to Oramorph SR, which is on the formulary, especially if it is more expensive. He gave me the name of JeffWallace,RPh. Dr. said he is Chief of Pharmacy for Kaiser, Ohio. Jeff's phone number is 216-778-6052. Will call him for appt.
PLPMDL0080000001	Strongsville	OH	44136	1/21/2000	he is getting good results when he uses.stopped me to tellme so.calling in the scrpt is a hold up from using more
PLPMDL0080000001	Strongsville	OH	44136	1/21/2000	Spoke with Dr. Li about using a product not on formulary. She said if the product is not on formulary, the pt. will have to pay for the medication, unless other medications have failed and this is the last resort. I discussed a pt. of hers who has a degenerative back and is taking excessive Vicodin. I explained to her the value of trying on Oxycontin. Said start on 20mg q12h. Explained that giving it q12h would provide better pain control. This physician is not a mover and shaker. She will not be much help in getting anything accomplished. She is also pregnant, and in 5 weeks will be out with her baby for 12 weeks after the baby is born.
PLPMDL0080000001	Parma	OH	44130	1/31/2000	Will meet with Laura Wilson with Bernie Katsur to discuss inclusion of Oxycontin to the formulary. Met with Laura Wilson, but not to discuss Oxycontin. Bernie presented a Uniphyl program that we will try to roll out at the different Kaisers. Laura said she is staffed very thin, and does not want to be involved in the program, but will allow us to drive it through the physicians.
PLPMDL0080000001	Lyundhurst	OH	44124	1/31/2000	Quick hit. Benefits v short acting opioids.
PLPMDL0080000001	Westlake	OH	44145	1/31/2000	we talked about the difficulties of using the patch and compared how easy it is to use OxyContin. He agreed and said he reserves the patch for those who can not swallow
PLPMDL0080000001	Westlake	OH	44145	1/31/2000	We compared the smooth delivery of OxyContin vs. the patch and all the variables that can affect the patch and how it makes sense to start with and stay with OxyContin and only use the patch for those who can not swallow
PLPMDL0080000001	Akron	OH	44307	1/31/2000	he is chair of dept. went over chirocaine and got approval to do lunch with the docs and crmas. there are 45! He was interested in chirocaine but not oxy. lunch is in a couple of weeks.2/24
PLPMDL0080000001	Akron	OH	44302	1/31/2000	intro chiro, found out basic info:ration
PLPMDL0080000001	Mayfield Hts	OH	44124	1/31/2000	Quick review of benefits of Oxy. Hasn't used yet. Was honest. He forgets. Get OR times to remind him.
PLPMDL0080000001	Lakewood	OH	44107	1/31/2000	she said she has been getting very good results from OxyContin to her surprise. She said she will continue to use it more often as long as the results remain the same. She said she needed more Uniphyl
PLPMDL0080000001	Mayfield Hts	OH	44124	1/31/2000	Intro to Oxy. Scheduled appt to further discuss benefits over Duragasic and morphine. Uniphyl potential.
PLPMDL0080000001	Mayfield Hts	OH	44124	1/31/2000	Still maintains his patients only need 20mg. Interested in Crystal Clinics post-op protocol. See if he uses it.
PLPMDL0080000001	South Euclid	OH	44121	1/31/2000	Adv of Oxy over short acting opioids. Discussed titration and breakthrough dosing. Stickered Senkot boxes.
PLPMDL0080000001	Lakewood	OH	44107	1/31/2000	he said he has never received a script for OxyIR or Fast and will not carry our breakthrough
PLPMDL0080000001	Mayfield Heights	OH	44124	1/31/2000	Hillcrest OR
PLPMDL0080000001	Cuyahoga Falls	OH	44223	1/31/2000	set up a pivotal program with sal locagnata.6 ortho residents and also invited gs and plastics.North Hill group accounts for about 50% of procedures at the hospital.need to make this a bigger target.Gave ahcpr info to linda in onc dept.need to get another inservice set up for march.
PLPMDL0080000001	Akron	OH	44309	2/1/2000	quickly introduced chirocaine, he asked about cardiac tox and price. Wants me to send information and will decide what he thinks about me presenting to department on a fri morning inservice.
PLPMDL0080000001	Cuyahoga Falls	OH	44223	1/31/2000	having difficulty seeing oxy use for everyday patients.most use is in the nursing home and not in the office but he is starting to spend more time in the office. made a lunch date and called barry for help
PLPMDL0080000001	Lakewood	OH	44107	1/31/2000	he said he uses OxyContin in the nursing home and hospice. He thought Oxy is stronger than Percocet and Vicodin. He said he likes the idea of our smooth delivery system and will start using it in place of Vicodin and Percocet
PLPMDL0080000001	Cuyahoga Falls	OH	44223	1/31/2000	similar to sassano with why he uses vic.call in important but he also sees using vic as easier.misconceptions about oxycodone esp perc.potency vs strong. tried to go over caldwel but he got called away.
PLPMDL0080000001	Cleveland	OH	44124	1/31/2000	Be sure to sample Senekot in mommy paks. Try to conduct in-service and get nurses on board.
PLPMDL0080000001	Cuyahoga Falls	OH	44223	1/31/2000	talked about the caldwell articleand how it is ok to use oxy with nsaid.cited the two groups doing better when pain is treated.still alot of potential with his vic patients.calling in is a big issue
PLPMDL0080000001	Lyndhurst	OH	44124	1/31/2000	Has used post-op and it didn't work. Used 10mg. Discussed titration and safety. Seems uncomfortable but possible.
PLPMDL0080000001	Cuyahoga Falls	OH	44223	2/2/2000	was very busy, have lunch in a couple of weeks, explained a little about chirocaine and that i will be going over it at the lunch.
PLPMDL0080000001	Mayfield Hts	OH	44124	1/31/2000	Discussed appropriate titration of Oxy. Seeing some shortening of dosing interval.
PLPMDL0080000001	Garfield Hts.	OH	44125	2/2/2000	is inter in using chr on interscalene blocks
PLPMDL0080000001	Lakewood	OH	44107	1/31/2000	set up lunch on a day to catch Dr. Bajl (Mon or Fri) Dr. Diab said he really likes OxyContin and wanted a new dosage conversion chart. He said he just put a new rheumatoid arthritic patient on Oxy 10mg q12h this morning
PLPMDL0080000001	Akron	OH	44333	1/31/2000	using oxycontin q12h and telling patients to take a vicodin at the 6th hour to supplement the pain. Using more but for more painful predures that have bone involvement.
PLPMDL0080000001	Cuyahoga Falls	OH	44221	2/1/2000	need to do a good comparison of oxy and vic.find why he is using vic and correlate that to oxy
PLPMDL0080000001	Lakewood	OH	44107	2/2/2000	in-serviced the proper usage of OxyContin post op and went over the patient advantages over short acting.Talked about side effects and proper assessment
PLPMDL0080000001	Akron	OH	44310	2/1/2000	met with Anna secretary of the block center. Went over chirocaine with a nurse
PLPMDL0080000001	Middleburg Hts	OH	44130	2/1/2000	need to get him to talk about specific patients and how he is treating.liquid vs tablets and find if he is using fast.
PLPMDL0080000001	Akron	OH	44310	2/1/2000	got to briefly intro chirocaine, set up lunch!!
PLPMDL0080000001	Akron	OH	44333	2/1/2000	I went over the low back pain study to follow up on his last comment about trating failed backs and pts waiting to go into surgery. Vicodin is a habit and hit q12h dosing vs q4-6h.
PLPMDL0080000001	Westlake	OH	44145	2/2/2000	he said he loves Uniphyl and it is the perfect compliment to inhalers
PLPMDL0080000001	Akron	OH	44133	2/2/2000	he is pretty interesting.he is doing a talk in calif as the pres of national do organization.needs slides and a lot of information.some of the new articles should be a big help.need to keep todd up on what is going on and it may help in their mission office
PLPMDL0080000001	Akron	OH	44133	2/2/2000	he is pretty interesting.he is doing a talk in calif as the pres of national do organization.needs slides and a lot of information.some of the new articles should be a big help.need to keep todd up on what is going on and it may help in their mission office
PLPMDL0080000001	Lakewood	OH	44107	2/2/2000	lunch He said he is using more OxyContin but also uses his share of Vicodin. He said he likes Vicodin for the patient who needs something only for a couple of days prn
PLPMDL0080000001	Garfield Hts.	OH	44125	2/2/2000	very inter in chr thinks it will eventually replace bupi
PLPMDL0080000001	Lakewood	OH	44107	2/2/2000	he was in a hurry in the hallway. He said he has used Oxy before but mostly uses Vicodin. He said he has a patient tomorrow to put on Oxy
PLPMDL0080000001	Cleveland	OH	44109	2/2/2000	thinks chir will too expe for her to fight with pharmacy she's never had any problems with chir but if she did see any she would use chir
PLPMDL0080000001	Lakewood	OH	44107	2/2/2000	she said she has really started writing Uniphyl but just doesn't see many patients for pain. She said she doesn't have a problem with OxyContin and uses it when it is warranted
PLPMDL0080000001	Garfield Heights	OH	44125	2/2/2000	lunch with ans
PLPMDL0080000001	Westlake	OH	44145	2/2/2000	he said he doesn't get a lot of narcotic scripts through their pharmacy. I think Giant Eagle takes a lot of their business. Went of dosing and delivery.
PLPMDL0080000001	Westlake	OH	44145	2/2/2000	Randy carries everything but OxyFast
PLPMDL0080000001	Middleburg Hts	OH	44130	2/2/2000	Went to see kris. she was not in. Dropped of 3rd and 4th quarter hospice rebate checks. Still need to check with Gail to see if the 2nd quarter rebate check has been cashed. Hospice does not have a record of it, but I do.
PLPMDL0080000001	Parma	OH	44129	2/2/2000	met with selewski and went over chiro. approved a lunch for next week with other docs!!

PLPMDL0080000001	Parma	OH	44129	2/2/2000	Met with Dr. Nader. He is the medical director at Parma Care. He is using Oxycontin for his home pts., but not as much for his nursing home pts. I explained my purpose as one of educating the home o n pain management, and I needed him on the same page. He gave me a couple of pts. that are on Oxycontin. I explained that we are looking for pts. who are on around the clock CIIIs, or long term non-steroids. Explained to start at 10q12h and go to 20 if needed. Told him better pain management due to ATC pain control as well as reduced nursing time. He agreed. he said he is meeting with the Administrator of Parma Care today and he will discuss my helping the nursing home. The administrator will call me.

PLPMDL080000001	Barberton	OH	44203	2/3/2000	went into chiro. says didn't use rovip because of cost and wouldn't use this either. says difference isn't enough to justify cost. need to go back with more proof sources on studies.
PLPMDL080000001	Olmsted Falls	OH	44138	2/3/2000	he said he really likes the actions of Uniphyl and writes it almost exclusively. He said he is more comfortable with OxyContin and writing more
PLPMDL080000001	Beachwood	OH	44122	2/3/2000	Met with Dr. briefly. He said he is familiar with Oxycontin, but it is too expensive. He said they use MS Contin at this facility. I told him I could provide him with some literature on pain management. He said he has a bunch on his desk. This is a Dr. that think he knows everything.
PLPMDL080000001	Olmsted Falls	OH	44138	2/3/2000	he said he is writing some OxyContin for acute pain but more so Vicodin for chronic. He said he likes Uniphyl amd thats all the theophylline he uses, but I know he also uses Theodur
PLPMDL080000001	Cleveland	OH	44106	2/3/2000	is inte in chri need to set up appt wait dr hoyt
PLPMDL080000001	Barberton	OH	44203	2/3/2000	ask more tomorrow about procedure he does, where he buys from and if he uses rovip.
PLPMDL080000001	Cleveland	OH	44106	2/3/2000	tring toset up appts with ans did discuss chirocaine with pharm said if boswell wants it and makes a good case for it they will probably get it
PLPMDL080000001	Beachwood	OH	44122	2/3/2000	Spent a lot of time at this home. Met a number of different people. The following are a list of people in the home. Dr. Daniel Kendis, M.D. - Medical Director Denise Trun, R.N. - D.O.N. Mary Bunge, R.N. - Dir. of Education Lois Brodeur, R.N. - A.D.O.N. Ruth Plautz Dir. of Rehab. Richard Schwalberg - Administrator The home will be going through JCAHO in about 1 1/2 yrs. I spoke with the Administrator who is in charge of overseeing JCAHO in the home, and he wants to meet with the committee first and then contact me. Will try to see him again in a m,onth to follow up on whether he had his meeting and how we can help. Will put together a folder of our info.
PLPMDL080000001	Westlake	OH	44145	2/3/2000	stopped in at surgery lounge and went over using OxyContin post op in place of short acting
PLPMDL080000001	Westlake	OH	44145	2/3/2000	went over side effect profile and compared with other opioids. Talked about dosing correctly
PLPMDL080000001	Middleburg Hts.	OH	44130	2/3/2000	they dont have crna's they have 2 a's
PLPMDL080000001	Barberton	OH	44203	2/3/2000	findout who the quality control person for JCAHO. Set up and inservice for the recovery room.
PLPMDL080000001	Barberton	OH	44203	2/3/2000	said using for both acute pain and chronic pain. tried to get a specific patients and would not give it up Said using the patch because it gives more consistant blood levels and pain control. I showed him the path PI and and did not say anything. Has not found the main concern with why not using oxycontin more.
PLPMDL080000001	Akron	OH	44313	2/3/2000	barriers to using opioids showed the aps article and talked about barriers being the biggest reason for lack of pain managemtn.she is hesitant ot use opioids in the acute setting and will use nsalids and ultram.talked about using in conjunction with the nsalids and showed coldwell
PLPMDL080000001	Middleburg Hts	OH	44130	2/3/2000	currently using oxy, chiro interested. says they are using ropi but doesnt think its on formulary. does alot of sympathetic nerve blocks. in office tues and thurs afternoons every other week. other times he does blocks at southwest gen. lebanese guy
PLPMDL080000001	Cleveland	OH	44128	2/3/2000	he is gettign some se of nausea with some of his long term patients.liz is giving axid.patients are doing well otherwise.followed up with patients on theoph having to go to the bathroom at night.he is using duragesic in the nh setting but does not like to but will go with the flow of hte nurses.talked about how precise and easy oxy to rx in that setting
PLPMDL080000001	Beachwood	OH	44122	2/3/2000	Set up in-service for the nurses. See Jenny Hooks. Saw Jenny Hooks. We discussed setting up an in-service for the nurses to discuss proper titration and conversions. Also discussed buying Senokot-S direct. Jenny is interested in doing this. Will order new acct. request forms and get this set up.
PLPMDL080000001	Akron	OH	44333	2/3/2000	still is not using oxycontin for acute pain which is 5-7 days. He uses vicodin. He said it is just the habit and no reason for not using oxycontin for acute pain. Covered quick onset of action and more consistant pain control q12h dosing.
PLPMDL080000001	Barberton	OH	44203	2/3/2000	mentioned using oxycontin in place of morphine because in causes less sedation, better tolerated and less constipation. Is adding on the patch to oxycontin to better control the pain and minimize the side effects. Has a patient for sickle cell on 780mg tabs q12h 20mg dilaudid for breakthrough. Nurses said treating alot of patients after cnacer they treat her like their family doctor.
PLPMDL080000001	Akron	OH	44333	2/3/2000	using vicodin for patients that need an opioid for 5-7 days. oxycontin for more chronic pain. highest dose has patietns on 80mg q12h. uniphyl, said coming back and using mainly for COPD.
PLPMDL080000001	Akron	OH	44333	2/4/2000	concern was that he writes all his scripts before the surgery and most are vicodin, but he is concerned that patients can't get a refill with oxycontin. Apparently most of his vicodin patients are calling back for refills. I mentioned the 12 hours of coverage with less peaks and troughs, better sleep patterns and less breakthrough pain. He also said that patients do not get the buzz with oxycontin and state that is does not work. i emphasized that is the benefits and he said he would use more post op 1-2 20mg tabs q12h.
PLPMDL080000001	Fairlawn	OH	44333	2/4/2000	he said using for more of his chronic pain patietns that are not successful after surgery or are not surgery candidates. Oxycontin, not sold is for acute pain.
PLPMDL080000001	Westlake	OH	44145	2/4/2000	Get her patch business. What is it going for. She said she has been wriing the strongs(OxyContin and Duragesic) for CA. Go over dosing again
PLPMDL080000001	Akron	OH	44333	2/4/2000	dr is still using alot of the patch, he says side effects are less with the patch, and said constipation. He is comparing this all to morphine, thinking that oxycontin has the same profile as ms contin. More stable pain control with consistant analgesia for the 72 hours, which better controls the more severe pain. Tolerance is also an issue where side effects may develop and pain seems like it is more difficult to control with oxycontin.
PLPMDL080000001	Akron	OH	44333	2/4/2000	thinks using alot, and for chronic pain he said he is using short CTING FOR BREAKTHROOUGH AND FOR PTS NO LONGER PAYING by workers comp. not thought process behind what is using.
PLPMDL080000001	Akron	OH	44333	2/4/2000	oxycontin is placed for patietns that have been on short acting opioids for 7-10 days and need to continue on opioids to control the pain. uniphyl, theo is being placed after serevent for COPD patietns.
PLPMDL080000001	Lakewood	OH	44107	2/4/2000	met with Dr. Reynolds and Mary Ellen to bring in Dr. Neil krick
PLPMDL080000001	Lakewood	OH	44107	2/4/2000	talked about recommending Senokot with all opioid scripts. Talked about how to dose breakthrough
PLPMDL080000001	Westlake	OH	44145	2/4/2000	went over the advantages of Oxy over short acting and talked about how the abuse potential is less
PLPMDL080000001	Fairlawn	OH	44333	2/4/2000	working with andy to get alot of the percocet business form dr lefkowitz.
PLPMDL080000001	Akron	OH	44333	2/4/2000	not seeing oxycontin as an acute pain product and also said it is expensive to use in place of generic percocet and vicodin.
PLPMDL080000001	Akron	OH	44320	2/4/2000	There are 5 IM physicians at this facility. I met with the Pat Stierl, P.A. She set up lunches for the facilities. I set up a lunch for February 23 for this facility. I can also set up a lunch on a day when both this facility and Fairlawn facility meet. Will also set up a speaker program.
PLPMDL080000001	Akron	OH	44333	2/4/2000	surgical area and physical med office.
PLPMDL080000001	Akron	OH	44333	2/4/2000	Met with the team leaders of the two teams. They are Linda Sparling, RN and Loretta Aller, R.N. Discussed ways in which we can work together to improve pain management in their hospice. They agree they are using too much Duragesic. We discussed buying SKT-S direct. They were a little hesitant as they feel that they cannot give out meds. I asked if I can set up an in-service for the nurses. They said they will brain storm some more, and get back with me. They do not want me saying anything different than what they have taught their nurses, or what their pain management expert tells them. I also discussed using a local CPP. They said they were beginning to work the bugs out of their CVS contract.
PLPMDL080000001	Akron	OH	44333	2/4/2000	using alot more in the nursing home patients, patietns that have had hip surgery and need pain medication back at the home. He said using oxycontin inplace of vicodin and the patch. COPD, using uniphyl 400mg, but going to theo after steroids. senokot and senokot-s for constipation.
PLPMDL080000001	Westlake	OH	44145	2/4/2000	he is using more OxyContin than ever because he is using some acute. he said he will also try to remember Senokot
PLPMDL080000001	Westlake	OH	44145	2/4/2000	She is using some MS Contin and Percocet. Sell against those next time. Find out what she is writing pain for. She said she likes OxyContin for severe chronic pain when they are in constant agony
PLPMDL080000001	Lakewood	OH	44107	2/4/2000	he stoppped in the luncheon quickly. he said he has not tried OxyContin yet since our last meeting but promised to give it a shot this afternoon
PLPMDL080000001	Mayfield Hts	OH	44124	2/4/2000	Bring in OA study and find out when he switches from short to long actings.
PLPMDL080000001	Akron	OH	44333	2/4/2000	ask if calling because of a lack of pain control or confused how to take. Ask what most con-mfortable way to give oxy. 2-3 10mg tabs q12h. He now says he is starting them out with 3 10mg tabs and then backing off to 2 or 1. Has two more shoulder scopes and said will use oxycontin. He administered the pain buster to a shoulder this morning.
PLPMDL080000001	Akron	OH	44333	2/4/2000	patients are not getting the buzz and saying that oxycontin is not working, but I found out that the patients he is trying are not getting pain control from the vicodin, they want it chronically and want the buzz pain control is not the issue for these patients. Use the 20mg tabs and tell them to take 1-2 q12h to start.
PLPMDL080000001	Westlake	OH	44145	2/4/2000	lunch? if not just bring pizza. Call to confirm great call he likes Vicoprophen. It works and is predictable. Went over our advantages of 12 hour control which was the biggest point he liked. He said the 1 thing with Vic is that it can run down by middle of the night. Ane the 12 hour control of Oxy would take care of that problem. He didn't know if it was stronge enough to handle his most painful tooth procedures. We did the conversions and he is excited to use it today. He entered it into his computer system and wants me to come back next week to check how it is working and if any other questions. He is very interested in OxyFast get a rundown of who carries it
PLPMDL080000001	Lakewood	OH	44107	2/4/2000	breakfast. he is writing a lot more OxyContin as he is getting more comfortable with it. The one area that he was hesitant with is for hernia operations. He didn't know if our slow smooth sustained release would be enough to handle that pain. We talked about dosing and that he may want to increase from his normal 20mg to 30 or 40mg q12h for those patients. He said he really likes OxyContin and it is now his favorite and most used passing up Percocet
PLPMDL080000001	Akron	OH	44333	2/4/2000	where still using vicodin? said using oxycontin and APAP every 4 hours post op. He is using 1-3 10mg tabs q12h. Asked what if pain at the 6th hour can they take another 10mg tabs. Then at the next interval which is 12 hours from initially taking oxycontin they should add 1 10mg tab to the number of tablets that they took.
PLPMDL080000001	Cleveland Hts.	OH	44118	2/7/2000	Met with Dr. He is in charge of doing the satellite broadcasts to all the facilities. These are educational programs. He is booked until May. We have May. Need to get back with him in March to firm up dates. Discussed Oxycontin. He said that it is totally up to pharmacy. He just comes and does his job. He said that they don't use narcotics very much anyway. He needs a thorough education on the basics of pain management. I also briefly discussed Uniphyl. I left him the Reductions in Healthcare Costs article for him to read. Next time will relae this article to costs at Kaiser.
PLPMDL080000001	Euclid	OH	44119	2/7/2000	Uses a lot of theophylline but sticks to generis because of formularies requiring it.
PLPMDL080000001	Middleburg Hts.	OH	44130	2/7/2000	went over dosing and how to minimize se.
PLPMDL080000001	Middleburg Hts	OH	44130	2/7/2000	showed him the new miller article.trying to ocercome his barrier of using opioids for pain managemtn instead of blocks and other invasive procedures.fixing vs blocing the pain seems to be the biggest issue
PLPMDL080000001	Middleburg Hts.	OH	44130	2/7/2000	talked about his patietns that are on generic theoph and asked him about why he does not like to use.why would he not want a more precise delivery

PPLPMDL0800000001	Cleveland Hts.	OH	44118	2/7/2000	Saw Dr. Grayson briefly. She is a staff IM physician at this facility. Got to mention Uniphyl briefly to her, and ask her to use it. Next time will try to find out if she is seeing more asthma or COPD and where theophylline fits in her prescribing habits.
PPLPMDL0800000001	Middleburg Hts	OH	44130	2/7/2000	he is very hard to get him to admit to what he does.talked about using oxy in the hospice setting and went over add on valu of uni
PPLPMDL0800000001	Middleburg Hts.	OH	44130	2/7/2000	following up with jaho materials
PPLPMDL0800000001	Valley View	OH	44125	2/7/2000	Met the interim director of Hospice. Her name is Gail. Mary Swain is the receptionist. I introduced myself to Gail and told her I would like to meet with her in the near future to discuss where we are at with Purdue and the hospice. Also told her I was working on her rebate. Will set up appt. with her when I give her the rebate. Dr. LeGrand is the Medical Director.
PPLPMDL0800000001	Cleveland Hts.	OH	44118	2/7/2000	Have lunch with the oncology dept. Will see Ruth Streeter to discuss her use of Oxycotin off formulary. had luck on the Oncology dept. Also worked one of the IM clinics. Saw Dr. Adams and Dr. Grayson.
PPLPMDL0800000001	Cleveland	OH	44119	2/7/2000	Left CE booklets and Senekot samples.
PPLPMDL0800000001	Middleburg Hts.	OH	44130	2/7/2000	talked about the second floor in the hospital.found out that cardiac post op are there as well.need to follow up and get an inservice thru them
PPLPMDL0800000001	Cleveland Hts.	OH	44118	2/7/2000	Discussed Oxycotin with Dr. Streeter. She reminded me it is not on formulary. I recommended she use it for pts. who have morphine failures, pts. who have renal problems, or pts. that have trouble with the morphine stigma. She said she has one pt. on Oxycotin who failed morphine, and the pt. is doing well. She said she will use Oxycotin for these type of pts. She then called the pharmacy, and the pharmacy said they can use Oxycotin on exception, and the pharmacy will fill it. The pt. will not have to pay for it out of pocket. This is good news for us,
PPLPMDL0800000001	Bedford	OH	44146	2/7/2000	he will be going to orwell full time in July.talked about the flex of oxy and how it can be used for both ca and everyday acute.his mom was taking vic when she passed.compared to vic and went over dosing and focused on
PPLPMDL0800000001	Euclid	OH	44119	2/7/2000	Thinks that Oxy is too much for pts. Is worried about investigation.
PPLPMDL0800000001	Euclid	OH	44117	2/7/2000	Chris is concerned pts are getting addicted. Has pt on 80mg q 12 h. Sent letter on addiction issues.
PPLPMDL0800000001	Parma	OH	44130	2/8/2000	Met with Dr. She is not very helpful in terms of what she is able or willing to do. She is helpful in providing information. She is going to train the trainers on March 23. She said that physicians in her facility will not write letters to pharmacy as they do not want to make waves. She said it could mean peoples jobs. She said she can write it, but only when all else fails. She said that when NSAIDs fail she goes to Cilis, then to Dilaudid if needed. She is going to allow me to go to the team meeting with her and present Oxycotin to the teams. The 2 teams we will be doing first are at the Parma Facility.
PPLPMDL0800000001	Berea	OH	44017	2/8/2000	expanding patients in which he will use oxy with building on his successes.caldwell to show that it is ok to use concomitantly with the nsaid which is usually his first line
PPLPMDL0800000001	Middleburg Heights	OH	44130	2/8/2000	short term benefits going after his vic stuff may be wrong.he is using a lot of oxycodone products because "it is stronger".dosing is the big issue because we did not come to a set pattern.he is having difficulty understanding potency and strength
PPLPMDL0800000001	Middleburg Hts.	OH	44130	2/8/2000	followed up with gibbons office.medical leave and trying to find how that will effect onc
PPLPMDL0800000001	Parma	OH	44134	2/8/2000	Tried to see Educatio n Coordinator. The receptionist told me to contact one or both of the D.O.N.s. The is a D.O.N. of the sub-acute unit. Her name is Lisa Conrad. There is also a D.O.N. of the intermediate unit. Her name is Deb Karasek. The pharmacy for this home is MCS.
PPLPMDL0800000001	Parma	OH	44134	2/8/2000	Went to the facility. Gathered some information. This is not a JCAHO certified facility. There are 120 beds. The medical director is Nader Roheny, M.D. The D.O.N. is Alicia Tupaz, R.N. The Staff Development nurse is Melanie O'Callahan. Will need to call Melanie for appt.
PPLPMDL0800000001	Bedford	OH	44146	2/8/2000	Worked the IM clinic.
PPLPMDL0800000001	Cleveland	OH	44112	2/8/2000	Pain management department.
PPLPMDL0800000001	Richmond Hts	OH	44143	2/8/2000	Remind him of IR and Fast. See if where he sees use for them.
PPLPMDL0800000001	Cuyahoga Falls	OH	44223	2/8/2000	he likes using duragesic but says that it is always someone else the nurses thinks it is easy.wnt over precise vs levels all over the place and also ease of use. understands differences between oxy and msc and is aware of the proper pain principles,might want to start lower and try to get business from the combos and find why he is using those.
PPLPMDL0800000001	Maple Heights	OH	44137	2/8/2000	went over the labeling changes and talked about the abuse savings.does not like to write a c2.
PPLPMDL0800000001	Akron	OH	44302	2/8/2000	intro chiro, found out basic info;rmaton
PPLPMDL0800000001	Akron	OH	44302	2/8/2000	intro chiro, found out basic info;rmaton
PPLPMDL0800000001	Akron	OH	44307	2/8/2000	still not writing oxy, talk to stacy about doing a duo lunch or dinner with him
PPLPMDL0800000001	Middleburg Hts	OH	44130	2/8/2000	he is hard to understand.wants giveaways for his physician groups meeting in may.talked to him about using the fast in conjunction with oxy
PPLPMDL0800000001	Middleburg He	OH	44130	2/8/2000	short term benefits and abuse savings compared oxy to using vic.he despises perc and will only use for a few patients that have been on it before.feels that there is little difference between oxy and perc.del sys does not seem to matter to him
PPLPMDL0800000001	Cleveland	OH	44112	2/8/2000	Liked the way residents lunch went. Still doesn't practice what he says.
PPLPMDL0800000001	Bedford	OH	44146	2/8/2000	Discussed Uniphyl with Dr. Dr. said not his favorite drug, but does use it occasionally. I explained the benefits of adding theophylline to other meds. I also left him the Health Care reductions study and pointed out 30% reduction in inhaler use. Also Oxycotin for non-malignant pain. Next time, discuss why he does not use theophylline as much anymore.
PPLPMDL0800000001	Richmond Hts	OH	44143	2/8/2000	Likes to use Oxy with Duragesic 25-50mcg. feels that patients get better pain control and some skip pills but don't associate patch with progression of disease. Uses pecocet first, then Duragesic, then Oxy.

PPLPMDL0080000001	Mayfield Village	OH	44143	2/29/2000	OR day at Geauga is Tpm. Best day to catch him and Dr Stuart. Remind him.
PPLPMDL0080000001	Akron	OH	44333	2/29/2000	go to his daily schedule and discuss a specific patient, find out disease state and what medication they are currently on. How is the pain being controlled and what is your next stepp with this patient? Talk to Jim more and sell him more on Oxycontin. He said he is going to oxycontin first more than vicodin, alot for low back pain.
PPLPMDL0080000001	Akron	OH	44333	2/29/2000	Chronic pain, his acute pain is 7-14 days and habit is vicodin. Mentioned quick onset 36 minutes and 12 hour duration. ask what difference b/w duragesic and oxycontin patient?
PPLPMDL0080000001	Akron	OH	44333	2/29/2000	aske when dr may leave oxycontin? when is he using the patch? Have you used oxycontin in the acute pain patient? why not? said after 80mg tabs then the pain management doctors thinks about putting in a morphine pump. Went further with this and the patient that went to the pump was on 360mg q12h. He mentioned that the patients were no longer responding to oxycontin, tolerance. acute pain may be ankle sprains. the patch he said he has two patients on, patients that can not swallow and for breakthrough giving injections. uniphyl, for asthma and copd, thinking more for theophylline. Went over guideline and said has two copd patients not being controlled on inhalers.
PPLPMDL0080000001	Akron	OH	44314	2/29/2000	Has put three patients with arthritis pain, one is on 30mg q12h and also on compazine for the nausea, next time ask how long has she been on oxycontin and show decrease in side effects over time. Working with Barberton hospital, some resistance from anesthisia because they do not want to do primary assessment. Dr Richmond said only about 30% need some more invasive procedure.
PPLPMDL0080000001	Akron	OH	44333	2/29/2000	DISCUSSED USING THE 10MG TABS AND HAVE THE PATIENTS TAKE 1-3 TABS Q12H. HE SAID HE HAS A RHINOPLASTY TOMMORROW AND WILL TRY.
PPLPMDL0080000001	Barberton	OH	44203	3/1/2000	what do you mean by the peaks and troughs? Patients get more consistant pain control with oxycontin and said pts that need more pain contol, it benefits. Not using alot oxycontin in the PACU area.
PPLPMDL0080000001	Akron	OH	44333	3/1/2000	very conservative with narcotics. New physician out of residency and the fear factor is there. Trained on vicodin for acute pain. I went over oxycontin and why it has less abuse liability. Discussed treating low back pain. Low back study and why oxycontin is the best option. uniphyl, uses steroids first then may consider uniphyl. senokot and senokot-s.

PPLPMDL0080000001	Lakewood	OH	44107	3/1/2000	lunch. He uses OxyContin on his shoulders. Most of his patients are either shoulders or children
PPLPMDL0080000001	Parma	OH	44130	3/1/2000	First call. Dr. said he has used Oxycontin in cancer patients, but not sure i believe him. He has a big fear of addiction. He makes pts. or the families sign papers saying it is OK for him to prescribe opioids. He said he uses Duragesic because it is easier. Put the patch on an get 3 days of pain relief. Told him that may not always be the case. Sometimes pts. only get 2 days of pain relief. He agreed. Kept trying to get pt. commitment, but he would not. He said he satrfs pts. on NSAIDs, then moves to Vioxx or Darvocet. Rarely to opioid for non-cancer pain, but when it is, it is MS Contin. Dr. is not a medical Director, but has about 300pts. in the nursing home.
PPLPMDL0080000001	Akron	OH	44320	3/1/2000	oxycontin is being used for pelvic pain and longer acting pain. Not using much in post op setting. Need to find out why using vicodin and lorcet plus? mentioned that the residents write the pain medications.

PPLPMDL0080000001	Barberton	OH	44203	3/1/2000	recover room inservice on oxycontin for post op. PACU nursing staff. Have oxycontin 20mg tabs in the PACU. Marcia is going to change it to the 10mg tab. 1-3 tabs q12h. Most doctors are using vicodin. Dr Biscontin is only one using oxycontin and he is using the 20mg. Going to follow up in a month to see how oxycontin is going the staff said going to recommend oxycontin.

PPLPMDL0800000001	Parma	OH	44129	3/1/2000	Will go over the Won study on non-malignant pain in rn Home. Will ask if he is having any trouble with a specific pt. in his home. Did not get to discuss much with doctor. He was busy. I told him I met with Melanie and gave her some information on pain management. Lorraine is the receptionist. She said he is in every day except Wednesday morning.
PPLPMDL0800000001	Cleveland	OH	44195	3/1/2000	didnt seem to get chir as adva over bupr;he uses lots of oxy
PPLPMDL0800000001	Akron	OH	44333	3/1/2000	talked about a patient that has chronic low back pain, not taking any opioids now but has tried some street drugs to ease the pain. Going to start him on 20mg q12h and then titrate up.
PPLPMDL0800000001	Akron	OH	44203	3/1/2000	Dr Payne. Has two back pain and one kidney stone. Going to give the two back pain pts 20mg q12h but stone patients he said it is up to on call urologist.
PPLPMDL0800000001	Akron	OH	44203	3/1/2000	Dr Payne. Has two back pain and one kidney stone. Going to give the two back pain pts 20mg q12h but stone patients he said it is up to on call urologist.
PPLPMDL0800000001	Akron	OH	44333	3/1/2000	difference between a duragesic patient and an oxycontin patient? starts patients on oral or oxycontin. Oxycontin is easier to titrate not temperature dependent and ph dependent. Duragesic patients are patients where the patients have high anxiety and psychosocial problems, less likely to abuse. With oxycontin they will take tabs more often than needed and will not be as compliant compared to the patch. 80% have some psychosocial entity to control pain. Oatiant was on 30mg q12h of oxycontin and said just was not feeling right so switch to the patch and said pain scores went down and patient is feeling better.
PPLPMDL0800000001	Akron	OH	44333	3/1/2000	asked why we didn't have a 30mg tab. also mentioned uniphyl for children and why not chewable and flavored. Oxycontin for alot of nursing home patients, quick onset easy to titrate and mentioned that the patch people were in but using only oxycontin. uniphyl use after steroids.
PPLPMDL0800000001	Akron	OH	44308	3/1/2000	Dr. seems very interested. Loves the 12 hr. Unsure of Conversion scale strengths. Feels the combo's are better for moderate pain. Fears addiction. He has abusers at his practice. He mentioned Percocet, Percodan, Tylenol III, (Meperidine)Demerol feels that is the safest in the Scedule II category. Office Manager Lola Suffers from Rheumatoid Arthritis. Goes to the Crystal Clinic. Doesn't sleep at night. Takes enbriel and other injectible for joints from Wyeth Ayerst. Liver and Kidney problems.
PPLPMDL0800000001	Lakewood	OH	44107	3/1/2000	lunch He admitted to being a big Vicodin writer. He said most of his experience with OxyContin has needed breakthrough. I told him that he is underdosing if he is currently using Vicodin 1-2q6. We agreed on going up to 30mg q12h. Follow up
PPLPMDL0800000001	Lakewood	OH	44107	3/1/2000	lunch He said he only uses OxyContin or Vicodin depending on the patient and surgery. He mentioned a patient he had this morning that he put on OxyContin 20mg q12 h

PPLPMDL0800000001	Akron	OH	44333	3/6/2000	ask what he is using for breakthrough with his oxycontin patients? what is the difference between a vicodin patient and an oxycontin pt? What is stronger vicodin or oxycontin? has not gone past 40mg tid, concern with writing the 80mg tab q12h. Titration is a concern. Had a patient on 4 vicodin a day and switched to 10mg q12h and broke out in hives. Less tablets with Oxycontin is better, asked him to tryand convert all vicodin patients to Oxycontin and titrate up. said most patients are on 4 vicodin a day, max, ask why not convert to oxycontin?
PPLPMDL0800000001	Akron	OH	44333	3/6/2000	has used the 20mg tabs q12h post op. More severe pain post op, invasive surgical cases. Find out what types of surgeries using Oxycontin.

PPLPMDL0800000001	Twinsburg	OH	44087	3/7/2000	Did in-service on Uniphyl for the consultants. We discussed the additive effects of Uniphyl in low doses. The consultants seem to be concerned that theophylline is out of favor, and the physicians will not agree to change. Jason is a part time consultant, but is also vocal. If we can get him to change, then he will help others to change. Robert Koch, the Branch Manager is not opposed to us trying to get the consultants to change. This facility services about 4000 beds.
PPLPMDL0800000001	Cleveland	OH	44113	3/7/2000	veryinter in chir wants to trylikes bupi
PPLPMDL0800000001	Independence	OH	44131	3/7/2000	specific patients questions to get to oxy and results asked about hte differences between an oxy and duragesic.talked about patients wanting the convenience.uncovered some patients that are not doing well.talked about the 3-2 rule and how oxy provides and good plan for all that is involved.june would love to do a program.will need ot get it set for late summer
PPLPMDL0800000001	Akron	OH	44302	3/7/2000	lasked Joe Scaglione if Dr. Leeson or anyone else in the group would be interested in going to Pain Symposium in Bev. Hills. He will call me and let me know.

PLPMDL0080000001	Cuyahoga Falls	OH	44223	3/7/2000	Intro chiro, found out basic info;rmation. he is head of anesthesia and didn't buy into the ropi thing. nice guy but doesn't see a need for chiro. didn't get enough time to get more into it. did approve chirocaine to be brought in for bressi in the pain clinic though.
PLPMDL0080000001	Cuyahoga Falls	OH	44223	3/7/2000	Intro chiro, found out basic info;rmation he feels the same as his brother doesn't do procedures at high enough conc or volumes to warrant bringing in chiro. need to get more time with him and discuss specific procedures.
PLPMDL0080000001	Akron	OH	44310	3/7/2000	No nursing homes. Sheduled lunch. Nancy the P.A. used Oxycontin for endometriosis surgery last year.
PLPMDL0080000001	Cuyahoga Falls	OH	44223	3/7/2000	Intro chiro, found out basic info;rmation. says would probably use chiro for all blocks wouldn't pick and choose. says pharmacy would be interested cause of price. talk to Lisa Richardson
PLPMDL0080000001	Cleveland	OH	44109	3/8/2000	committed to using oxy has used in past but not lately need to follow up and get more specific pats
PLPMDL0080000001	Cleveland	OH	44109	3/8/2000	inter in chiro need to see smith and fisqus and when availb need to come back and sell to ans cost is concern hspol laying off many people
PLPMDL0080000001	Middleburg Hts.	OH	44130	3/8/2000	was able to talk to on phone said didn't have time to come out! Not good, says no to lunches and send him information on chirocaine. I went into the benefits of it and said again to send him info. Try another approach, maybe through spier and spiro. need to call pharmacy and see if they use ropi, forgot to ask him
PLPMDL0080000001	Cleveland	OH	44109	3/8/2000	moving to vermont in habbit of per and still under perception oxy stronger than perc;work on chief res to rx gave post surg protocol sheet see if they are using
PLPMDL0080000001	Cleveland Hts.	OH	44118	3/8/2000	Met with Dr. with Bernie. We presented the Uniphyl program. At the beginning, he said he never uses theophylline, and in fact he tries to take pts. off of it. Said has a bad side effect profile. We explained to him the benefits of adding Uniphyl to an already existing regimen in low doses will allow his pts. to breath better. He asked for 3 kits. He said he is open minded. Left him the Rivington asthma study, and the Schultz study. He said he will read them. Will follow-up with him as soon as I receive the kits.
PLPMDL0080000001	Akron	OH	44302	3/8/2000	Dropped off a cake for Conies B-day. We met. Said Happy B-Day. Dr. Connelly's patient was at desk saying that she was to call in a prescription for vicodin.
PLPMDL0080000001	Cleveland Hts.	OH	44118	3/8/2000	Met with Dr. Hwang with Bernie. She presented her Uniphyl program which includes free Peak Flow Meters, and free Uniphyl for 1 month using the PCS cards. Dr. Hwang said he uses theophylline, but most of his pts. are on Theo-Dur or Slo-Bid due to formulary cost pressures. Tol him Uniphyl was on formulary. Explained that by using Uniphyl, could reduce inhaler use by 30% which would reduce costs. He asked for 10 Uniphyl kits to try on 10 refractory pts. Bernie will mail the kits to me. I will follow-up as soon as I get the kits.
PLPMDL0080000001	Cleveland	OH	44109	3/8/2000	very inter in chiro wanted to know why cmax not the same in pi for s enatomer of bup and levo/ get flyer to promte speaker program
PLPMDL0080000001	Lakewood	OH	44107	3/8/2000	he is very comfortable using OxyContin for all chronic pain. Great writer! Went over using Oxycontin for acute even a couple of days. This is where he likes Vicoprofen. Show our abuse advantages and how we work just as
PLPMDL0080000001	Westlake	OH	44145	3/8/2000	quick hit in the hall, he said he is a big OxyContin user. He keeps forgetting about IR for breakthrough and will often use Percocet for breakthrough
PLPMDL0080000001	Westlake	OH	44145	3/8/2000	he still believes using the patch with OxyContin in combination works best. Show him how the smooth OxyContin delivery is altered with the jumpy Duragesic delivery.
PLPMDL0080000001	Cleveland	OH	44109	3/8/2000	gave info no response and gave post oper sheet work with res who mostly rx
PLPMDL0080000001	Cleveland	OH	44109	3/8/2000	very inter in chiro thinks it should replace bup but she has not power. went over adv of oxy vs per they do acute pain with pca
PLPMDL0080000001	Lakewood	OH	44107	3/8/2000	lunch he is using nothing but Uniphyl when needing theophylline.he is also using OxyContin on a regular basis for his chronic patients. Continue to show benefits to his patients and to him over Vicophren for acute

PLPMDL0080000001	Westlake	OH	44145	3/8/2000	he only used OxyContin for cancer. he was aware that nonmalignat was very appropriate. Went over the areas where he uses Vicodin like back pain and severe arthritis and some post op procedures. He said he understood now how OxyContin could be very beneficial for those patients
PLPMDL0080000001	Akron	OH	44333	3/8/2000	what is a common procedure that is not very painful, that pts are given vicodin that he is willing to switch to oxycontin? patient type that he is using oxycontin 1-3 10mg tabs q12h post op are patients that have not been on another opioid, mainly vicodin for pain.
PLPMDL0080000001	Northfield	OH	44067	3/9/2000	bridge to oxy add on with nsaid: he is getting good results when he uses uni in his copd.recognizes the lack of inhalers in lungs and is using qd in the evening.need to get specific with patients.and bridge to oxy success with it.calling in vic is biggest reason to use but jcaho may be a way to get in to more business.

PPLPMDL0080000001	Tallmadge	OH	44278	3/9/2000	afraid to prescribe opioids.
PPLPMDL0080000001	Parma	OH	44130	3/9/2000	Tentative presentation with Dr. to one of the IM teams at Parma. Got to speak with Dr. after the in-service. She is planning on leaving Kaiser in about 4 month. She is planning to attend TTT in a few weeks. Dr. is not an orthoped. She is a physiatrist.
PPLPMDL0080000001	Tallmadge	OH	44278	3/9/2000	Nursing home dr. I need to hone in on nursing home patient care. They think duragesic is easy. Wants a patient contract.
PPLPMDL0080000001	Middleburg Hts.	OH	44130	3/9/2000	need to get inservice on second floor he seems less inhibitive to use than panigutti.need to find a hot button because he does not seem to care about f/b.more for himself
PPLPMDL0080000001	Mayfield Heights	OH	44124	3/9/2000	Couls use more Uni. Doesn't totally buy into differences. samples will help him remember.
PPLPMDL0080000001	Tallmadge	OH	44278	3/9/2000	No nursing homes, Lunches only. Not scheduling until after July.
PPLPMDL0080000001	Barberton	OH	44203	3/9/2000	leaving oxycontin to go to duragesic patch, patients becoming tolerant to oxycontin and having to take alot of pills, also said more cost effective at higher doses.

PPLPMDL0080000001	Cleveland	OH	44109	3/9/2000	hasnt been using as much lately;did talk on epidurals and discussed naropin
PPLPMDL0080000001	Lyndhurst	OH	44124	3/9/2000	Was vague when asked about specific patients. Asked him if he has used OxyIR and FAST. What doeses? Also discussed speaker program for tumor boards. He wants me to deal with Ilona.
PPLPMDL0080000001	Parma	OH	44130	3/9/2000	Possible in-service for one of the Parma IM teams. Will discuss Oxycontin. Got to give 15 minute presentation on Oxycontin to the IM team led by Charles Duncan. I discussed the niche to place Oxycontin, since it is not on formulary. I said for renal disease pts. for pts. on ATC APAP and for morphine intolerant pts. Oone nurse asked about tolerance. Explained that tolerance to opioids usually means disease progression. Left all participants the Oxycontin Product Datya Brochure. Will do another in-service for Dr. Greaser's team next week.
PPLPMDL0080000001	Euclid	OH	44119	3/9/2000	Find out who else is involved in pain task force and try to bring them a program.
PPLPMDL0080000001	Beachwood	OH	44122	3/9/2000	Dr. Hall said he is using a little more Oxycontin since the last time we spoke. He said his partners told him he was missing the boat a little if he refused to use opioids. He is the medical director of two nursing homes. he has about 100 nursing home pts. Madonna Hall is one of his nursing homes. left him the Caldwell study. He is looking for funding for his Web site. He gave me a list of great nursing home physicians who are on the medical board for the development of this web site. I will follow-up with these physicians.
PPLPMDL0080000001	Middleburg Hts.	OH	44130	3/9/2000	second floor inservice using with younger patients and very hesitant to use in the elderly.the yare going to expand their services and start going to other offices

PPLPMDL0080000001	Middleburg Hts	OH	44130	3/9/2000	identifying patients that can have oxy add on.he feels he is using all he can.does not like to be hard pressed
PPLPMDL0080000001	Maple Heights	OH	44137	3/9/2000	need to get additional information about scheduling and find a way to make him more comfortable with writing talked about abuse savings and labeling changes.does not like c2's
PPLPMDL0080000001	Cleveland	OH	44115	3/9/2000	hardly does any regional blocks;wont be very helpful and doesnt use po's
PPLPMDL0080000001	Cleveland	OH	44115	3/9/2000	not that inter in chir need to see bastulli and mandel
PPLPMDL0080000001	Tallmadge	OH	44278	3/9/2000	Nursing home dr. I need to hone in on nursing home patient care. They think duragesic is easy. Wise used to work for Purdue. Thinks Duragesic is easy. Did not know the chiclet story. Wants patient/Dr. contract.
PPLPMDL0080000001	Cleveland	OH	44113	3/9/2000	asked about adding oxycon to post oper ord has vic andper on he said talk to marie;introd chiroc
PPLPMDL0080000001	Garfield Hts.	OH	44125	3/9/2000	is waiting until ropl is approved then he will come back with cheaper option to make himself look good;dr group is inter in chiro
PPLPMDL0080000001	Middleburg Hts	OH	44130	3/9/2000	patients and procedures in which he uses oxy wants money for toys for indian program.
PPLPMDL0080000001	Cleveland	OH	44115	3/9/2000	very helpful but not influential not a partner in group ;no po's written
PPLPMDL0080000001	Middleburg Hts	OH	44130	3/9/2000	asked for chiro support in the hospital, wants to try first on blocks in practice and will then decide. uses a little oxy, not as much as spier, pushed for when patient needs atc
PPLPMDL0080000001	Euclid	OH	44119	3/9/2000	Try to identify one pt type who would benefit from Oxy.
PPLPMDL0080000001	Parma	OH	44129	3/9/2000	feels that oxy is having alot fo se and getting call backs.does not realize he is getting just as many with vic because nurse takes those calls
PPLPMDL0080000001	Akron	OH	44312	3/9/2000	oxycontin for cancer pain, thinks more addicting then even percocet.
PPLPMDL0080000001	Beachwood	OH	44122	3/9/2000	Lunch for the Dr. and staff. Will continue to discuss use of Oxycontin the nursing home. Dr. said he has about 85 nursing home pts. He said he is using Duragesic in the nursing home, but says that he uses the oral route first because it is easier. He said he place a very bad low back pain pt. on 10mg q12h Oxycontin recently, and the pt. did great. Next time, will need to discuss how long he will wait before he places a pt. on Oxycontin.
PPLPMDL0080000001	Cleveland	OH	44113	3/10/2000	may rx oxy today and iner in chiro
PPLPMDL0080000001	Cleveland	OH	44106	3/10/2000	still needs to use more oxy not in habit

PPLPMDL0080000001	Middleburg Hts	OH	44130	3/10/2000	multi tablets and non mailg data talked about using a med that matches his talents and efforts.not using old methods why use old drugs
PPLPMDL0080000001	Parma	OH	44129	3/10/2000	finging out that he is on some important committee at the hospital.will need to follow up to see if he can help
PPLPMDL0080000001	Cleveland	OH	44195	3/10/2000	doing block with markaine will try chir when avail
PPLPMDL0080000001	Cleveland	OH	44106	3/10/2000	will not be able to attend dinner;using oxy need to find out how to get it on standing orders
PPLPMDL0080000001	Cleveland	OH	44195	3/10/2000	very inte in chiro ;discussed oxy and how to dose and highest dose;
PPLPMDL0080000001	Middleburg Hts.	OH	44130	3/10/2000	he has wonderful pain management ideas.he sais that he is using alot of oxy.went over ir and fast and titration.need to find if what he is saying is accurate on the pharmacy level.need to be persistant in visits because rapport can go a long way especially in inservicing department and new radiation facility.
PPLPMDL0080000001	Cleveland	OH	44119	3/10/2000	Met Dr. for first time. We discussed Oxycontin. She really likes the medication. She says that pts. seem to have fewer side effects with Oxycontin than morphine. We discussed using breakthrough meds as titration guides for the long acting. I showed her the 5th Vital Sign clipboards. She wanted about 10 of them for the 3 different wings of the hospice house. Dr. is leaving on Vacation for a week. Goning to Disneyland. So is Donna.
PPLPMDL0080000001	Westlake	OH	44145	3/13/2000	he likes the idea of slow sustained release less abuse. He wants to speak for us
PPLPMDL0080000001	Westlake	OH	44145	3/13/2000	he said he writes Duragesic for his patients who have a hard time swallowing. He also writes it with OxyContin. Went over some of the disadvantages of the patch and the ad vantages of starting and staying with OxyContin
PPLPMDL0080000001	Akron	OH	44333	3/13/2000	what is the difference between a vicodin pt and oxycontin pt? oxycontin is for patients that need alot of pain medication, using 10mg tabs 2 at a time. Some apprehension with going to 3 tabs yet gives vicodin 2 tabs q3-4 h. Patients want vicodin and oxycontin does not give the buzz. Oxycontin is reserved for more difficult patients.
PPLPMDL0080000001	Lakewood	OH	44107	3/13/2000	he said he understands why with generic the patient is not getting an exact conversion of theophylline and it will vary. He said he will stick more with Uniphyll.
PPLPMDL0080000001	Akron	OH	44333	3/13/2000	vicodin is still the drug of choice. Oxycontin is being reserved for wrist fusions and more invasive procedures. Carpel tunnel and burr removal uses vicodin. thinks oxycontin is stronger than vicodin.
PPLPMDL0080000001	Lakewood	OH	44107	3/13/2000	she said she is mostly using OxyContin for severe arthritis type pains. She is now also using it in place of Vicodin for fractures. Talked about more acute pains like kidney stones. She agreed to use it there. keep expanding her
PPLPMDL0080000001	Lakewood	OH	44107	3/13/2000	Talked about the conversions of short acting to OxyContin (Vicodin, Percocet, T3)
PPLPMDL0080000001	Westlake	OH	44145	3/13/2000	went over advantages of OxyContin for post op vs. short acting. How patients will benefit and will be able to rest and sleep through the night.
PPLPMDL0080000001	Cleveland	OH	44107	3/13/2000	he asked about Louie Lajo and said he supports OxyContin said good drug as well as OxyIR. He doesn't get Dr. Diamantis' patients and won't bring in OxyFast unless he sees a script.
PPLPMDL0080000001	Akron	OH	44333	3/13/2000	hand surgeons and plastic surgeons.
PPLPMDL0080000001	Fairlawn	OH	44333	3/13/2000	senokot-s. oxycontin for post op pain.
PPLPMDL0080000001	Akron	OH	44333	3/13/2000	senokot-s against metamucl.
PPLPMDL0080000001	Tallmadge	OH	44278	3/13/2000	Rimedio writes. Not in on Mondays.
PPLPMDL0080000001	Westlake	OH	44145	3/13/2000	quick hit. he said he is switching a lot of his Percocet patients to OxyContin. Stop in next week to set up a breakfast
PPLPMDL0080000001	Akron	OH	44333	3/13/2000	patients that he is having trouble controlling on vicodin then he will try on oxycontin. Vicodin is being written before surgical cases and concern with oxycontin is no refill after 7 days. I asked him to write 10 days worth until they come back in. he said he will think about it.
PPLPMDL0080000001	Tallmadge	OH	44278	3/13/2000	No lunches in the month of march. They are working thru their lunch hour. Very busy. I scheduled a lunch.
PPLPMDL0080000001	Tallmadge	OH	44278	3/13/2000	No lunches in month of March. Thet are working thru l.unch. Lunch appts only

PPLPMDL080000001	Lakewood	OH	44107	3/13/2000	he said his patients seem to do best with Vicodin. He is comfortable writing it and knows how to write it. He said he has used some OxyContin in the past but not a lot. Went over the advantages to his patients with OxyContin . Showed him the conversions and he said he will give it another try.
PPLPMDL080000001	Euclid	OH	44119	3/13/2000	Still thinks that it is too potent. Is blowing me a lot of smoke.
PPLPMDL080000001	Akron	OH	44312	3/13/2000	vicodin is for acute pain after NSAIDS, most commonly treats low back pain. lw back pain study.
PPLPMDL080000001	Akron	OH	44333	3/13/2000	address tolerance, ask at what dose will you consider leaving oxycotin? What patients are on vicodin for more than a few days? what patients are not being controlled on inhalers? highest patient 360mg q12h for severe back pain. He said around 2 80mg tabs q12h then thinking about tolerance.
PPLPMDL080000001	Akron	OH	44333	3/13/2000	titrated the patient from 40mg tid to 80mg q12h. Concern with titrating patients from 40mg to 80mg q12h.
PPLPMDL080000001	Akron	OH	44333	3/13/2000	what type of cases using oxycotin on? oxycotin for severe pain cases. Vicodin is a habit, and he asked me if I wanted him to write more oxycotin? 2-3 10mg tabs q12h post op. Stamped rx pads with oxycotin 1-3 10mg tabs q12h.
PPLPMDL080000001	Akron	OH	44333	3/13/2000	patients that have not been taking vicodin before procedures. Oxycotin 1-3 tabs q12h. Mentioned preoperative use.
PPLPMDL080000001	Akron	OH	44333	3/13/2000	placed for most painful procedures, also has used the patch. Vicodin 1-2 tabs q4h. Concerned with patients taking oxycotin more often than q12h.
PPLPMDL080000001	Akron	OH	44333	3/13/2000	what distinguishes between using oxycotin and vicodin? carpal tunnel patients get darvocet. Patients are getting 2 10mg tabs q12h and on occasion get a third tablet. Ibuprofen every 4 hours. Carperl tunnel and cyst removal may even get vicodin.
PPLPMDL080000001	Lakewood	OH	44107	3/13/2000	he said he mostly uses OxyContin for chronic problems. He said that it has not worked as well as Vicodin for post op. He said he writes it 1-3 q12 h. Then he said his Vicodin post ops often take 2 every 4 or 6 hours. He then realized that he was under dosing with OxyContin. He said he will now try it in the range of 30-40 mg q12h. For his difficult patients he will write it 20mg 1-2. For the chronics he has begun to write OxyIR for breakthrough he said he tried OxyContin on a few patients and did not get good results. He wrote it 20mg 1-2 q12h and the 40mg did not even phase them. He switched them to Percocet 1 every 4hours and they were fine.
PPLPMDL080000001	Lakewood	OH	44107	3/13/2000	vicodin is the habit, he said after NSAIDS sends them home with vicodin and in house give demerol. I asked what concerns he has and he said none, vicodin is a habit. Abuse is a concern. Used the titration guide to compare oxycotin with vicodin and then the PI to show less abuse potential. I asked him to use it today would not commit to a patient but I said the habit needs to start today.
PPLPMDL080000001	Barberton	OH	44203	3/14/2000	discussed oxycotin for acute pain or right after nsais. not thinking for acute pain, hit onset of action within one hour. Compared relative potency with vicodin. If going to use an opioid oxycotin has less abuse potential and improves quality of life. oxycotin first opioid option. Caldwell reprint, not thinking of oxycotin after nsais, patients are already on an opioid before going to oxycotin.

PPLPMDL080000001	Cleveland	OH	44112	3/14/2000	wont be the first to try new product will need to talk to peers first does pain mgmt but no po meds did in past and doesnt like all the calls
PPLPMDL080000001	Barberton	OH	44203	3/14/2000	treating more chronic pain than short term pain. Oxycotin is being reserved for more chronic pain and vicodin for acute pain. So patients are being started on vicodin first then going to oxycotin if need to stay on opioids.
PPLPMDL080000001	Independence	OH	44131	3/14/2000	he is new to the group,coming from the c.che likes oxy and does not like duragesic except for those few that truly can not swallow,does not agree with the way that other members in the group does pain,he feels that oxy is expensive,need to make sure that he does not follow in other patterns,has several patients at marymount on oxy and will need to follow up with cathly to find specifics.

PPLPMDL0080000001	Euclid	OH	44119	3/15/2000	Carolyn said they were too busy. Said hello and left indigent patient form.
PPLPMDL0080000001	Akron	OH	44320	3/15/2000	Dr. attended the in-service. She said she received my last Uniphyl letter. She didn't say much at this in-service.
PPLPMDL0080000001	Cleveland	OH	44106	3/15/2000	listened to presentation on chiro no opinon shared
PPLPMDL0080000001	Akron	OH	44320	3/15/2000	Dr. was the vocal one. He said that he does not use a lot of theophylline because of the side effects and the drug-drug interactions. I gave him the Uniphyl card that shows the drug interactions. He looked at it and said that they don't really write that many of them anyway. He seemed willing to try in on some pts. Next time, will try to get pt. specific.
PPLPMDL0080000001	Westlake	OH	44145	3/15/2000	passed him in the hallway he said he put a new patient on OxyContin this morning with IR for breakthrough

PPLPMDL0080000001	Akron	OH	44320	3/15/2000	This is Medical Meeting Day. Will be able to present in-service to all medical staff. Will discuss outcomes study with Uniphyl. Dr. attended in-service on Uniphyl. He heard me speak of Uniphyl in the past so he didn't say much. He did however say that he started a pt. on Oxycontin this morning.
PPLPMDL0080000001	Cleveland	OH	44106	3/15/2000	safety not concern uses lido for c'section and 1/8% for lab and deliv
PPLPMDL0080000001	Euclid	OH	44119	3/15/2000	Still using Oxy q8. Something about the mgs number bugs him. Tried to point out the differences in the delivery system from MSC but I don't think I really got there.
PPLPMDL0080000001	Akron	OH	44320	3/15/2000	Did in-service on Uniphyl. Went over the Martin-Pak study and showed them what happens to lung function as a result of converting from b.i.d. to Uniphyl. Also went over the Karpel study to show how lung function improves when Uniphyl is added in to the inhaled regimen they are on. See specific Drs. as to what they said.
PPLPMDL0080000001	Euclid	OH	44119	3/15/2000	Discussed patients having to be sent to pain mgmt. This is coming from UH people. Doesn't want us to intervene at all. Dr Winer will give ou names of people on pain task force.
PPLPMDL0080000001	Cleveland	OH	44106	3/15/2000	he thought safety was concern of all he was most interested wanted references so he could look up info
PPLPMDL0080000001	Akron	OH	44333	3/15/2000	caldwell reprint. use after Nsaisd, not quite comfortable will go to darvocet of fiorist first then oxycontin or vicodin.
PPLPMDL0080000001	Cleveland	OH	44106	3/15/2000	safety not concern use very low doses of bupri in l&d and lido in c section.
PPLPMDL0080000001	Mayfield Hts	OH	44124	3/15/2000	thinks purdue should take a more educational role in promoting chiroca in training physicians how to do regional ans because very few are;he would like to be a consultant in training other docs how to do it;cost per min in or is 15-50 dollars if pat goes under reg ans before they go in or it saves alot of money,aske how quickly his pats get oper on once they go into or.
PPLPMDL0080000001	Cleveland	OH	44106	3/15/2000	has had one overdose of bupri and pat recovered;safety not concern of hers;use illocanine in c section casue fast onset
PPLPMDL0080000001	Akron	OH	44320	3/15/2000	Pat sat in on in-service. She did not say anything and I didn't ask her who she tried on Uniphyl. I will next time.

PPLPMDL0080000001	Cleveland	OH	44106	3/15/2000	breakfast with obgyn anesthesia not that hot for chirocaine unless it's cost is closer to bupri
PPLPMDL0080000001	Cleveland	OH	44106	3/15/2000	is not comf going higher than 80mg went over pi with 720mg used in studies;see if he will go higher
PPLPMDL0080000001	Akron	OH	44313	3/15/2000	left him with some of the new jacho stuff.talked about slides for speaking and how much stuff he is getting from other companies.add on approach and when and how will have to be be gone over again
PPLPMDL0080000001	Akron	OH	44310	3/15/2000	Focus on positioning Oxycontin to patient profile.
PPLPMDL0080000001	Mayfield Hts	OH	44124	3/15/2000	doing reg ans would like add traing and thinks they should put epid in earlier for c sections and use oxycont next meetin may 17th
PPLPMDL0080000001	Akron	OH	44333	3/15/2000	oxycontin is being used more for acute pain but only if the patients need to take atdc opioids, may give vicodin as as need basis.
PPLPMDL0080000001	Mayfield Hts	OH	44124	3/15/2000	would nto get specd with pain pats says eh uses oxy and was inter in chiro
PPLPMDL0080000001	Cuyahoga Falls	OH	44223	3/15/2000	got him to talk about a couple of patients that are having a diff time on the combos and how to convert to oxy
PPLPMDL0080000001	Westlake	OH	44145	3/15/2000	he said that he would like to speak for us. He has nothing but great things to say about OxyContin for cancer.
PPLPMDL0080000001	E Cleveland	OH	44112	3/15/2000	Used Uni when he found samples. Keep reminding him.
PPLPMDL0080000001	Richmond Heights	OH	44143	3/15/2000	Has only one pt on Oxy. Refers to Dr. Yokiel. Once he believes they need more than occasional Vic he makes them go to pain mgmt.
PPLPMDL0080000001	Richmond Hts	OH	44143	3/15/2000	Tried to find out what the difference btwn Oxy pt and Duragesic pt is? He gave me the corporate line about. No pts who can swallow on Dur. Nurses say that he uses Dur and Oxy together.
PPLPMDL0080000001	Akron	OH	44333	3/15/2000	vicodin is after nsaisd and then oxycontin, still feels oxycontin is stronger than vicodin. caldwell reprint but the comparison was with percocet and not vicodin.
PPLPMDL0080000001	Akron	OH	44333	3/15/2000	starts with oxycontin for more acute or short term opioid use, but when tutrating with oxycontin after 80mg he will go to the patch tolerance and not comfortable with titrating up past 80mg q12h.
PPLPMDL0080000001	Akron	OH	44333	3/15/2000	abuse is the issue with oxycontin vs the patch. just had a patient overdose on oxycontin, said gave 90 pills on friday and had only 39 by sunday, patient is in the psych unit. mentioned the hypovenelation and the black box warning with the patch but said once put it on the patients body adjusts. He did say that all short term and patients at edwin shaw get oxycontin for ease of titration.
PPLPMDL0080000001	Akron	OH	44302	3/16/2000	Discuss where he uses opiods. Bring reprint on chronotherapy for uniphyl.
PPLPMDL0080000001	Mayfield Hts	OH	44124	3/15/2000	wnts to know if at what dose a chronic non malagant pain pat should be stopped on opiod so receptors sites can recover;discussed toler vs psedo tole did not help too much;wnet over time and useing higher doses and breakthrou;nuse had one pat who called today on 10mg q12 not wrkg went to q8;see what he does next
PPLPMDL0080000001	Richmond Hts	OH	44143	3/15/2000	Uses Vic and Per. Is not confident with dosing and 12h duration. Left before we had finished.
PPLPMDL0080000001	Parma	OH	44130	3/16/2000	Tentative presentation to one of the Parma IM teams. Met with Dr. She is going to TTT next week. Explained to her that we need physiatrists to spread the word of proper pain management. She seems like she wants to speak for us. Will follow-up after TTT. Will also do another in-service for Cleveland Heights next month.
PPLPMDL0080000001	Parma	OH	44130	3/16/2000	Possible in-service on Oxycontin to one of the Parma teams. Got to present to Dr. Greiser's team. Dr. Greiser is on the P&T committee. I discussed pain management and the use of opioids. I handed out Oxycontin

PLPMDL080000001	Solon	OH	44139	3/21/2000	he is treating acute pain and chronic kind of different.feels that oxy is way stronger than vicodin.found a patient that was complaining about sedation.repositioned oxy for earlier starts and se savings and dosing
PLPMDL080000001	Akron	OH	44312	3/21/2000	acute is 4 weeks and goes from nsaid's then to vicodin or codeine. Oxycontin for chronic pain with less abse potential.
PLPMDL080000001	Akron	OH	44312	3/21/2000	chronic pain se with oxycontin. Acute pain mentioned 4 weeks or a month. NSAIDS then vicodin or codeine for acute pain. Oxycontin to follow. Doing alot of orthopedic pain at edwin shaw. treating arthritic pain and using alot of nsaid's. Dragesic use is for patients that can not swallow. acte and chroni cuse for oxycontin. uniphyl, qd dosing vs theo dr.
PLPMDL080000001	Akron	OH	44333	3/21/2000	percodan is first then going to oxycontin, some pts say not working or say gettin nausea or itching.
PLPMDL080000001	Akron	OH	44308	3/21/2000	Robin schedules lunches the 2nd and 4th thursday of each month for the hematology/Oncology department. I scheduled a lunch.
PLPMDL080000001	Akron	OH	44333	3/21/2000	oxycontin for post op pain and vs the patch.
PLPMDL080000001	Akron	OH	44322	3/21/2000	senokot-s vs metamucil.
PLPMDL080000001	Barberton	OH	44203	3/21/2000	emergency dept.
PLPMDL080000001	Akron	OH	44333	3/21/2000	niphyl is being used for noctrnl problems and unidur for more flat blood level and coverage for day time breathing. Cost is now an isse not seeing benefits of uniphyl.
PLPMDL080000001	Akron	OH	44203	3/21/2000	Dr Payne. Views oxycontin and vicodin patients as the same, Also said that local physicians view oxycontin for cancer pain and with the patch and ms contin. Usually keeps patients on vicodin tht HAVE BEEN PUT ON BY THEIR FP. I aske what concerns and he said none but consults with their family physician about what to take. Uses the 20mg tab and if more severe uses the 40mg. Low back and kidney stones are the pts using on.
PLPMDL080000001	Akron	OH	44309	3/21/2000	Spoke with Heather and she directed us to Becky the surgical coordinator. My goal is to put on standing orders and find out where the surgical lounge is and go there
PLPMDL080000001	Tallmadge	OH	44278	3/21/2000	They carry all strengths except 80mg. Love Senekot for kids. Rick gave me a book to drop off for them of Senekot.

PLPMDL080000001	Tallmadge	OH	44278	3/21/2000	Gave info on patient?Dr. contract. They have an open lunch for Wed. I took it.
PLPMDL080000001	Akron	OH	44333	3/21/2000	call in is the biggest issue. His normal rx is for vicodin 60tabs and write 5 refills. tells patients to take 1 q6-8h. This script should last for three months, and if go through 5 refills then have to suffer until the 3 month time period. Oxycontin three scripts that are pre dated????
PLPMDL080000001	Akron	OH	44308	3/21/2000	Becky is going to call me and let me know if the doctors are interested in talking with me
PLPMDL080000001	Akron	OH	44312	3/21/2000	percodan and vicodin are his first choices for pain. Acute and even mild chronic pain. Goes to oxycontin at 40mg or 80mg. Views oxycontin as being stronger than percodan and vicodin. Severe pain, maybe thinking that oxycontin is a morphine the same as ms contin.
PLPMDL080000001	Akron	OH	44333	3/21/2000	20mg in titrating increments is alot so using more 10mg tbas 1-3. most patients are already on vicodin, so not thinking oxy for these pts only new starts.
PLPMDL080000001	Solon	OH	44139	3/21/2000	using ir and fast in conjunction with oxy and how to calculate.dosing and titration
PLPMDL080000001	Akron	OH	44304	3/21/2000	. Gave him info for OxyContin. Asked how he dosed the patient. He doesn't remember. I told him it is a Q12hr. Etc.... He seemed very interested. I will give him info on The W.H.O. etc. set up appt. He is a little burned out right now. Maybe take him some treats

PPLPMDL0080000001	Akron	OH	44333	3/21/2000	going to oxycontin after lortab but the patch is starting to show up, stopping after 40mg q12h. Tolerance at around 40mg for patients.
PPLPMDL0080000001	Akron	OH	44308	3/22/2000	Gave him Patient/Dr. contract, documentation kit. Concerned about abuse, has started prescribing.
PPLPMDL0080000001	Tallmadge	OH	44278	3/22/2000	Gave info on patient?Dr. contract. They have an open lunch for Wed. I took it. Gave him Patient/Dr. contract, documentation kit.

PPLPMDL0080000001	North Royalton	OH	44133	3/22/2000	identified a couple more patients for uniphyl,getting food results when he does use
PPLPMDL0080000001	Parma	OH	44129	3/22/2000	went over some of the cardio protective stuff learned from the specialist meeting will need to find some of those pieces
PPLPMDL0080000001	Akron	OH	44320	3/22/2000	what type of patients are yo using vicodin on? lorcet plus on? Use the Sunshine study to show the efficacy of oxycontin in the post op setting. hysterectomy patients are getting vicodin or tylox.
PPLPMDL0080000001	Akron	OH	44320	3/22/2000	has no idea what local they use for I and d. using oxy alot for going home but says residents orde for inhouse and they use tylox or percocet because its on formulary and stocked inpiux. need to do lunch with resident at city and general
PPLPMDL0080000001	Shaker Hts	OH	44122	3/22/2000	3/22 Doctor is using oxy in low back and cancer pain. He uses alot of darvacet and percocet, ask him why he uses them. Asked himto convert patients to oxy who are not sleeping thru the night. Ask him if he ask his patients about sleep.
PPLPMDL0080000001	Uniontown	OH	44685	3/22/2000	vicodin is being used for acute pain, 10-14 days. ms contin patients are patients that have been on it for awhile, chronic nonmalignant pain, low back and sciatic nerve problem. No patch patients, used if would cold piece.
PPLPMDL0080000001	Westlake	OH	44145	3/22/2000	lunch she stopped in quickly for lunch talked about dosing and how it is easier for her to write and easier for the patient to take vs. short acting
PPLPMDL0080000001	Lakewood	OH	44107	3/22/2000	quick hit through the window as he signed for samples. HE SAID HE PREFERS UNIPHYL OVER ALL OTHER theophyllines
PPLPMDL0080000001	Parma	OH	44129	3/22/2000	big inservice in auditorium.met nancy and barb from the 7th floor.nancy echon is another contact for doing stuff on that floor.onc ortho and some other heavy duty pain meds go thru that floor
PPLPMDL0080000001	Westlake	OH	44145	3/22/2000	went over the advantages of OxyContin vs. short acting
PPLPMDL0080000001	Westlake	OH	44145	3/22/2000	asked me about percentages of side effects. We talked about Senekot to take care of the constipation
PPLPMDL0080000001	Fairlawn	OH	44333	3/22/2000	talked to andy, discussed the legal issue of writing three prescriptions of oxycontin and predating them for one month ahead of the first prescription.
PPLPMDL0080000001	Westlake	OH	44145	3/22/2000	lunch We talked about using OxyContin everywhere he is using Percocet in order to expand his usage. He claims he doesn't use hardly any Percocet but brought up Darvacet very quickly. So we talked about using OxyContin sooner instead of Darvacet. He said he was glad I talked with him to remind him to use it there
PPLPMDL0080000001	Tallmadge	OH	44278	3/22/2000	Gave him Patient/Dr. contract, documentation kit.
PPLPMDL0080000001	Akron	OH	44310	3/23/2000	Find out where ,when, how he use oxycontin and patient type.
PPLPMDL0080000001	Parma	OH	44129	3/22/2000	has alot of myths of opioids, uses vicodin then goes to duragesic, thinks patch is less abusive, showed cost and reminded of fda claim, need proof source of patch 50xmore potent than morphine. doesn't like to use oral meds, does tons of blocks, not interested in chiro until spinal form is available, says can do spinal in seconds vs doing blocks, definitely need to work on oxy for now. sec is Lori scheduled lunch for may. Kang does pain on alt. days
PPLPMDL0080000001	Westlake	OH	44145	3/22/2000	lunch she said she mostly uses OxyContin for candcr or chronic pain. We talked about using it for acute and how it is no different in effectiveness but it is mor convenient
PPLPMDL0080000001	Warrensville Hts	OH	44122	3/22/2000	3/22 Dr says he is worried about addiction, says he has heard it all from audrey. Told him about what it says in the PI. Doctor uses alot of loracet plus. He says it works well. Follow up on Loracet, Ask him when he uses Oxy. Ask him why he used it on his herniated disk
PPLPMDL0080000001	Tallmadge	OH	44278	3/22/2000	One week in Tallmadge, one week in Kent. Scheduled Lunch. August earliest appt.
PPLPMDL0080000001	Westlake	OH	44145	3/22/2000	she always thought of OxyContin for cancer or very severe chronic. We talked about how it works vs. Percocet or Vicodin and how she can use it for the smae type of patiens but the patient will be able to take advantage of the conveniences of 12 hour dosing
PPLPMDL0080000001	Akron	OH	44304	3/23/2000	Sampled Senekot-5 met everyone. They called me the morphine girl. So I need to talk about Oxycontin and The difference between MS Contin.
PPLPMDL0080000001	Northfield	OH	44067	3/23/2000	follow up with program idea and get specific patients success on uni and bridge it to oxy. got the specific data for a program and had to haggle about price.worked out hte details.he feels he has alot of patients on oxy but he is confusing it with msc and end stage disease states.need to refocus and get him to add on when nsaids or niche it alot better for his use.
PPLPMDL0080000001	Warrensville Hts	OH	44122	3/23/2000	3/23 Introduced to the doctor, says he just wrote 2 RX for Oxy contin. Debbie is secretary. Contact Jeanette, she is the clinical pharmacist 491-6312 she is there T,TH,F Next time get more in depth with the doctor.
PPLPMDL0080000001	Akron	OH	44310	3/23/2000	Likes Oxycontin, will use more
PPLPMDL0080000001	Akron	OH	44302	3/23/2000	he is chief, says ropi is barely used, only kirk in certain blocks, might of beena cost issue. need to talk to kirk and get support from other docs to bring in for a trial
PPLPMDL0080000001	Cleveland	OH	44122	3/23/2000	3/23 surgery center. doctor is not a big fan of oxy, says nausea is too much. Told him to try it again in longer term pain. Not goin to be a big target
PPLPMDL0080000001	Lyndhurst	OH	44124	3/23/2000	Using Oxy 10mg with breakthrough if pt uses 3 breakthrough doses then he tells them to double their Oxy dose. Pts getting confused. Write go home orders sheet, be sure to include Oxy IR so he has to use it for
PPLPMDL0080000001	Parma	OH	44130	3/23/2000	Went to see Dr. Andre Smith. He would not see me, however, I did drop off the Uniphyl kits. He did remember that he was supposed to receive them.
PPLPMDL0080000001	Cleveland	OH	44115	3/23/2000	Pam Tropiano spoke on Palliative Care. We sponsored the dinner. Came out of my budget. Met many good contacts. Met Anastasia, one of the team leaders. Talked with her about scheduling an in-service. She said in late spring. Also met Donna. She is the Director of the hospice. Saw Dr. Agneberg also. Told him I will have his information he ordered at the TTT meeting in January.
PPLPMDL0080000001	Broadview Heights	OH	44147	3/23/2000	Will in-service the consultants on our JCAHO materials and Oxycontin. In -served pharmacy on JCAHO materials and Uniphyl. Met all the consultants. Will beging to get good working relationship with them. Will need to get a list of all the consultants and the facilities they cover from Karen.
PPLPMDL0080000001	Akron	OH	44302	3/23/2000	says he sees a need for chiro in certain cases. says kirk is the ropi supporter but he was the only one and word never got out about it. says to schedule inservice with the group
PPLPMDL0080000001	Akron	OH	44302	3/23/2000	reminder call, didn't have time to stop

PPLPMDL0080000001	Middleburg Hts	OH	44130	3/23/2000	looking psychological assessment forms to help identify difficult patients. uses allittle oxy, afraid of addiction. uses some vic and some duragesic. went over adv of oxy over both other products and the step ladder. doesnt have a good handle on treating patients with opioids. looking to talk with other pain docs about how they treat patients that primary care docs dont want. get some samples of contracts for him to use in practice. next call try to get him to discuss a specific patient that we can convert to oxy.
PPLPMDL0080000001	Akron	OH	44304	3/23/2000	Sampled Senekot-5 met everyone. They called me the morphine girl. So I need to talk about Oxycontin and The difference between MS Contin.
PPLPMDL0080000001	Beachwood	OH	44122	3/23/2000	3/22 Doctor says he uses quite a bit of Oxy, says with bone mets it is common to use oxy. MAureen is bcenter nurse. He says if patients tolerate it they stay on it, need to aske him how many patients he feels are not tolerating oxy, and also what does he switch to and why. He is using quite a bit of duragesic, need to find out why. He seems like a yes man, I think the duragesic rep may be telling him it is better tolerated. plan next call
PPLPMDL0080000001	Akron	OH	44303	3/23/2000	Has Chronic Back Pain himself from falling in the winter on the ice. He currently has some patients on OxyContin.
PPLPMDL0080000001	Solon	OH	44139	3/23/2000	talked about using in the oa setting and how treating patients pain can be better than not doing anything at all even in the short term setting
PPLPMDL0080000001	Independence	OH	44131	3/23/2000	need to find specific patients and get his method of pain management.titration and dosing He does not seem very busy yet.he is gettign a good reputation on the onc floor at the hospital.improitant to stay oon top of him and mke it seem oxy is always around
PPLPMDL0080000001	Beachwood	OH	44122	3/23/2000	Find out about Oxy and sell him on a specific patient, 3/23 doctor says he uses oxy, but the numbers say that he has not written, at least not in Jan. Talked to hima about titration and conversion. Nice guy, dont be too pushy, next time see if you can get a specific patient
PPLPMDL0080000001	Bedford/Sinai	OH	44146	3/23/2000	dosing and titration.
PPLPMDL0080000001	Parma	OH	44129	3/23/2000	need of find a way to find his hot buttons.he uses combos in the post op setting but likes the idea of 12h control.se and calling in are issues
PPLPMDL0080000001	Rocky River	OH	44116	3/24/2000	went over delivery system and why there is less abuse with OxyContin than short acting
PPLPMDL0080000001	Cleveland	OH	44127	3/24/2000	3/24 Doctor told me exactly where she says she uses oxy, she said in post op, chronic arthritis, some low back and also in cancer pts. I asked her about BT pain and she stumbled, she said that in her chronic or cancer patients she switches over to duragesic, we then talked about Oxy IR. Next time ask her where she uses Vicoden, also ask her why she switches to duragesic
PPLPMDL0080000001	Rocky River	OH	44116	3/24/2000	he said he really likes the concept of OxyContin and will have to use more. He said he is still getting his feet wet with it

PPLPMDL0080000001	Cuyahoga Falls	OH	44223	3/24/2000	pushing oxyir for patients in place of vic and percocet, need to keep reminding of tylenol toxicities. wants to bring chiro in for trial for lumbar blocks
PPLPMDL0080000001	Middleburg Heights	OH	44130	3/24/2000	asked some good questions.he is using in the chronic most severe cases.2-3 patients total on oxy.asked why he is not using in the post op setting and he did not have an answer.went over reasons why he should use and he committed.need to follow to make sure that he stays committed
PPLPMDL0080000001	Westlake	OH	44145	3/24/2000	he said the OxyContin and IR combination has worked very well for his chronic patients. He said he has now used OxyContin for some acute patients but has not gotten into the habit yet.

PPLPMDL0800000001	Lakewood	OH	44107	3/24/2000	he said several patients threw up taking OxyContin post op. He said much more than Vicoprophen. He understands the conversions and potencies but he will use Oxy for some of the stronger procedures. He said he has replaced all his Percocet writing with OxyContin.
PPLPMDL0800000001	Cleveland	OH	44105	3/24/2000	3/24 brief convo on oxy and oxy IR
PPLPMDL0800000001	Middleburg Hts	OH	44130	3/24/2000	icaho and clipboards seem to make a difference
PPLPMDL0800000001	Cleveland	OH	44127	3/24/2000	3/24 Doctor says he uses oxy, in jan he only wrote one script. He says he uses it in most painful surgeries, findout which ones these are. Find out what he uses in the other surgeries and why. says he uses oxy in retractable pain. Gives me the impression he feel oxy should be reserved for very painful stuff.
PPLPMDL0800000001	Rocky River	OH	44116	3/24/2000	quick hallway hit. He said he writes more OxyContin than anything. He admitted writing Duragesic for some patients but would not elaborate and went into a room with a patient

PPLPMDL0800000001	Lakewood	OH	44107	3/24/2000	he moved the office to Westlake. He said he has had good success with OxyContin and put jtwo new patients on it yesterday, a back and a severe arthritic
PPLPMDL0800000001	Cleveland	OH	44119	3/24/2000	Did the hospice rebate for the 4th quarter. Also met with Dr. Thomas and Wellman. Dr. Wellman just returned from a TTT in Arizona. He said it was very good. Also met with Joanne Sheldon about her conference in June and the monies she wants donated. Will send request to Chris Neumann.
PPLPMDL0800000001	Rocky River	OH	44116	3/24/2000	he said he doesn't see as many narcotic scripts as the store down the street in Lakewood but he has been recommending Senokot with the pain scripts
PPLPMDL0800000001	Akron	OH	44333	3/24/2000	surgical lounge.
PPLPMDL0800000001	Akron	OH	44333	3/24/2000	oxycontin vs the patch, seeing more from dr klejka.
PPLPMDL0800000001	Strongsville	OH	44136	3/24/2000	he is working more in the er room at the hospital.talked a little about pain management and how treating pain can increase quality and function of patients even in the short term use
PPLPMDL0800000001	Maple Hts	OH	44137	3/24/2000	show info from pi that clearance in elderly and oxy effects are a class and not a drug effect concerned about use in the elderly and not giving them too many se especially constipation.need to show safety profiles
PPLPMDL0800000001	Cleveland	OH	44119	3/24/2000	Dr. just got back form vacation. Gave her 10 of the 5th Vital Sign clipboards. She had just chnaged a pt. over to Oxycontin from morphine today. Next time, find out which one she uses first and why.
PPLPMDL0800000001	Cleveland	OH	44119	3/24/2000	Met with Dr. Wellman. We discussed mostly his TTT experience. He said it was good, and would like to speak for us. He said he more comfortable in his knowledge of pain management now that he has done it for a while. Next time, will try to find out if he is using any more Oxycontin. He said he uses more MS Contin in the past.
PPLPMDL0800000001	Akron	OH	44333	3/24/2000	vicodin is what uses post op. Oxycontin for chronic and more severe pain, need to find out what most common srgrery is.
PPLPMDL0800000001	Cuyahoga Falls	OH	44223	3/24/2000	not quite hitting it off him, standoffish. need to find out what his hot point is. says will try chiro if its around. didn't give out too much info as to where he places oxy. scheduled another lunch to get more time
PPLPMDL0800000001	Lakewood	OH	44107	3/24/2000	he said he has been pushed into trying Oxycontin by his partner for strong procedures but he is in the beginning stages
PPLPMDL0800000001	Akron	OH	44333	3/24/2000	oxycontin is being thought for more of chronic back pain. He is doing alot of disectomies and Imbar fusions. Not alot of pain where vicodin will not control the pain.
PPLPMDL0800000001	Beachwood	OH	44122	3/24/2000	DR says he use oxy for patients that have more than 1 to 2 weeks of pain, but not chronic pain. He says he prefers to use short acting agents with less than 2 weeks of pain because the patients can titrate down easier than with oxy, such as every 3 hours to every 6 hours etc.. Says that it is on a pts by pts basis for as to who is going to fall into the oxy catagory, find out what he is using for chronic pain. Tell him how to titrate down oxy. He uses alot of percocet, why not use oxy
PPLPMDL0800000001	Middleburg Hts	OH	44130	3/24/2000	oxy and oxy ir combination for hospice.cost seems to be a big issue.went over conversions and how to titrate as to not switch to other meds
PPLPMDL0800000001	Akron	OH	44333	3/24/2000	is not seeing that oxycontin is easier than the vicodin even though it is doses q12h. 2-3 10mg tabs and not controlling pain any better. aske about nausea and writing an antiemetic with oxycontin??
PPLPMDL0800000001	Fairlawn	OH	44333	3/24/2000	what are concerns with using oxycontin post op? more severe pain, pain that is not being controlled by the short acting or vicodin. mentioned severe fractures as an example. tablet size use is 20mg and 40mg q12h. not thinking as front line, vicodin is first line.
PPLPMDL0800000001	Berea	OH	44017	3/24/2000	calswell and how treating pain even stable non malignant can inc qol vs placebo
PPLPMDL0800000001	Akron	OH	44333	3/24/2000	doing a face lift that going to take around 6 hrs, said going to se 2-3 10mg tabs q12h post op for this female patient arond 46 yrs of age.
PPLPMDL0800000001	Westlake	OH	44145	3/24/2000	he said he is using some OxyContin and likes the concept of the 12 hour control but he needs to hear more about it and recommended setting up a lunch
PPLPMDL0800000001	Fairlawn	OH	44333	3/24/2000	foot and ankle, using 20mg and 40mg tabs for more severe fractures and ankle. lamina... or more severe surgical pcedures. Likes q12h dosing schedule and said working well. vicodin is being used for routine cases.
PPLPMDL0800000001	Maple Heights	OH	44137	3/24/2000	identity other patients like patient at window with qol and function guides talked about using in combination with nsaid and getting earlier uses.caldwell and showed how actually treating a patients pain can help

PPLPMDL0080000001	Akron	OH	44304	3/28/2000	Lunch is scheduled for Tuesday. go to 55 Arch St. in the basement around 11:00 A.M. Bring slides or overheads. I have about 15 minutes. Talked with 25 -30 ER doctors about OxyContin. The two head people wer there and they wanted info on prices and PI. They have a problem with people coming into ER wanting drugs to abuse. Abuse potential is what they are interested in. I spoke about the delivery system and how that may deter anyone from abusing it. Go to 55 Arch St. in A.M. to see if he got that info, and get the two head peoples names.

PPLPMDL0800000001	Akron	OH	44333	3/30/2000	what is the difference between a vicodin and oxycontin post op patient? using 2-3 10mg tabs q12h, on 50% of his shoulder cases and also mentioned his shoulder scopes that after block wears off are candidates for oxycontin. said will use on all shoulder tomorrow, 5 cases.
PPLPMDL0800000001	Fairlawn	OH	44333	3/30/2000	oxycontin is stronger than vicodin, for more severe cases. I went over the comparison of the potency and still not convince, will have to work oxycontin into some ankle fusion cases. 2-3 10mg tabs q12h or even 1-2 20mg
PPLPMDL0800000001	Akron	OH	44203	3/30/2000	dr campensa. He was gone last week to a meeting in Florida. Vicodin is a habit, he mentioned that he will present oxycontin to the group at the next monthly meeting. Has written a few, mainly 20mg q12h. Likes the q12h dosing benefit as controlling the pain for longer duration of action.
PPLPMDL0800000001	Akron	OH	44333	3/30/2000	was uncomfortable with the dosing, put a patient on 10mg q12h for chronic pain. 2-3 10mg tabs q12h is the dose to use. Has an ankle fusion this afternoon and going to use oxycontin.

PPLPMDL0800000001	Cleveland	OH	44113	3/30/2000	3/30 Talked to doctor in surgery lounge, Doctor says he wants the stamp, says it is the only way he will use it because of force of habit with percocet. But he says that percocet can be easier to use because pts are in pain in a few hours and they can take another pill. He says they mask the pain, the patients pain will come back so they take a pill. He says oxy is great for chronic pain, but for 2 to 3 weeks percocet may be better. He asked me what I would prefer. Ask him how often his patients have to wake up a t night and take their meds, also ask him to try oxy, dose it high enough and see if it last for 12 hours, also tell him can use oxyIR for BT pain. He says it is a psychological thing with patients they want a pill to take when they hurt. Ask him what he usually doses percocet at, and how often they have to take the percocet more frequently than prescribed. Talk about post op
PPLPMDL0800000001	Barberton	OH	44203	3/31/2000	what is the difference between a vicodin patient and an Oxycontin patient? Show the first part of the Calwell study as the number of patients that are in pain. Then ask if patients that have been in detox at St Thomas are from vicodin, why have any patients on vicodin, use Oxycontin, which ahs less abuse potential, if patients don't like it then you know opioids are not the answer.

PPLPMDL0080000001	Barberton	OH	44203	4/4/2000	when are you going to the patch? Are yo starting with it? or leaving oxycotin to go to the patch. What benefits do you see the patch vs oxycotin? starting patients on oxycotin, said that the 25ug patch is to strong to start patients on, waits until the patients are on 40mg a day or 20mg q12 to convert to the patch. Compliance, patients taking the pill too often or forgetting to take it and nausea are the too main reasons for switching oxycotin patients to the patch. Asked when the 160mg tab was coming out. Showed the ease of titration of oxycotin.

	Akron	OH	44310	4/7/2000	Gave him sample bags. He wasn't really intersted in the literature. He took possession of the flyer that has different things that he could order from me. I gave him chiclets and informed him of how the patch can be abused. He likes oxycontin. He mentioned MSContin and morphine and I let him know that Oxycontin has fewer side effects. He asked me about my education, Kent, can't read, Kent wrote, etc.. sense of humor. I told him too many bars and Akron, then Cal State. He likes me. Dropp off samples and goodies. Maybe he will write more. Good call. He said some cancer patients sons get ahold of the cancer patients meds and abuse them or sell them. Abuse is of interest to him. I told him I would find out more ways of abuse and let him know

PPLPMDL0080000001	Uniontown	OH	44685	4/7/2000	when going to oxycontin? vs ms contin . Three patients on MS Contin, dr lohmeyer started all the patients on ms contin. One is for fibromyalgia. Starts patients on vicodin for a few days and not sure if gin to be chronic. Most patients come back so she said would start patients on oxycontin. On patient switch from vicodin to oxycontin 20mg q12h for leg pain. Relieved her anxiety.
PPLPMDL0080000001	Uniontown	OH	44685	4/7/2000	vicodin is being used for chronic pain, more for acute back pain that will take on as as need basis. Oxycontin quick onset of action, allows patient to sleep through the night.

	Beachwood	OH	44122	4/17/2000	4/17 Early call with doctor, she says she uses oxy in chronic pain states like low back and rsd and some neuropathic pain, she also says she uses oxy to get people off of other pain meds, find out why. says that oxy works very well, she doses it to pain relief. Says oxy does not work that well in neuropathic pain, talked about watson reprint. She loves to talk about her laxative protocol which utilizes senekot-s, wanted samples. Then she said that she uses the protocol for all the opioids she uses, says uses duragesic in patients who can't swallow, says it is very expensive. Uses some kadian, she did not answer where she uses it, but she doses it b.i.d. Says she does not like to use anything for bt pain, talked about oxy IR for this, she agreed. Still need to find out where she is using the short acting, even though she says she does not use them in chronic pain, but that is all she treats is chronic pain. Find out when and where she uses these. Says that Patient assist program is too difficult, walk her thru this. Also wants some sample system, talk about it next time.

Mentioned a patient that dies on the patch fell asleep with a heating pad and is using Johnson-Johnson. Two patients with psp program titrating patients instead of leaving it.
PPLPMDL0800000001	Akron	OH	44333	4/19/2000	has used oxycotin for sprains and fractures, lately. Using mostly in nursing homes for chronic pain. Titrates up to 80mg but not sure if comfortable after that. @0mg q12h is most common dose. uniphyl, is being used after steroids for COPD patients.
PPLPMDL0800000001	Akron	OH	44333	4/19/2000	6 cases on friday and all had areaction. Did say that patients do not tolerate vicodin. Was considering usingit on all cases but too many side effects from possible seizure nausea. Said going to use on some cases vs vicodin, he said used on four cases at general on monday, but probably not going to get credit. Likes q12h dosing and works well in controlling pain.
PPLPMDL0800000001	Cleveland	OH	44106	4/19/2000	says will titr as needed, has breast pt on 160q12 right now- goal is always little or no BT. Wants APS book- very nice
PPLPMDL0800000001	Lakewood	OH	44107	4/19/2000	lunch. he is writing OxyContin 20mg q12h post op then gradually going to Vicodin then to Darvacet. Continue to show him that he can go down to OxyContin 10mg
PPLPMDL0800000001	Barberton	OH	44203	4/20/2000	keeps mentioned peaks and valleys of vicodin vs oxycotin. Oxycotin for more severe pain cases, hernias.

PPLPMDL0080000001	Warrensville Hts	OH	44122	4/20/2000	has only used one oxy card still rxing alot and discused other docs to invite to talk on june 29
PPLPMDL0080000001	Parma	OH	44130	4/20/2000	Discussed her assessment of the Train the Trainers program. She thought it was very informative and liked it very much. She will be leaving Kaiser in July. She would like to speak for us. Will wait to get her speaking assessment back.
PPLPMDL0080000001	Warrensville Hts	OH	44122	4/20/2000	inter in chiro cant come to meeting and doestn rx any oxy or po meds
PPLPMDL0080000001	Barberton	OH	44203	4/20/2000	what is difference between vicodin and oxycontin patient? vicodin is for acute pain of 1-4 weeks and oxycontin for chronic pain. going to oxycontin after vicodin.
PPLPMDL0080000001	Akron	OH	44302	4/20/2000	Joe scaglione is in charge of Akron Generals Orthopedic Residents. I scheduled a lunch. I left oxycontin sticky pads, pen holders, etc. green American Pain Society booklets, etc... They do not want document kits, or pain assessment questions or scales. Did like the Senekot coupons, will give out to pain med patients.
PPLPMDL0080000001	Akron	OH	44303	4/20/2000	Did a lunch. Brought him pop and candy. Gave him a documentation kit and suggested he incorporate a dr./patient contract. Also gave him a print on keeping your patient out of pain and keeping your license. Gave him 9 free patient starters and he wanted all of them. Follow up and find out who he gave them to. Go around lunch time so he'll have time.
PPLPMDL0080000001	Cleveland	OH	44111	4/20/2000	using ir with oxy using wisconsins pain initiative and eileen working on post op orders with pain team.gav him 2 free oxy cards see who he uses them on
PPLPMDL0080000001	Barberton	OH	44203	4/20/2000	low back study, any patient on vicodin now that could be converted to oxycontin? Vicodin use for acute pain is around four weeks, then oxycontin fits in. He has a patient taking 1 40mg tab in the morning and 2 40mg tabs in the evening for neuropathy that has failed on every other medication. I asked for patients that were on vicodin for at least four weeks and he said he would put some on oxycontin, no specific patients. PSP candidate.
PPLPMDL0080000001	Akron	OH	44302	4/20/2000	Dropped off a cake for Connie's B-day. We met. Said Happy B-Day. Dr. Connelly's patient was at desk saying that she was to call in a prescription for vicodin. Appt. made may 25@ 10:15. Left Candy, Senekot Protocol, Pen Holders, Partners against pain pins, sticky notes, pens, stamp for Senekot. CHRIS is Dr. Connelly's secretary. She sits by the front desk. Tell them that we now have the 160's!!!!
PPLPMDL0080000001	Barberton	OH	44203	4/20/2000	what % of patients are nausea or non compliant? Around 25% of patients are nausea, but need to clarify if it is from oxycontin or short acting.
PPLPMDL0080000001	Akron	OH	44302	4/20/2000	Announce that we now have the 160's!!!!!!!!!!!!!!!!!!!!!! Left Candy, Senekot Protocol, Pen Holders, Partners against pain pins, sticky notes, pens, stamp for Senekot. CHRIS is Dr. Connelly's secretary. She sits by the front desk.
PPLPMDL0080000001	Cleveland	OH	44195	4/20/2000	getting closer to switching to oxy for even the 2 wk pts
PPLPMDL0080000001	Independence	OH	44131	4/20/2000	talking to him about pain is almost impossible.he is not open to any suggestions or changing anything he does.mixes opioids because he does not like to go too high.he does seem to respond to nurses when they have suggestions about what to switch too
PPLPMDL0080000001	Akron	OH	44302	4/20/2000	Talked about Tangiers and misunderstood what he meant the first time. I am supposed to talk withJulie Lassano from the treatment center and we will arrange for a speaker to come on the fourth Tuesday of each month. I have to make an appt. and schedule this with Julie. Get a list of speakers and "Topics" to choose from Rick. Julie lassano 344-6159. Tell him that we now have the 160's!!!!!!!

PPLPMDL0800000001	Cleveland	OH	44127	4/20/2000	4/20 attacked vicodin, doctor says she uses oxy in extreme arthritis and also in severe low back pain. showed her the eqal anelgesia of oxy and vicodin. Asked doctor to switch vicodin arthritis pt to oxy. said she would. Find exactly where she is using vicodin and why.
PPLPMDL0800000001	Akron	OH	44203	4/20/2000	Dr. Billups. Using vicodin for short term and the pts can follow up with their FP in a few days. Calls his patient base an unusual patient group that have different needs. He mentioned abuse for his patients that if they got a long term prescription then they would never follow up with their family physician. Oxycontin is being reserved for longer term pain. I addressed the quick onset of action with oxycontin not having a high initial peak as does vicodin. Asked for a low back pain patient on the board and he would not commit to oxycontin for this patient. Left the new piece on oxycontin.
PPLPMDL0800000001	Barberton	OH	44203	4/20/2000	what is the most common pain treating with percocet and tylox? what are the patients on before going to the patch? treating chronic back pain and arthritic pain. Has started a few new patients on oxycontin and converted a patient from percocet to 40mg q12h of oxycontin. Usually on short acting before the patient and may not be tolerating the medication.
PPLPMDL0800000001	Independence	OH	44131	4/20/2000	titration and dosing. 3-2 rule and countering duragesic talked about how far he will go with oxy and he talked about uncontrollable se before he goes to something else.oxy is his first long acting and he does not like duragesic.he does not like the way the others in the group do pain management.he is primarily at marymount but is looking to open an office at one of the west side offices.gave him a couple of the psp certificates and he asked for more.might need to go over the program again just to make sure that he fully understands.might want to give him a couple of more certificates
PPLPMDL0800000001	Barberton	OH	44203	4/20/2000	mentioned the use of a couple of opioids used together to better control their pain with minimizing the side effects, at what dose of oxycontin are you adding on and what are you seeing that you no longer feel free to titrate up? at what point do you no longer feel comfortable with titrating oxycontin? and add on another opioid? Wrote an rx for oxycast. Not a particular dose at which she adds on other medication, she drew a chart that showed the therapeutic window and you reach a point where the dose escalation means more side effects. Has a sickle cell patient on 7 80mg tabs q12h in the hospital and going to be going home on oxycontin. Said does add on the patch but will still titrate oxycontin. After sees some side effects with oxycontin will add on another drug to stay in therapeutic window. Side effects are somnolence and some confusion.
PPLPMDL0800000001	Middleburg Hts	OH	44130	4/20/2000	need to find why he is only writing 16 scripts a month according to exp data see if it is accurate and how much comes from the hospitals. if hospital activity then need to find who key nurse and get help. I dont think he answered any questions honestly,he said that he is using and he is titration and that there is not a dose that he said at he said that he does not use multiple opioids in combination.
PPLPMDL0800000001	Cleveland	OH	44105	4/20/2000	4/20 doctor says she uses some oxy in acute setting but not much in chronic pain. Need to question the doctor more, talked about q12 dosing and ease of use versus short acting. not completely sold. does use uniphyl, said she would put next patient on it. sampled uniphyl
PPLPMDL0800000001	Barberton	OH	44203	4/20/2000	addiction is the issue, he has a lot of patients on chronic vicodin, working on converts to oxycontin 1-2 20mg q12h.
PPLPMDL0800000001	Akron	OH	44304	4/21/2000	Debbie left to be a drug rep. Patty is my contact person, Helen is the girl with the long eyelashes. The doctors seem very nice. I left posters with the 5th vital sign to hang up in the patient rooms. I will take the easel card board signs and gov. info booklets to put in the patients waiting room for the next time. take coca cola with oxycontin stickers. I noticed a dr. getting a coke.
PPLPMDL0800000001	Akron	OH	44304	4/21/2000	Gave him documentation kits. He wants patient assessment forms. Also take clip boards. talk about the patient type. ask him who he thinks would be a good candidate for oxycontin. He also likes the uniphyl, make sure that he writes uniphyl 600mg and not thephaline. Tell him there is no generic. Schedule another appt when Gedeon is in.
PPLPMDL0800000001	Akron	OH	44304	4/21/2000	Said to stop by anytime. Gave him documentation kits. He wants patient assessment forms. Also take clip boards. talk about the patient type. ask him who he thinks would be a good candidate for oxycontin. He also likes the uniphyl, make sure that he writes uniphyl 600mg and not thephaline. Tell him there is no generic. Schedule another appt when Gedeon is in. Maria said she would go over everything. Ask if I can leave posters to put up in each patient room. The 5th vital sign.
PPLPMDL0800000001	Akron	OH	44304	4/21/2000	I gave him some chidlets and addressed drug abuse, I also gave him a tape and told him that they spoke about Dr. Kavorkian on it. He seemed very interested. I also gave him a documentation kit and a flyer about treating your patients and keeping your license.
PPLPMDL0800000001	Akron	OH	44304	4/21/2000	Debbie left to be a drug rep. Patty is my contact person, Helen is the girl with the long eyelashes. The doctors seem very nice. PPLPMDL0800000001	Cleveland	OH	44106	4/26/2000	Spoke with John about Oxycontin. He said they love the product, but appear to only get good results q8h. He said he has tried everything and most pts. do better on q8h. he is obviously not doing something correct. Need to find out when pt. gets started on Oxycontin. John does a lot of the prescribing with Dr. Biscup. He concurs that it is getting easier to use Oxycontin in the hospital.
PPLPMDL0800000001	Akron	OH	44311	4/26/2000	Very interested. They want the pain assessment pages with the clip boards too. She mentioned Jacho, and take all 4 dr's the neil irick tape. I mentioned that they should use a dr./patient contract and the documentation kit. I scheduled a lunch. Set 6p.
PPLPMDL0800000001	Cleveland	OH	44111	4/26/2000	4/26 Talked to doctor in er, followed up to last call, he says he has used oxy since then, using it in chronic pain, asked him to use it in acute pain
PPLPMDL0800000001	Akron	OH	44302	4/26/2000	met again to go over chiro for labor and delivery. asked more questions to find out they don't use oral opioids in pain clinic, just seem to do blocks

PPLPMDL0800000001	Parma	OH	44130	4/26/2000	Spoke with Dr. Go again. He still is very hesitant about writing Oxycontin. He said he does see where it may be useful for people in severe pain, but he is having trouble determining who is in pain, particularly in demented pts. I gave him the AMDA guidelines. He was looking over them as we were talking. He is just afraid to write opioids. Will need the nursing home and other physicians help to convince him.

PLPMDL0080000001	Akron	OH	44319	4/28/2000	what patients with oA are not responding to NSAIDS? what is most common pain treating? what steps do you follow in treating Pain? using vicodin and vicodin es, starts his patients on either one. Converts patients to oxycontin, was not familiar with mg to mg dosing for oxycontin, vicodin es q6h to oxycontin 10mg q12h is not enough. Some of patients 20mg q12h to 40mg q12h then will convert back and forth between medications, the APAP level is not an issue.
PLPMDL0080000001	Akron	OH	44333	4/28/2000	said he has put three patients on the 80mg tabs q12h, titration of the patients that have been going to 40mg TID dosing. Vicodin and percocet patients are patients that have been on the medication and only taking 2-3 tabs a day on as as need basis.
PLPMDL0080000001	Akron	OH	44319	4/28/2000	oxycontin, has a patient that has been in and out of the hospital for musculoskeletal pain and vicodin is not controlling the pain, put on 20mg q12h of oxycontin and doing well.

Asked her for oxy business for her low back pts. said she would do it. Asked me for funds, yeah right!
PPLPMDL0080000001	Cleveland	OH	44109	5/1/2000	5/1 Gaot to talk to doctor in pm hallway, he says he uses alot of oxy, talked about having dr. rosenberg come in for grand round, he said he would love to have him. Talked about using oxy in the outpatient setting.
PPLPMDL0080000001	Unintown	OH	44685	5/1/2000	oxycotin for chronic pain, if have not been controlled on nsaid or darvocet then will use oxycotin, all chronic pain. Acute pain said using vicodin for an as needed basis, then if take around the clock will consider oxycotin..
PPLPMDL0080000001	Euclid	OH	44119	5/1/2000	Sandy Smith referred me back to you. When and what do you want to set up. What pain management do the other facilities have? Set up dinner for pain team.
PPLPMDL0080000001	Cleveland	OH	44109	5/1/2000	5/1 Talked to doctor about documentations nd also the fact that oxycotin is less pills per script compared to the short acting, she says she got another call from columbus because she has several pts who are going to multiple doctors. Follow up in 2 weeks, said she thinks oxy is the safest choice for pain.
PPLPMDL0080000001	Cleveland	OH	44109	5/1/2000	5/1 Doctor may need to be removed from core list, he says that pts like taking meds when they have pain, I said would they rather take pills Q12 and not feel their pain, he did not agree. Asked him to use oxy in OA pts, he said he would. follow up.
PPLPMDL0080000001	Copley	OH	44321	5/1/2000	chronic vs acute patients? vicodin vs oxycotin patients? vicodin is being used for acute pain for a few days, he gives vicodin for an as needed basis, this is his first line of opioid. Oxycotin is used if need to take an opioid around the clock for more than a couple of weeks. The chronic condition that he referenced was osteoarthritis. uniphyl, theo is last line for COPD after all agents fail.
PPLPMDL0080000001	Akron	OH	44333	5/1/2000	At what point would you consider leaving oxycotin? When would use the patch? mentioned reading an article on osteoarthritis using oxycotin in the annals of internal medicine. Vicodin use is coming after the NSAIDS or add ons, patient may call in complaining of some more pain and he will call in vicodin for a couple of days on as needed basis. I asked him if on long acting nsaid Then why not go to long acting opioid like oxycotin, said thinking about starting more chronic patients on oxycotin.
PPLPMDL0080000001	Akron	OH	44307	5/1/2000	Says he uses lots of oxycotin, also uses Colace. I suggested the Senekot-S. He wants to know if it on the Hospital formulary. Time principle. and titration. Left him green book and tape(blue).
PPLPMDL0080000001	Akron	OH	44307	5/1/2000	Says he uses lots of oxycotin, also uses Colace. I suggested the Senekot-S. He wants to know if it on the Hospital formulary. Time principle. and titration. Left him green book and tape(blue).
PPLPMDL0080000001	Gates Mills	OH	44040	5/1/2000	Discussed Oxy. Only uses lower doses. Left 2 PSP cards and Senekot coupons specifically for pts to be titrated rather than changing medications.
PPLPMDL0080000001	Akron	OH	44333	5/1/2000	any patients in the office today that are on vicodin or you are thinking of putting on a opioid for pain? vicodin is being used for patients that call in and are in pain, he calls in vicodin and tells them to take it on an as need basis. Oxycotin is for chronic pain and need to take it around the clock and for an extended time period. I showed the potency chart and compared oxycodone to hydrocodone, but this is not making an impact. Same think as vicodin but q12h dosing.
PPLPMDL0080000001	Akron	OH	44314	5/2/2000	how did she do on oxycotin? lack of peaks and troughs why start on short acting? She is taking 40mg q12h now said she felt someleone for the first 4-5 days. Had a patient waiting in a room that is on percocet 6-8 a day and going to start her on 20mg q12h with the percocet and then back the percocet down and titrate the oxycotin. When converting to oxycotin from vicodin or percocet, she starts out low with oxycotin and the short acting, then she backs off the short acting and titrates up oxycotin.
PPLPMDL0080000001	Cleveland	OH	44106	5/2/2000	BC 11/99Have lunch for the Oncology Fellows. Will discuss when pt. is placed on Oxycotin and what is starting dose. BC 12/99-Dr. said she does not like Oxycontin as much as MS Contin. She believes that the conversion from or to morphine is 1:1. Sh says that after about 60mg/day of Oxycotin, she converts to morphine and pts. get better pain relief. Find out how long pt. is on Oxycotin before they reach 60mg q12h. Is she titrating daily? RB-4/00-oxy update-dosing/titr. says allows up to 4 BT doses before titr. - need to f/u and on resources- contacts 5/2 oxy update-dosing/titr.- Says goes for 0-1 BT but will allow to get to 3- says thinks MSC is more potent- still says 1/1 but will still switch to MSC when has titr. oxy to 240 or higher Has seen someone go from minimal relief on 240oxy and down to 0 pain on morph- but somewhat agreed pts respond diff. even though see said no to ever seeing it work in opposite direction. Not famli. w/ release mech- and true12 and less abuse pot. - seemed to make impress. f/u on SE diff. and examp of higher doses- why go over. Told me to see Wendy for pt resources. Said many of the resid. coming thru say they need info on PM- dont get it. Great line for diversion is tell pt to file police rept if stolen- see how they respond. Gave ref to ESRD w/APAP.
PPLPMDL0080000001	Cleveland	OH	44106	5/2/2000	oxy update-dosing/titr. says pts ding well- talked alot @ diversion and addicton- both her and merid. went aware why our abuse potent so low.
PPLPMDL0080000001	Norton	OH	44203	5/2/2000	oxycotin use is for arthritic patients, low back, patients that are being converted from vicodin which he said he is concerned with APAP levels. Titration is a concern at 20mg q12h thinks need to go to pain management. Acute pain, he uses vicodin on as need basis for a couple of days. Hit onset of action that is dosed q12h. Less abuse potential that vicodin. Abuse is a concern. uniphyl for COPD patients.
PPLPMDL0080000001	Norton	OH	44203	5/2/2000	abuse is the biggest issue, oxycotin is being used for chronic pain. Asked how high can titrate, she was concerned about having a patient on 80mg q4h. Duragesc patients were chronic patients also and sold her on less abuse potential, but now she said they are abusing it as much as vicodin. Placing oxycotin for start with and also converting patients from vicodin. Concern with using opioids because they get alot of dr pottschmidt patients and some were abusing oxycotin. Compared oxycotin to the patch, quicker onset of action, steady state and easier to titrate.
PPLPMDL0080000001	Beachwood	OH	44122	5/2/2000	5/2 Doctor has not yet used oxy pcs cards, talked to him and jody, he says he is going to use the cards for hemoroidectomy, follow up to see how this works. He says he has been using oxy post op instead of percocet. says it is working well. doses 20mg Q 12
PPLPMDL0080000001	Westlake	OH	44145	5/2/2000	lunch- he said he is using some OxyContin for chronic pain but never thought of using it for acute pain until now
PPLPMDL0080000001	Beachwood	OH	44122	5/2/2000	5/2 Followed up from last call. Doctor used oxy in the knee op he did when marty and i talked to him said it worked well, he has another 2 surgeries next tues, follow up
PPLPMDL0080000001	Westlake	OH	44145	5/2/2000	he has a ptient on MS Contin for cancer. We talked about his nonmalignant pain management where he uses Vicodin and Darvacet. We made the comparisons and he agreed to give OxyContin a try
PPLPMDL0080000001	Akron	OH	44333	5/2/2000	vicodin is being used after nsaid and as the narcotic for a few days on as needed basis. Thinking of oxycotin as being stronger and not a drug for acute pain.
PPLPMDL0080000001	Cleveland	OH	44106	5/2/2000	oxy update-dosing/titr.
PPLPMDL0080000001	Lakewood	OH	44107	5/2/2000	he said he has a patient doing well on OxyContin after he started him from the free week offer
PPLPMDL0080000001	Cleveland	OH	44109	5/2/2000	5/2 Saw doctor in office, he said he would sponser lunch for ortho group. Set up with debi
PPLPMDL0080000001	Cleveland	OH	44117	5/2/2000	Says he's getting into more wholistic medicine but will still be prescribing. Has he gotten into trouble?
PPLPMDL0080000001	Lakewood	OH	44107	5/2/2000	he uses a lot of OxyContin but still after Vicodin. get him to replace it
PPLPMDL0080000001	Westlake	OH	44145	5/2/2000	follow up with the 4 free patient starters he still didn't use the patient starters. He claims that he only has 1 or 2 patients on pain meds right now
PPLPMDL0080000001	Cleveland	OH	44106	5/2/2000	oxy update-dosing/titr.
PPLPMDL0080000001	Cleveland	OH	44195	5/2/2000	oxy update-dosing/titr.
PPLPMDL0080000001	Norton	OH	44203	5/2/2000	abuse is a concern, he is afraid of using any opioids, took on over 60% of dr pottschmidt patients and thinks all patients are drug seeking.
PPLPMDL0080000001	Shaker Hts	OH	44122	5/2/2000	5/2 Lunch, nice guy, likes to talk about every thing. Using oxy in chronic setting like cancer pain and sciatic problems and also in pts who refuse to get knee surgery. He says flat out that he is using oxy after he uses short acting meds. I asked him why not just start with oxy, he said it makes sense, Gave him 1 pcs card and asked him to use it to start a patient on oxy not short acting, he said he would. follow up, I think he needs to be reminded, but will use more oxy. Next time bring in pt free goods forms
PPLPMDL0080000001	Norton	OH	44203	5/2/2000	abuse is the biggest issue. Oxycotin is for more severe chronic pain, vicodin for acute pain and said gives only a couple on as needed basis.
PPLPMDL0080000001	Euclid	OH	44117	5/2/2000	New partner is switching many Vic pts to Oxy. Requesting conversion guides, Patient agreements, and senekot info. Increase call frequency.
PPLPMDL0080000001	Westlake	OH	44145	5/2/2000	he said to keep stopping by to remind him to use OxyContin
PPLPMDL0080000001	Lakewood	OH	44107	5/2/2000	she said she has a couple of patients doing well on OxyContin but doesn't treat a lot of pain in general. She said she does have a lot of people on Uniphyl
PPLPMDL0080000001	Cleveland Hts.	OH	44118	5/2/2000	Had lunch for the nursing staff. Spent a lot of time speaking with Cindy Engbert, R.Ph. She is one of the oncology pharmacists. I spent a lot of time discussing Oxycotin with her. I gave her 4 PCS cards to use with 4 of the cancer pts. She said many of their elderly pts. do not have drug coverage. She said she will use all 4 cards. She does not have a problem with increased cost if it help the pt. I also discussed getting the nurses to recommend Oxycotin for the renal pts. I gave Mary Jo an Oxycotin conversion chart and showed her how to use it. She said she will begin recommending to convert Darvocet pts. to Oxycotin.
PPLPMDL0080000001	Westlake	OH	44145	5/2/2000	went over the nonmalignant uses of Oxycotin
PPLPMDL0080000001	Westlake	OH	44145	5/2/2000	went over benefits over Vicodin and how similar it is as far as ease of writing
PPLPMDL0080000001	Cleveland	OH	44109	5/2/2000	Talked with residence, gave conversion guides, talked to pat she gave me doctor days
PPLPMDL0080000001	Cleveland	OH	44109	5/2/2000	Dr. Rhoades and Carter are leaving group. Lunch planne din 3 weeks
PPLPMDL0080000001	Cleveland	OH	44109	5/2/2000	Found out that offices on 9th floor, michele says to call to see if can see docs Dr. Fratianna and Yuwler..
PPLPMDL0080000001	Westlake	OH	44145	5/2/2000	he still prefers Uniphyl as his top choice but he's letting a lot of scripts slip through generic
PPLPMDL0080000001	Akron	OH	44333	5/2/2000	surgical lounge.
PPLPMDL0080000001	Norton	OH	44203	5/2/2000	oxycotin, abuse is a concern and thhinks more addicting thst vicodin
PPLPMDL0080000001	Fairlawn	OH	44333	5/2/2000	senekot-s for constipation.
PPLPMDL0080000001	Akron	OH	44314	5/2/2000	following dr richmonds lead with oxycotin to convert vicodin and percocet patient. he starts all patients on as needed basis for a few days on vicodin and percocet.
PPLPMDL0080000001	Cleveland	OH	44109	5/2/2000	5/2 doctor says he is using some oxy, data says not really. Talked about using oxy in place of short acting. He did not know that onset was 1 hour or less with oxy said he would try it. Follow up
PPLPMDL0080000001	Cleveland Hts.	OH	44118	5/2/2000	Dr. said she is beginning to use Oxycotin more often. I am not seeing it at her facility through invoices. Next time I will take her and Mary Jo to lunch so I can get some quality time with her. Will schedule for the week of
PPLPMDL0080000001	Cleveland	OH	44132	5/2/2000	Walked out quickly. Uses Oxy but switches at higher doses. Perceives it not as strong.
PPLPMDL0080000001	Cleveland	OH	44106	5/2/2000	oxy update-dosing/titr.
PPLPMDL0080000001	Cleveland	OH	44106	5/2/2000	oxy update-dosing/titr.
PPLPMDL0080000001	Cleveland	OH	44106	5/2/2000	oxy update-dosing/titr.
PPLPMDL0080000001	Beachwood	OH	44122	5/2/2000	5/2 Talked to doctor about pcs cards and other areas of pain. She said she will definitely use the pcs cards and will use it in areas that she typically does not use oxy, like acute pain and also areas like fibromyalgia. Told her I would follow up in 2 weeks she said she would use them by then
PPLPMDL0080000001	Akron	OH	44333	5/2/2000	Why use vicodin with oxycotin 20mg q12h instead of using the benefit of q12h dosing and titrate up? work on titration principles? putt two patients on 40mg q12h yesterday. Vicodin is still being used first, he said he does not give a refill on any opioid???? Earlier he mentioned the lack of being able to call in oxycotin. Thinks interchangeable wit vicodin, work on patients currently on vicodin.

PPPLMDL080000001	Akron	OH	44333	5/2/2000	What post op procedure would he not use oxycontin on? did not say much today, he said he is using oxycontin on his procedures that he normally uses vicodin even some carpal tunnel cases. Darvocet for the other cases. 1-3 10mg tabs q12h.
